Cupid's Match Lauren Palphreyman,2019-10-01 He's mythologically hot, a little bit wicked, and almost 100% immortal. And he'll hit you right in the heart . . . Miss Black, we have a big problem." Lila Black doesn't believe in matchmaking, let alone soul mates. So then why is she constantly being hassled by the Cupids Matchmaking Service? But this gilded, cherub-bedecked dating agency isn't exactly what it seems . . . and it's about to turn Lila's entire world upside down. It turns out that Cupids Matchmaking is the real deal. As in, it's run by actual cupids—who don't look at all like they do in the paintings—and they have a serious problem with Lila's "match." Because this guy shouldn't be in the system. He shouldn't have a match. And while he's irresistibly hot, he's also incredibly dangerous. Because Lila's true love match is Cupid. The original bad boy of love. And he wants her. Now Lila's once-normal teenaged world has exploded into a mythological nightmare overrun by crime-lord sirens, wrathful cupid hit men, magic arrows that cause no end of trouble, and a mischievous, not-so-angelic love god she can't seem to stop herself from falling for . . . Adored by 50 million readers on Wattpad, Lauren Palphreyman's smash-hit book is now in print for the first time.

You Have a Match Emma Lord, 2021-01-12 INSTANT NEW YORK TIMES BESTSELLER A REESE'S BOOK CLUB WINTER YA PICK INDIE NEXT PICK A BEST YA PICK OF 2021 BY POPSUGAR * PARADE A new love, a secret sister, and a summer she'll never forget. From the beloved author of *Tweet Cute* comes Emma Lord's *You Have a Match*, a hilarious and heartfelt novel of romance, sisterhood, and friendship... When Abby signs up for a DNA service, it's mainly to give her friend and secret love interest, Leo, a nudge. After all, she knows who she is already: Avid photographer. Injury-prone tree climber. Best friend to Leo and Connie...although ever since the B.E.I. (Big Embarrassing Incident) with Leo, things have been awkward on that front. But she didn't know she's a younger sister. When the DNA service reveals Abby has a secret sister, shimmery-haired Instagram star Savannah Tully, it's hard to believe they're from the same planet, never mind the same parents — especially considering Savannah, queen of green smoothies, is only a year and a half older than Abby herself. The logical course of action? Meet up at summer camp (obviously) and figure out why Abby's parents gave Savvy up for adoption. But there are complications: Savvy is a rigid rule-follower and total narc. Leo is the camp's co-chef, putting Abby's growing feelings for him on blast. And her parents have a secret that threatens to unravel everything. But part of life is showing up, leaning in, and learning to fit all your awkward pieces together. Because sometimes, the hardest things can also be the best ones. "A YA contemporary set at summer camp? Count us in." —BuzzFeed "Heartfelt and engaging, *You Have a Match* is a masterclass on love in all its forms." —Sophie Gonzales, author of *Only Mostly Devastated* and *Perfect on Paper* "A bright summer tale of connection and self-discovery." —Booklist "A cute, feel-good coming-of-age story." —Kirkus

Ontology Matching Jérôme Euzenat, Pavel Shvaiko, 2013-11-08 Ontologies tend to be found everywhere. They are viewed as the silver bullet for many applications, such as database integration, peer-to-peer systems, e-commerce, semantic web services, or social networks. However, in open or evolving systems, such as the semantic web, different parties would, in general, adopt different ontologies. Thus, merely using ontologies, like using XML, does not reduce heterogeneity: it just raises heterogeneity problems to a higher level. Euzenat and Shvaiko's book is devoted to ontology matching as a solution to the semantic heterogeneity problem faced by computer systems. Ontology matching aims at finding correspondences between semantically related entities of different ontologies. These correspondences may stand for equivalence as well as other relations, such as consequence, subsumption, or disjointness, between ontology entities. Many different matching solutions have been proposed so far from various viewpoints, e.g., databases, information systems, and artificial intelligence. The second edition of *Ontology Matching* has been thoroughly revised and updated to reflect the most recent advances in this quickly developing area, which resulted in more than 150 pages of new content. In particular, the book includes a new chapter dedicated to the methodology for performing ontology matching. It also covers emerging topics, such as data interlinking, ontology partitioning and pruning, context-based matching, matcher tuning, alignment debugging, and user involvement in matching, to mention a few. More than 100 state-of-the-art matching systems and frameworks were reviewed. With *Ontology Matching*, researchers and practitioners will find a reference book that presents currently available work in a uniform framework. In particular, the work and the techniques presented in this book can be equally applied to database schema matching, catalog integration, XML schema matching and other related problems. The objectives of the book include presenting (i) the state of the art and (ii) the latest research results in ontology matching by providing a systematic and detailed account of matching techniques and matching systems from theoretical, practical and application perspectives.

