Double Digit Addition Without Regrouping (Over 290 Practice Problems) S. L. C. Math, 2016-12-12 Double-Digit Addition Without Regrouping is not intended as an introduction to adding and does not include examples for beginning counters. It is intended for use as an extended addition practice tool for 1st, 2nd, and 3rd grade math students who've already been introduced to beginning addition concepts. In beginning the study of Arithmetic, the first step for students to learn is to count readily. The second step is to combine numbers. To master the different addition combinations to 20, students should be taught to write and memorize addition facts. Also when learning addition, students should avoid counting on their fingers, a habit difficult to overcome once acquired. The Double-Digit Addition Without Regrouping Workbook does not combine addition and subtraction

activities. Focusing solely on addition facts gives students the advantage of strengthening addition skills before moving on to subtraction, multiplication, and division. Various addition activities have been included in this workbook in order to alleviate boredom with the addition lessons and keep students engaged as they learn. When using this workbook to teach addition, it's important to first ensure that students are comfortable with beginning addition facts. This book includes over 290 addition practice problems without regrouping: 2-Digit Addition Number Sentences; Adding 2-Digit Numbers Vertical & Horizontal; 2-Digit Addition Word Problems; 2-Digit Addition Riddle; Comparing Sums Using 2-Digit Addition; 2-Digit Addition Long Math, Vertical & Horizontal Addition; 2-Digit Long Math Addition Word Problems; The Double-Digit Math Workbook Without Regrouping is perfect for teaching addition as a precursor to students learning addition with regrouping, subtraction, multiplication, and division. The long math section introduces concepts the student will see in multiplication and division workbooks in 3rd, 4th, and 5th grade.

One-Sheet-A-Day Math Drills Neki C. Modi, Alpa A. Shah, 2017-09-01 One-Sheet-A-Day Math Drills: Grade 1 Addition - 200 Worksheets is the first volume of the One-Sheet-A-Day Math Drill Workbook Series, a 24 volume set of math worksheets geared to follow most math curriculums for students in grades one through seven. This One-Sheet-A-Day math drill workbook is for 1st grade students who want extra practice with two number, single digit addition. It contains 200 math practice sheets, one for each school day of the year. Upon completion, the student will be more competent in 1st grade mathematics and ready to proceed with more difficult exercises. Unlike other math drill books, this is one of 24 workbooks created to establish a daily routine for each student to practice on their own from grades 1 through 6. It is specifically designed to gradually increase mathematic ability with the least amount of stress for both parent and student. Kids need to practice at home to support what they are learning in school, but finding resources to help with that goal can be daunting. It takes a lot of time searching online for free resources to print or for books with enough exercises. Beyond that, the options include going to libraries, enrolling them in an afterschool class or hiring a personal tutor. Who has the time and money for all of that? The answer is, not many parents. Each and every parent wants to provide enough practice work to their kids, but on top of the challenges in finding resources, questions remain about how much practice a child needs to boost educational success: twenty sheets of practice work a day? One sheet a week? What's the optimum practice work during a whole academic year? Confused? The authors have a decade of classroom expertise and have spent a large amount of time researching and wasting resources trying all the options for their own kids. Now you can benefit from what they have learnt. The result is finding out that One-Sheet-A-Day is the optimum way to support classroom learning, and it is amazingly simple. This book eliminates the need to take home prints or run around franchises, bookstores and libraries trying to find enough material. It also prevents you from overwhelming your kids with too many math drill worksheets. There are approximately

200 school days a year. Simply have your child complete ONE per day. Work is far easier when it is part of a routine, especially for kids. The One-Sheet-per-Day program is an easy routine to start and maintain because it takes less than 20 minutes per day, using basic skills your child already knows. Simply take one sheet from the book, ask your child to complete it in a quiet place, and return it to you to check the answers, a painless routine for you and your child, and instant feedback for both of you. Geared to follow most math curriculums, most kids can do the appropriate sheet on their own based on what they are learning at school. One-Sheet-A-Day math practice drills will give your child practice they need to score higher on test day, and build confidence in their math abilities.
