Charlie's Charts: Hawaiian Islands Charles Wood, Margo Wood, 2015-11 This guide has a detailed sketch of all anchorages and marina facilities in the Hawaiian Islands. The introduction discusses significant topics such as weather, navigation, provisioning, entry procedures, pets, radio communication and diving. The Appendices include a chart list, weather forecasts a list of Wx and Fax frequencies and a beautifully illustrated marine animal identification guide of turtles, whales and sharks found in coastal waters. You'll Never Get Lost Again Robert Randolph Singleton, 2018 Imagine you're on a road trip somewhere in the middle of nowhere - no towns for miles; it's nighttime; and there is no cell service. Suddenly; your GPS fails. You didn't print out directions. All you have in your glove compartment is a map and a compass. What would you do? Captain Robert R. Singleton explains the not-so-complicated science of simple navigation. Starting from the absolute basics; You'll Never Get Lost Again can teach even the most directionally-challenged how to find their way to any destination with little more than a compass; a map; and a sense of adventure. This book uses

simple; easy-to-understand instructions; real-life exercises; detailed diagrams; and straightforward explanations to guide any beginner to a better understanding of basic navigation while also reminding the advanced navigator of the importance of simple concepts in an important science. By the time you've finished *You'll Never Get Lost Again*; you'll have the confidence to know that; as long as you understand the basics; you can find your way to any destination in the world - from the grocery store around the block to the far reaches of the great-untamed wilderness. The world is yours for the navigating.
