**Maxwell's Enduring Legacy** Malcolm Longair,2016-07-07 The Cavendish Laboratory is arguably the most famous physics laboratory in the world. Founded in 1874, it rapidly gained a leading international reputation through the researches of the Cavendish professors beginning with Maxwell, Rayleigh, J. J. Thomson, Rutherford and Bragg. Its name will always be associated with the discoveries of the electron, the neutron, the structure of the DNA molecule and pulsars, but these are simply the tip of the iceberg of outstanding science. The physics carried out in the laboratory is the central theme of the book and this is explained in reasonably non-technical terms. The research activities are set in their international context. Generously illustrated, with many pictures of the apparatus used and diagrams from the original papers, the story is brought right up to date with descriptions of the science carried out under the leadership of the very different personalities of Mott, Pippard and Edwards.

**The Early Life of James VI** Steven J. Reid,2023-03-09 James VI and I was arguably the most successful ruler of the Stewart Dynasty in Scotland, and the first king of a united Great Britain. His ableness as a monarch, it has been argued, stemmed largely from his Scottish upbringing. This book is the first in-depth scholarly study of those formative years. It tries to understand exactly when in James' 'long apprenticeship' he seized political power and retraces the incremental steps he took along the way. It also poses new answers to key questions about this process. What relationship did he have with his mother Mary Queen of Scots? Why did he favour his kinsman Esmé Stuart, ultimately Duke of Lennox, to such an extent that it endangered his own throne? And was there a discernible pattern of intent to the alliances he made with the various factions at court between 1578 and 1585? This book also analyses James' early reign as an important case study of the impact of the Reformation on the monarchy of early modern Europe, and examines the cultural activity at James' early court.
