Miami Graffiti James T. Murray, Karla L. Murray, 2009 In this first book to focus solely on Miami's graffiti scene, two acclaimed photographers offer panoramic proof of the city's unique energy and aesthetic. If Miami isn't a city normally associated with graffiti, this vibrant and exquisitely photographed collection of works will make readers think again. Over two hundred images reflect Miami's hugely diverse culture with their eye-popping colors, Art Deco flourishes, depictions of palm trees, beaches, marine life, and local iconic figures. Here, a surprising and dangerous underside to the area is also captured. Extensive coverage of abandoned buildings nicknamed Penits, de facto museums where entire crews practice their styles, and on-the-outs writers occasionally end up living, proves there is more to the city than South Beach's glitz and glam. Dozens of close-up shots reveal gorgeous, intricate detail, and in-process shots illustrate the technique of turning blank walls, buses, billboards, and other public canvases into stunning masterpieces. Quotes from the city's leading graffiti artists including Crome, Quake, and Siner lend further local perspective to this increasingly popular and universal urban art form. AUTHOR: JAMES and KARLA MURRAY are professional photographers and authors. Their books include *Broken Windows*, *Burning New York* and *Store Front: The Disappearing Face of New York*. They live and work in Florida and New York, where their photos have been exhibited at the Brooklyn Historical Society and the New-York Historical Society ILLUSTRATIONS 200 colour

Troubled Waters David Michel, Amit Pandya, 2009 Examines the multiple challenges that global climate change raises for the management of shared freshwater resources. Regional experts and Stimson analysts assess the prospective risks to human security, evaluate the possibilities for cooperative responses, and explore how policies and institutions can evolve to ensure sustainable water supplies in a warming world.

Poverty and Shared Prosperity 2020 World Bank, 2020-12-23 This edition of the biennial Poverty and Shared Prosperity report brings sobering news. The COVID-19 (coronavirus) pandemic and its associated economic crisis, compounded by the effects of armed conflict and climate change, are reversing hard-won gains in poverty reduction and shared prosperity. The fight to end poverty has suffered its worst setback in decades after more than 20 years of progress. The goal of ending extreme poverty by 2030, already at risk before the pandemic, is now beyond reach in the absence of swift, significant, and sustained action, and the objective of advancing shared prosperity—raising the incomes of the poorest 40 percent in each country—will be much more difficult. *Poverty and Shared Prosperity 2020: Reversals of Fortune* presents new estimates of COVID-19's impacts on global poverty and shared prosperity. Harnessing fresh data from frontline surveys and economic simulations, it shows that pandemic-related job losses and deprivation worldwide are hitting already poor and vulnerable people hard, while also shifting the profile of global poverty to include millions of 'new poor.' Original analysis included in the report shows that the new poor are more urban, better educated, and less likely to work in agriculture than those living in extreme poverty before COVID-19. It also gives new estimates of the impact of conflict and climate change, and how they overlap. These results are important for targeting policies to safeguard lives and livelihoods. It shows

how some countries are acting to reverse the crisis, protect those most vulnerable, and promote a resilient recovery. These findings call for urgent action. If the global response fails the world's poorest and most vulnerable people now, the losses they have experienced to date will be minimal compared with what lies ahead. Success over the long term will require much more than stopping COVID-19. As efforts to curb the disease and its economic fallout intensify, the interrupted development agenda in low- and middle-income countries must be put back on track. Recovering from today's reversals of fortune requires tackling the economic crisis unleashed by COVID-19 with a commitment proportional to the crisis itself. In doing so, countries can also plant the seeds for dealing with the long-term development challenges of promoting inclusive growth, capital accumulation, and risk prevention—particularly the risks of conflict and climate change.

Storage of Spent Nuclear Fuel International Atomic Energy Agency, 2021-04-30 This publication is a revision by amendment of IAEA Safety Standards Series No. SSG-15 and provides recommendations and guidance on the storage of spent nuclear fuel. It covers all types of storage facility and all types of spent fuel from nuclear power plants and research reactors. It takes into consideration the longer storage periods beyond the original design lifetime of the storage facility that have become necessary owing to delays in the development of disposal facilities and the reduction in reprocessing activities. It also considers developments associated with nuclear fuel, such as higher enrichment, mixed oxide fuels and higher burnup. Guidance is provided on all stages in the lifetime of a spent fuel storage facility, from planning through siting and design to operation and decommissioning. The revision was undertaken by amending, adding and/or deleting specific paragraphs addressing recommendations and findings from studying the accident at the Fukushima Daiichi nuclear power plant in Japan.

