Enterprise Optimization Is filled with powerful, detailed examples from A&D, Manufacturing,

Healthcare, Financial Services, and Telecommunications industries showing exactly how to drive M&A activity directly to bottom-line financial performance. Decades of studies show that most mergers and acquisitions fail to deliver on promised financial results. In fact, many of them actually destroy shareholder value. If your company has mergers or acquisitions in its history, there is a strong likelihood that a lot of money was left on the table. This book explains why that happens, and how to recapture those earnings. The first half of this book explores the reasons that so many M&A transactions produce poor results. It also includes detailed explanations of how M&A pitfalls can be avoided. It contains original research, insights from interviews with C-level executives in M&A-built corporations, and survey results from senior managers with extensive M&A experience. The second half of this book lays out a winning approach to achieving real leverage from the total asset base of the merged enterprise, strengthening business processes and information systems to achieve sustainable competitive advantage. It also describes how to use this platform of strengthened performance to accelerate the financial gains from future mergers and acquisitions. Rich in detail, this book is packed with powerful illustrations from A&D, Telecommunications, Health Care, Financial Services, and Manufacturing industries. Bill Duncan has spent more than 30 years in management positions at some of the largest and most successful companies in the world including John Deere, McDonnell Douglas, and Boeing. He is an award-winning author with three other business books and numerous articles to his credit. He has taught courses in Strategic Planning all over the U.S. as well as Asia, and courses in Information Systems at major universities. As Director of Production, Director of Materials Management,

Director of Information Systems, and Vice President of Operations, he has experience on both sides of the M&A table, in the United States as well as internationally. Now a management consultant, Duncan encounters many clients with millions of dollars in unrealized earnings and uncaptured market share as a result of previous acquisitions and mergers. He has written this book to help business leaders understand how to recover the money that was left on the table, and produce sustainable competitive advantage.

The Conversation Manager Steven Van Belleghem, 2012-05-03 Mobile devices, new digital technologies and the increasing popularity of social media all contribute to the ever-growing gap between internet-savvy consumers and traditional means of advertising. With the old tried and tested techniques no longer being effective, marketers, who do not want to fall behind, need to find novel ways to engage with the new-sprung breed of consumers. To do this, learning to listen and communicate with your consumers is critical. Based on four years of primary research, *The Conversation Manager* explains the evolution of the modern consumer and clearly demonstrates why traditional advertising no longer works. Illustrated with an extensive number of examples of advertising campaigns, this book is full of practical tools to help you transform your company strategy and kick-start conversations with your customers.

These Were People Once Damien Huffer, Shawn Graham, 2023-09-15 People buy and sell human remains online. Most of this trade these days is over social media. In a study of this 'bone trade', how it works, and why it matters, the authors review and use a variety of methods drawn

from the digital humanities to analyze the sheer volume of social media posts in search of answers to questions regarding this online bone trade. The answers speak to how the 21st century understands and constructs 'heritage' more generally: each person their own expert, yet seeking community and validation, and like the major encyclopedic museums, built on a kind of digital neocolonialist othering of the dead.
