A History of the Application of Islamic Law in Nigeria Yushau Sodiq,2017-01-20 This work analyzes the history of the application of Islamic law (Shari'ah) in Nigeria. It analyzes how Islamic law emerged in Nigeria toward the beginning of the 19th century and remained applicable until the arrival of the British Colonial regime in Northern Nigeria in 1903. It sheds light on how the law survived colonial rule and continues until today. Dr. Yushau Sodiq analyzes progressive elements in Islamic law over the past two centuries. He goes on to discuss many objections raised by the Nigerian Christians against the application of Islamic law, as well as how Muslims respond to such criticism. In a world that is often saturated with Islamophobia and ignorant misconceptions about Islam, this book aims to clarify and respond to many important concepts and ideas within Islamic religious tradition.

Teaching Islam Brannon M. Wheeler,2003 The critical role of Islam in global affairs makes it an increasingly valuable part of the undergraduate curriculum. The Canonization of Islamic Law Ahmed El Shamsy,2013-10-21 Ahmed El Shamsy's The Canonization of Islamic Law is a detailed history of the birth of classical Islamic law. It shows how Islamic law and its institutions emerged out of the canonization of the sacred sources of Quran and Sunna (prophetic practice) in the eighth and ninth centuries CE. The book focuses on the ideas and influence of the jurist al-Shāfi'ī (d. 820 CE), who inaugurated the process of canonization, and it paints a rich picture of the intellectual engagements, political turbulence, and social changes that formed the context of his and his followers' careers.

Concept And Application Of Shariah For The Construction Industry: Shariah Compliance In Construction Contracts, Project Finance And Risk Management Khairuddin Abdul Rashid,Kiyoshi Kobayashi,Sharina Fariyah Hasan,Masamitsu Onishi,2018-10-19 The application of Shariah compliance in business transactions continues to increase. The Asian financial crisis of 1997, global financial crisis of 2007-2008, Enron scandal and other reported ills besieging conventional business transactions have led to advocates of Shariah-compliant business transactions promoting the latter as a credible alternative. However,

unlike the banking, commerce and financial sectors, the uptake by the construction sector was sluggish due to limited understanding of Shariah among the practitioners and policymakers compounded by the lack of research and publications on its application for the construction sector. This book is intended for students, researchers, practitioners and policymakers of the construction industry as well as the related upstream and downstream activities. It offers basic theories, challenges current practices, and proposes innovative ideas on Shariah compliance and its application for the construction industry. Related Link(s)

Defining Boundaries in al-Andalus Janina M. Safran, 2013-04-09 Al-Andalus, the Arabic name for the medieval Islamic state in Iberia, endured for over 750 years following the Arab and Berber conquest of Hispania in 711. While the popular perception of al-Andalus is that of a land of religious tolerance and cultural cooperation, the fact is that we know relatively little about how Muslims governed Christians and Jews in al-Andalus and about social relations among Muslims, Christians, and Jews. In *Defining Boundaries in al-Andalus*, Janina M. Safran takes a close look at the structure and practice of Muslim political and legal-religious authority and offers a rare look at intercommunal life in Iberia during the first three centuries of Islamic rule. Safran makes creative use of a body of evidence that until now has gone largely untapped by historians—the writings and opinions of Andalusī and Maghribī jurists during the Umayyad dynasty. These sources enable her to bring to life a society undergoing dramatic transformation. Obvious differences between conquerors and conquered and Muslims and non-Muslims became blurred over time by transculturation, intermarriage, and conversion. Safran examines ample evidence of intimate contact between individuals of different religious communities and of legal-judicial accommodation to develop an argument about how legal-religious authorities interpreted the social contract between the Muslim regime and the Christian and Jewish populations. Providing a variety of examples of boundary-testing and negotiation and bringing judges, jurists, and their legal opinions and texts into the narrative of Andalusī history, Safran deepens our understanding of the politics of Umayyad rule, makes Islamic law tangibly social, and renders intercommunal relations vividly personal.

Mālik and Medina Umar F. Abd-Allah, 2013-03-28 This book studies the legal reasoning of Mālik ibn Anas. It emphasizes that the Sunnī schools of law emerged during the formative period as independent legal methodologies.

Women and the Transmission of Religious Knowledge in Islam Asma Sayeed, 2013-08-06 Asma Sayeed's book traces the history of Muslim women's religious education over the course of nearly ten centuries. It focuses on women's transmission of religious knowledge (specifically of reports attributed to the Prophet Muḥammad) and examines the reasons for the rise, decline, and reappearance of women in this arena. It also relates these trends to broader issues facing Muslim communities in these eras. This fascinating history is relevant for anyone interested in the history of Muslim women as well as those seeking a fuller understanding of developments in Muslim educational and social history, such as the development of Sunnī Muslim orthodoxy, the evolution of the scholarly classes (ulamā), and the social history of ḥadīth transmission.

The Origins of Islamic Law Yasin Dutton,2017-12-24 This book is about the application of the Quran as law. It considers the methods used by Malik in his Muwatta to derive judgements from the Quran and is thus concerned on one level with the finer details of Quranic interpretation. However, since any discussion of the Quran in the context of the Muwatta must necessarily include consideration of the terms Sunnah, hadith, ijtiḥad and amal, these terms - or at least the concepts behind them - also receive considerable attention. Indeed, the argument of this book has more bearing on the history and development of Islamic law - of which the above terms are the expression - than on the science of Quranic interpretation. This study is an attempt to go back before the time of As-Shaafi and reconstruct a picture of how the most 'ancient' of the ancient' schools i.e that of Madina, approached the question of applying the Quran as law. This study divides naturally into three parts. The first gives the general contextual background of Madina which is essential if one is to place Malik and his muwatta in their proper Madinan setting. Part two concerns the more specifically Quranic element in the muwatta. Part three is in the nature of a conclusory section where the commonly accepted axiom that Islamic law is based on the two-fold source of Quran and sunnah is re-examined in the light of the preceding chapters.

