On Wings of Intent Trudi Richards, 2016-09-30 *On Wings of Intent* is a biography of Silo, Mario Luis Rodriguez Cobo, Sage of the Andes. Born in Argentina in 1938, Mario Rodriguez was a brilliant thinker, prolific writer, champion gymnast, and charismatic speaker who attracted a following in the 1960s for his revolutionary approach to nonviolent social and personal transformation. Renouncing a career as a gymnast to develop the current of thought known as New or Universal Humanism, he founded the all-volunteer international Humanist Movement, which by the year 2000 had over a million adherents on five continents. In the new millennium he published *Silo's Message*, inspiring the birth of the international Community of *Silo's Message* and the building of Parks of Study and Reflection around the world. When the Humanist Movement carried out the World March for Peace and Nonviolence in 2009, he spoke on Active Nonviolence before the Berlin Nobel Peace Laureates' Summit. Today Silo is recognized as a groundbreaking thinker and writer in humanist

psychology, philosophy, and other fields, and thousands regard him as one of the true spiritual guides of our time.

Pretty Rosalind Galt,2011 Film culture often rejects visually rich images, treating simplicity, austerity, or even ugliness as the more provocative, political, and truly cinematic choice. Cinema may challenge traditional ideas of art, but its opposition to the decorative represents a long-standing Western aesthetic bias against feminine cosmetics, Oriental effeminacy, and primitive ornament. Inheriting this patriarchal, colonial perspective--which treats decorative style as foreign or sexually perverse--filmmakers, critics, and theorists have often denigrated colorful, picturesque, and richly patterned visions in cinema. Condemning the exclusion of the pretty from masculine film culture, Rosalind Galt reevaluates received ideas about the decorative impulse from early film criticism to classical and postclassical film theory. The pretty embodies lush visuality, dense mise-en-scène, painterly framing, and arabesque camera movements-styles increasingly central to world cinema. From European art cinema to the films of Wong Kar-wai and Santosh Sivan, from the experimental films of Derek Jarman to the popular pleasures of *Moulin Rouge!*, the pretty is a vital element of contemporary cinema, communicating distinct sexual and political identities. Inverting the logic of anti-pretty thought, Galt firmly establishes the decorative image as a queer aesthetic, uniquely able to figure cinema's perverse pleasures and cross-cultural encounters. Creating her own critical tapestry from perspectives in art theory, film theory, and philosophy, Galt reclaims prettiness as a radically transgressive style, shimmering with threads of political agency.

Computer Science Logic Jörg Flum,Mario Rodriguez-Artalejo,1999-09-08 The 1999 Annual Conference of the European Association for Computer Science Logic, CSL'99, was held in Madrid, Spain, on September 20-25, 1999. CSL'99 was the 13th in a series of annual meetings, originally intended as International Workshops on Computer Science Logic, and the 8th to be held as the Annual Conference of the EACSL. The conference was organized by the Computer Science Departments (DSIP and DACYA) at Universidad Complutense in Madrid (UCM). The CSL'99 program committee selected 34 of 91 submitted papers for presentation at the conference and publication in this proceedings volume. Each submitted paper was refereed by at least two, and in almost all cases, three different referees. The second refereeing round, previously required before a paper was accepted for publication in the proceedings, was dropped following a decision taken by the EACSL membership meeting held during CSL'98 (Brno, Czech Republic, August 25, 1998).

Fighting for America Jeremy Black,2011-09-06 “Fascinating . . . [a] 300-plus year history of North America” from the award-winning historian and author of *The Holocaust: History & Memory* (Military Heritage). Prize-winning author Jeremy Black traces the competition for control of North America from the landing of Spanish troops under Hernán Cortés in modern Mexico in 1519 to 1871 when, with the Treaty of Washington and the withdrawal of most British garrisons,

Britain accepted American mastery in North America. In this wide-ranging narrative, Black makes clear that the process by which America gained supremacy was far from inevitable. The story Black tells is one of conflict, diplomacy, geopolitics, and politics. The eventual result was the creation of a United States of America that stretched from Atlantic to Pacific and dominated North America. The gradual withdrawal of France and Spain, the British accommodation to the expanding U.S. reality, the impact of the American Civil War, and the subjugation of Native peoples, are all carefully drawn out. Black emphasizes contingency not Manifest Destiny, and reconceptualizes American exceptionalism to take note of the pressures and impact of international competition. “A refreshing take on Manifest Destiny . . . American (and Canadian) readers will learn a lot of new things and be led into new ways of viewing old ones. An important contribution.”—Walter Nugent, author of *Into the West: The Story of Its People*
