They are the best coloring books for children, the only coloring books for children that combine modern ferries with vintage and very old ferries. But wait! Have you already seen the other book in the series of boats? There are coloring books with sailing boats and one with cruise ships. If you haven't seen it yet, you will also find that book available on Amazon, an opportunity to give 2 or 3 books about boats instead of just one. But here is the special thing... This coloring book not only entertains the child who has to color the shapes and white spaces of all the ferries drawn, but it does much more: in fact, some parts of the ferries are drawn with a dotted line that the child has to go through again. So, children can also have fun drawing and try to develop in this way both the ability to color the illustrations and the basics of the drawing (reviewing the dotted lines on the drawings). In this coloring book with trains, there are 15 different ferries to color and draw. If your child is a boat /ships /ferry enthusiast he is 100% sure that he will have a great time. Each page is large, A4 (8.5 x 11 inches) and is printed with the highest quality, forming a super sharp image that every child will surely enjoy coloring. Each coloring page is printed only on one side of each sheet to prevent the color from fading or passing through the sheet while your child exercises his creativity without limits. This coloring book with ferries is more suitable for children between 3 and 8 years old, but it is also suitable for any child who loves or has a great passion for: Ferry Boats Means of transport Ships means of passenger transport etc.. If you want to entertain your child with an original coloring book and try to introduce him to the basics of drawing and sketching in a much more fun and exciting way, this is the right book. Coloring books are real educational tools through which children approach the first forms of learning. There are many benefits that can be obtained by coloring: 1. Hand-eye coordination: by coloring the figures and being careful to respect the edges, children refine hand-eye coordination. They learn to hold the pencil well and also to choose the right color for each figure. 2. Development of concentration: while coloring, they fully engage in their activity, learning to focus on a single task. 3. Development of self-esteem: being able to complete a task greatly gratifies the child. This helps them believe in their abilities and improve their self-esteem. 4. Stimulation of creativity: coloring is a journey into the imagination. The child first creates the image in his imagination and then proposes it on the sheet. For this, in addition to coloring albums, let the child experiment with a blank sheet too. 5. Refinement of motor skills: by holding crayons or pencils, children improve the ability to manipulate small objects. 6. Relaxation: spending an afternoon coloring drawings and figures helps children relax and relieve stress. Coloring is also a therapeutic activity !!! 7.