more complicate patterns, such as trees, regular expressions, graphs, point sets, and arrays. The Match Mark Frost,2007-11-06 In 1956, a casual bet between two millionaires eventually pitted two of the greatest golfers of the era -- Byron Nelson and Ben Hogan -- against top amateurs Harvie Ward and Ken Venturi. The year: 1956. Decades have passed since Eddie Lowery came to fame as the ten-year-old caddie to U.S. Open Champion Francis Ouimet. Now a wealthy car dealer and avid supporter of amateur golf, Lowery has just made a bet with fellow millionaire George Coleman. Lowery claims that two of his employees, amateur golfers Harvie Ward and Ken Venturi, cannot be beaten in a best-ball match, and challenges Coleman to bring any two golfers of his choice to the course at 10 a.m. the next day to settle the issue. Coleman accepts the challenge and shows up with his own power team: Ben Hogan and Byron Nelson, the game's greatest living professionals, with fourteen major championships between them. In Mark Frost's peerless hands, complete with the recollections of all the participants, the story of this immortal foursome and the game they played that day-legendarily known in golf circles as the greatest private match ever played-comes to life with powerful, emotional impact and edge-of-your-seat suspense.

The Matchmaker Meets Her Match Jennifer Lawler,2013-05-06 Rilka Árpád inherited her name and her job from her grandmother. She doesn't mind her name; it's her job she can't stand. Working as a matchmaker has exposed her to all the downsides of human behavior - in her opinion, it's a wonder anyone can stand each other long enough to get through a date, let alone cherish each other forever. She makes herself a promise: if she can just get through her current client list in the next three months, she'll go on sabbatical. And maybe never come back. Her new client, war veteran Jeremy Ford, ends up being everything Rilka has come to expect (and dislike) about her work when he announces that he just wants to get laid. At least he's honest. Or so she thinks. It turns out that Jeremy wants a lot more than a one-night stand, and he wants it from Rilka. But the only way they can get to forever is if Rilka learns to trust her heart. Sensuality Level: Behind Closed Doors

Pattern Recognition and String Matching Dechang Chen,Xiuzhen Cheng,2013-12-01 The research and development of pattern recognition have proven to be of importance in science, technology, and human activity. Many useful concepts and tools from different disciplines have been employed in pattern recognition. Among them is string matching, which receives much theoretical and practical attention. String matching is also an important topic in combinatorial optimization. This book is devoted to recent advances in pattern recognition and string matching. It consists of twenty eight chapters written by different authors, addressing a broad range of topics such as those from classification, matching, mining, feature selection, and applications. Each chapter is self-contained, and presents either novel methodological approaches or applications of existing theories and techniques. The aim, intent, and motivation for publishing this book is to provide a reference tool for the increasing number of readers who depend upon pattern recognition or string matching in some way. This includes students and professionals in computer science, mathematics, statistics, and electrical engineering. We wish to thank all the authors for their valuable efforts, which made this book a reality. Thanks also go to all reviewers who gave generously of their time and expertise.

St. Joseph and His World Mike Aquilina,2021 "A TREMENDOUS BREAKTHROUGH" in the study of St. Joseph... ...There are few subjects so challenging" to authors as St. Joseph. So says scholar Scott Hahn in his foreword to this book. Yet the pages that follow give not merely glimpses, but vistas, of St. Joseph's world. Hahn continues: "You'll learn about Nazareth — and how it was created almost ex nihilo shortly before Joseph's birth. You'll learn about religious practice and education in that place and time. You'll travel to Egypt and encounter the fascinating settlements of Jews in that land. You'll also find out how a carpenter worked in those days: what tools he used, what items he crafted, where he got his training, and how he got to and from his job sites." This book provides an imaginative entry into one of the most important lives in all of history — a life too often obscured by later legends.
