Match Industry ...: The written and oral evidence given by the Indian match manufacturers in Bengal, Bihar and Orissa India. Tariff Board,1928

Phossy Jaw and the French Match Workers Bonnie Gordon,2017-01-06 The 1898 suppression of white phosphorous in the French match industry was a victory of organized labour. At a time when most French workers did not have the power to effect changes in the health and safety conditions of their work, the match workers succeeded. At a time when most French women were not unionised and did not pursue effective action on occupational health problems, French women in the match industry succeeded. This book, first published in 1989, examines their actions and provides the definitive account of their success.

Globalised Football Nina Clara Tiesler,Joao Nuno Coelho,2013-10-31 When studying the social phenomena in and around football, five major aspects of globalisation processes become evident: international migration, the global flow of capital, the syncretistic nature of tradition and modernity in contemporary culture, new experiences of time and space and the revolution in information technologies. In an exploration of these themes the collection provides insight into academic studies of

football in Portugal, Germany, England, Spain, Brazil, Angola, Mozambique, China, Japan, South Korea, Russia and the USA. At examining football-related phenomena under the headings of nations and migration, myths and business, the city and the dream, it shows how modernised football itself is object and subject in processes of both neo-liberal globalisation and counter hegemonic globalisation. While the contributions highlight characteristics of particular local and national contexts, the volume focuses on global centre-periphery-relations and migration trajectories of football professionals by analysing recent developments in post-colonial Portuguese speaking areas: The high ranking of Portuguese football not only serves in national(ist) discourses or in order to emancipate the country from a marginal position, it also turns Portugal into a football-talent exporter, confronting it partly with the same ambiguous consequences as Brazil and the African countries, who lose their football talents to the European centre. The receiving countries, again, include Portugal. This book was previously published as a special issue of Soccer in Society

Python for Bioinformatics Sebastian Bassi,2016-04-19

Programming knowledge is often necessary for finding a solution to a biological problem. Based on the author’s experience working for an agricultural biotechnology company, Python for Bioinformatics helps scientists solve their biological problems by helping them understand the basics of programming. Requiring no prior knowledge of programming-related concepts, the book focuses on the easy-to-use, yet powerful, Python computer language. The book begins with a very basic introduction that teaches the principles of programming. It then introduces the Biopython package, which can be useful in solving life science problems. The next section covers sophisticated tools for bioinformatics, including relational database management systems and XML. The last part illustrates applications with source code, such as sequence manipulation, filtering vector contamination, calculating DNA melting temperature, parsing a genbank file, inferring splicing sites, and more. The appendices provide a wealth of supplementary information, including instructions for installing Python and Biopython and a Python language and style guide. By incorporating examples in biology as well as code fragments throughout, the author places a special emphasis on practice, encouraging readers to experiment with the code. He shows how to use Python and the Biopython package

for building web applications, genomic annotation, data manipulation, and countless other applications.

As the anonymous Match-Maven, Raina sets up hopeless singles desperate to find the One. A cross between Jane Austen's Emma, Dear Abby, and Yenta the matchmaker, Raina's double life soon has her barely staying awake in class. Can she find the perfect match for her sister and get back on her good side, or will her tanking grades mean a second expulsion? In her debut novel, Suri Rosen creates a comic and heartwarming story of one girl trying to find happiness for others, and redemption for herself.
