Blank Spots on the Map Trevor Paglen,2009-02-05 Welcome to a top-level clearance world that doesn't exist...Now with updated material for the paperback edition. This is the adventurous, insightful, and often chilling story of a road trip through a shadow nation of state secrets, clandestine military bases, black sites, hidden laboratories, and top-secret agencies that make up what insiders call the black world. Here, geographer and provocateur Trevor Paglen knocks on the doors of CIA prisons, stakes out a covert air base in Nevada from a mountaintop 30 miles away, dissects the Defense Department's multibillion dollar black budget, and interviews those who live on the edges of these blank spots. Whether Paglen reports from a hotel room in Vegas, a secret prison in Kabul, or a trailer in Shoshone Indian territory, he is impassioned, rigorous, relentless-and delivers eye-opening details.

There's a Map on My Lap! Tish Rabe,2019-06-18 The Cat in the Hat introduces beginning readers to maps-the different kinds (city, state, world, topographic, temperature, terrain, etc.); their formats (flat, globe, atlas, puzzle); the tools we use to read them (symbols, scales, grids, compasses); and funny facts about the places they show us ("Michigan looks like a scarf and a mitten! Louisiana looks like a chair you can sit in!").

They Draw and Travel: 100 Illustrated Maps of Very Special Places Nate Padavick,2020-02-13 The maps in this book were submitted to They Draw & Travel as entries in a 2019 contest called Mapping Special Places. This contest, sponsored by Stroly Inc., challenged artists around the world to create a map of a place that is very special to them. While over 300 maps were submitted to this contest, 100 of them appear in this book. They represent a global sample of the various special places chosen by 100 different artists. Some chose to illustrate their home town, while others picked a favorite vacation spot. Some maps tell a story, others provide fun itineraries, a few share insightful histories, and they all beautifully celebrate a place that is indeed very special.

The Map of True Places Brunonia Barry,2011-03-22 From Brunonia Barry, the New York Times bestselling author of *The Lace Reader*, comes an emotionally compelling novel about finding your true place in the world. A respected Boston psychotherapist, Zee Finch has come a long way from a motherless childhood spent stealing boats. But the actions of a patient throw Zee into emotional chaos and take her back to places she though she'd left behind. What starts as a brief visit home to Salem begins a larger journey. Suddenly having to care for her ailing father after his longtime companion moves out, Zee must come to terms with a strained and awkward relationship that has always been marked by half-truths and haunted by the untimely death of her mother. Overwhelmed by her new role, Zee must destroy the existing map of her life and chart a new course—one that will guide her not only into her future but into her past as well.

A Gettysburg Photo Tour Jack Kunkel,2013-01-24 Come back in time with me as we tour the exact locations on the Gettysburg battlefield where events happened - both momentous and mundane - during the battle that changed American history. We know for sure exactly where certain events happened because we can match the modern-day locations to where the old, period photographs were taken. The Gettysburg battlefield was unique in the Civil War in that it was both heavily photographed and well preserved, allowing us to follow in the exact footsteps of the original photographers who took photos that they considered the most worthy at that time. Though no photos were taken while the battle was in progress, a large number were taken just a few days later - while Lee's army was still retreating back to Virginia, and before mothers learned their boys lay dead at a place called Gettysburg. All of the best of the period photos known taken of Gettysburg in the days or month after the battle are included in this book, most with easily followed map locations of where they were taken, and even GPS coordinates. Where no immediate photos were taken of an interesting subject, I've included the earliest photo available, sometimes one or two decades after the battle. In all, you'll find over 100 then & now Gettysburg photos in this book, as well as numerous landscape photos showing modern views of the battlefield. Whether you tour the battlefield from your easy chair, or actually walking the field, I hope and believe you'll find this book to be an invaluable companion.

The Last Empty Places Peter Stark,2023-02-07 . . . intriguing, both a solid refresher on our savage colonial history and a smart rumination on what it means to get lost. — Outside First time in paperback, ebook, and audio editions Part travel adventure, part history, part exploration Features four specific blank spots from across the country and delves into our human relationships with place In *The Last Empty Places*, bestselling author Peter Stark takes the reader to four of the most remote, wild, and unpopulated areas of the United States outside of Alaska and mainly not part of protected wilderness: the rivers and forests of Northern Maine; the rugged, unpopulated region of Western Pennsylvania that lies only a short distance from the East's big cities; the haunting canyons of Central New Mexico; and the vast, arid basins of Southeast Oregon. Stark discovers that the places he visits are only blank in terms of a lack of recorded history. In fact, each place holds layers of history, meaning, and intrinsic value and is far from being blank. He also finds that each region has played an important role in shaping our American idea of wilderness through the influential natural philosophers who visited these places and wrote about their experiences--Henry David Thoreau, William Bartram, John Muir, and Aldo Leopold. It's a fascinating look at the value of nature, the ways humans use and approach it, and what it means to seek out empty places in today's world.

Mapping Travel Jordana Dym,2021-08-30 Drawing on a thousand years of European travel writing and mapmaking, Dym suggests that after centuries of text-based itineraries and on-the spot directions guiding travelers and constituting their reports, maps in the fifteenth century emerged as tools for Europeans to support and report the results of land and sea travel. With each succeeding generation, these linear journey maps have become increasingly common and complex, responding to changes in forms of transportation, such as air and motor car 'flight' and print technology, especially the advent of multi-color printing. This is their story.

You Are Here: NYC Katharine Harmon,2016-11-01 Maps are magical. Every graphic, like every story, has a point of view, and New York is rife with mapmaking possibilities, thick with mythology, and glutted with history. *You Are Here: NYC* assembles some two hundred maps charting every inch and facet of the five boroughs, depicting New Yorks of past and present, and a city that never was. A Nightclub Map of Harlem traces a boozy night from the Radium and the Cotton Club to the Savoy and then the Lafayette; Wonders of New York pinpoints three hundred sites of interest, including the alleged location of Captain Kidd's buried treasure; the Ghostbusters subway map plots the route from Astral Projections Place to Stay Puft Street; and a rejected proposal of ornate topiaries illustrates a Central Park that might have been. This sequel to the best-selling *You Are*

Foreign Maps United States. Department of the Army,1956

The Map of Enough Molly Caro May,2014-03-18 Molly Caro May grew up as part of a nomadic family, one proud of their international sensibilities, a tribe that never settled in one place for very long. Growing up moving from foreign country to foreign country, just like her father and grandfather, she became attached to her identity as a global woman from nowhere. But, on the verge of turning thirty years old, everything changed. Molly and her fiancé Chris suddenly move to 107 acres in Montana, land her family owns but rarely visits, with the idea of staying for only a year. Surrounded by tall grass, deep woods, and the presence of predators, the young couple starts the challenging and often messy process of building a traditional Mongolian yurt from scratch. They finally finish just on the cusp of winter, in a below-zero degree snowstorm. For Molly it is her first real home, yet a nomadic one, this one concession meant to be dissembled and moved at will. Yurt-life gives her rare exposure to nature, to the elements, to the wildlife all around them. It also feels contrary to the modern world, and this triggers in Molly an exploration of what home means to the emergent generation. In today's age, has globalization and technology taught us that something better, the next best thing, is always out there? How does any young adult establish roots, and how do we decide what kind of life we want to lead? How much, ever, is enough?