Law and Power in the Islamic World Sami Zubaida,2003-05-23 Islamic law (the Shari'a) and its application is a central issue in contemporary Islamic politics and culture. Starting from modern concerns, this book examines the origins and evolution of the Shari'a and the corpus of texts, concepts and practices in which it has been enshrined. The central paradox in this history is one of power: the Shari'a is jurist's law, theoretically derived from sacred sources, yet dependent for its institution and application on rulers, with their own agendas and priorities. Sami Zubaida here considers key historical episodes of political accommodations and contests between scholars and sultans. Drawing on modern examples, mainly from Egypt and Iran, Zubaida explores how the Shari'a has evolved and mutated to accommodate the workings of a modern state by examining the reforms of the 19th and 20th centuries and the politics of the contemporary world. *Law and Power in the Islamic World* is an original and significant contribution to the debates surrounding Islam and ideas of modernity. As such its appeal and importance range across a wide spectrum of readers, students and scholars interested in Islamic law and the politics and social structures of the Muslim world. Extremely informed and highly readable: unlike any previous writings on the subject, it combines deep historical analysis with a vital sociological and political perspective. In these difficult times, it will be required reading both for experts and for the general reader with any serious interest in the world today. Eberhard Kienle, SOAS.

Comparing Religions Through Law Jacob Neusner,Tamara Sonn,2002-03-11 *Comparing Religions Through Law* offers a ground-breaking study which compares these two religions through shared dominant structures. In the case of Judaism and Islam the dominant structure is law. *Comparing Religions Through Law* presents an innovative and sometimes controversial study of the comparisons and contrasts

between the two religions and offers an example of how comparative religious studies can provide grounds for mutual understanding.

Miscellanea Arabica Et Islamica F. de Jong, Frederick de Jong, 1993 The volume contains twenty contributions to the fields of Arabic Linguistics, Islamic Law, and Arabic and Islamic thought. These are edited and often revised and enlarged versions of papers which were originally presented at the 15th Congress of the Union Europeenne des Arabisants et Islamisants, held at the University of Utrecht in September 1990. They were selected for publication in this volume because of their originality and substance. The diversity and richness of this collection reflects the scope of research in the fields of Arabic and Islamic studies in Europe today.

Women as Imams Simonetta Calderini, 2020-12-10 There is a long and rich history of opinion centred on female prayer leadership in Islam that has occupied the minds of theologians and jurists alike. It includes outright prohibition, dislike, permissibility under certain conditions and, although rarely, unrestricted sanction, or even endorsement. This book discusses debates drawn from scholars of the formative period of Islam who engaged with the issue of female prayer leadership. Simonetta Calderini critically analyses their arguments, puts them into their historical context, and, for the first time, tracks down how they have informed current views on female imama (prayer leadership). In presenting the variety of opinions discussed in the past by Sunni and Shi'i scholars, and some of the Sufis among them, the book uncovers how they are, at present, being used selectively, depending on modern agendas and biases. It also reviews the roles and types of authority of current women imams in diverse contexts spanning from Asia, Africa and Europe to America. The research offers readers the opportunity to gain nuanced answers to the question of female imama today that may lead to informed discussions and to change, if not necessarily in practices then at the very least in attitudes. This ground-breaking book interrogates the cases of women who are reported to have led prayer in the past. It then analyses the voices of current women imams, many of whom engage with those women of the past to validate their own roles in the present and so pave the way for the future.

Original Islam Yasin Dutton, 2007 Original Islam investigates the primacy of Madinan Islam and the madhhab (school of law) of its main exponent, Malik ibn Anas. It contains an annotated translation of Intisar al-faqir al-salik li-tarjih madhhab al-Imam al-kabir Malik, which was written by al-Ra'i, a fifteenth-century Andalusian scholar resident in Cairo. This book includes: a comprehensive section on the scholarly credentials of the great eighth-century Madinan jurist Malik ibn Anas a detailed examination of a number of theoretical and practical disputed legal issues examples of the inter-madhhab rivalry and prejudice prevalent in fifteenth-century Cairo an extensive introduction giving background information on al-Ra'i and his life and times. It also highlights the significance of the text for contemporary Muslim discourse, in which both modernist and fundamentalist elements often equate the concept of madhhab with an outmoded tradition which must be rejected as irrelevant to the practice of Islam in a globalized world. This book aims to put this ongoing controversy about madhhab, particularly the Maliki madhhab and its pre-madhhab Madinan origins, on a surer footing. Original Islam provides access to a hitherto little known area of Islamic law and is essential reading for those with interests in this area.

Beyond the Veil, Revised Edition Fatima Mernissi, 1987-04-22 From the writing of her first book, *Beyond the Veil: Male-Female Dynamics in Modern Muslim Society* in 1975, Mernissi has sought to reclaim the ideological discourse on women and sexuality from the stranglehold of patriarchy. She critically examines the classical corpus of religious-juristic texts, including the Hadith, and reinterprets them from a feminist perspective. In her view, the Muslim ideal of the silent, passive, obedient woman has nothing to do with the authentic message of Islam. Rather, it is a construction of the 'ulama', the male jurists-

theologians who manipulated and distorted the religious texts in order to preserve the patriarchal system. Mernissi's work explores the relationship between sexual ideology, gender identity, sociopolitical organization, and the status of women in Islam; her special focus, however, is Moroccan society and culture. As a feminist, her work represents an attempt to undermine the ideological and political systems that silence and oppress Muslim women.