Chanel: The Impossible Collection Alexander Fury, 2019-10-01 This book is a literary museum exhibition, a curated selection of 100 iconic and signature looks of the house of Chanel, from the timeless Little Black Dress to the impeccably simple tweed suit, the apothecary-style perfume bottle, two-tone pumps, abundant strands of faux pearls and stones, and diamond-quilted leather handbag, from Mademoiselle's revolutionary designs to Karl Lagerfeld's unexpected and even irreverent variations on her original codes.

Berlitz: River Cruising in Europe Berlitz, 2016-05-03 A river cruise is undoubtedly the most civilized way to see the best of Europe; you can relax in the comfort of a small vessel as you glide through picturesque towns and spectacular scenery. But how do you choose which cruise company, which kind of rivership, and where to go? This thoroughly updated and expanded new edition of the Berlitz guide to River Cruising in Europe will tell you everything you need to know about taking a cruise along Europe's beautiful rivers and waterways. The book cuts through the brochures' hype - almost every river cruise company promises you luxury. But what does 'luxury' really mean? The guide gives you unbiased advice on the different kinds of river vessels and the facilities they offer, helping you to make an informed choice. We take you on a journey along Europe's rivers and waterways, describing the highlights along the way - the historic cities and majestic scenery of the Danube, the castles and vineyards of the romantic Rhine, and much more. Also included are listings for over 200 riverships, which are described and impartially rated, so that you can easily compare them and their facilities.

The Eunuchs in the Ming Dynasty Shih-shan Henry Tsai,1996-01-01 This book is the first on Chinese eunuchs in English and presents a comprehensive picture of the role that they played in the Ming dynasty, 1368-1644. Extracted from a wide range of primary and secondary source material, the author provides significant and interesting information about court politics, espionage and internal security, military and foreign affairs, tax and tribute collection, the operation of imperial monopolies, judiciary review, the layout of the palace complex, the Grand Canal, and much more. The eunuchs are shown to be not just a minor adjunct to a government of civil servants and military officers, but a fully developed third branch of the Ming administration that participated in all of the most essential matters of the dynasty. The veil of condemnation and jealousy imposed on eunuchs by the compilers of official history is pulled away to reveal a richly textured tapestry. Eunuchs are portrayed in a balanced manner that gives due consideration to able and faithful service along with the inept, the lurid, and the iniquitous.

The Atlantic and Africa Dale W. Tomich,Paul E. Lovejoy,2021-08-01 The Atlantic and Africa breaks new ground by exploring the connections between two bodies of scholarship that have developed separately from one another. On the one hand, the second slavery perspective that has reinterpreted the relation of Atlantic slavery and capitalism by emphasizing the extraordinary expansion of new frontiers of slave commodity production and their role in the economic, social, and political transformations of the nineteenth-century world-economy. On the other hand, Africanist scholarship that has established the importance of slavery and slave trading in Africa to the political, economic and social organization of African societies during the nineteenth century. Taken together, these two movements enable us to delineate the processes forming the capitalist world-economy, establish its specific geographical and historical structure, and reintegrates Africa into the transformations in the world economy. This volume explores this paradigm at diverse levels ranging from state formation and the reorganization of world markets to the creation of new social roles and identities.

Facts on File ,1953

Fragility and Conflict Paul Corral,Alexander Irwin,Nandini Krishnan,Daniel Gerszon Mahler,2020-03-16 Fragility and conflict pose a critical threat to the global goal of ending extreme poverty. Between 1990 and 2015, successful development strategies reduced the proportion of the world's people living in extreme poverty from 36 to 10 percent. But in many fragile and conflict-affected situations (FCS), poverty is stagnating or getting worse. The number of people living in proximity to conflict has nearly doubled worldwide since 2007. In the Middle East and North Africa, one in five people now lives in such conditions. The number of forcibly displaced persons worldwide has also more than doubled in the same period, exceeding 70 million in 2017. If current trends continue, by the end of 2020, the number of extremely poor people living in economies affected by fragility and conflict will exceed the number of poor people in all other settings combined. This book shows why addressing fragility and conflict is vital for

poverty goals and charts directions for action. It presents new estimates of welfare in FCS, filling gaps in previous knowledge, and analyzes the multidimensional nature of poverty in these settings. It shows that data deprivation in FCS has prevented an accurate global picture of fragility, poverty, and their interactions, and it explains how innovative new measurement strategies are tackling these challenges. The book discusses the long-term consequences of conflict and introduces a data-driven classification of countries by fragility profile, showing opportunities for tailored policy interventions and the need for monitoring multiple markers of fragility. The book strengthens understanding of what poverty reduction in FCS will require and what it can achieve.
