Shadow Tier 2 Steve Stratton,2023-08-30 When the resurgent Sinaloa cartel attacks Wolf and his wife, Elle Parker, on the Crow Indian reservation, the safety of his people becomes Job One-until the president of the United States orders Shadow Tier to stop the Taliban's opium trade. The president's message: The drug war is a failure. Fix this now. Torn between saving his people and the president's demands for direct action, Wolf sends Shadow Tier's Bravo Squadron to Afghanistan to infiltrate the Taliban drug organization. He sends Kieran Kennedy, his executive officer, to stand up and train a new international Charlie Squadron in the U.K. While Wolf bends the rules to protect the reservation on the home front, the squadrons track opium with a mysterious United Nations connection out of Afghanistan to a new French Connection in Marseilles, France. The teams identify a likely distribution hub and its leadership. But going deeper will take initiative and innovation. Kennedy takes the dangerous decision to operate in the open ... as a fake drug cartel. The operation yields results, but there is a piece missing. Parker and Kennedy believe a government contractor providing logistics flights into and out of the war zones is involved. Plans are made by the fake cartel for a large shipment of heroin to go to the mafia in New York City, where wholesale arrests will be made if all goes as planned. As the data pours in from three continents, the heroin network unfolds and things do not go as planned. The takedown of a multi-national drug production, shipment, and sales operation is unlike any operation Shadow Tier has attempted. For the president, this is a no-fail mission. For Shadow Tier, it's time to bring war back to the war on drugs.
