The Hippocrates Diet and Health Program Ann Wigmore, 1983-12-01 For more than forty years, Ann Wigmore, founder of the renowned Hippocrates Health Institute and internationally acclaimed holistic health educator, taught that what we eat profoundly affects our health. She was among the first to note that our modern diet of “convenience food” was the prime cause of illness and obesity, and she offered a positive alternative. Developed over a twenty-year period at the Hippocrates Health Institute, one of the nation’s first and finest holistic health centers, the Hippocrates Diet allows the body to correct its problems naturally and at its own pace. Through a diet of fresh fruits, vegetables, grains, nuts, and super nutritious foods such as sprouts and wheatgrass juice, all of which are prepared without cooking, the body is able to restore its internal balance—and its capacity to maintain a healthy weight, fight disease, and heal itself. The Hippocrates Diet and Health Program is an indispensable guide to healthy living, filled with easy-to-follow recipes and money-saving health tips. It is never easy for anyone to break bad eating habits, but when you are ready to make the decision to lose weight, regain youthful energy, or prevent illness, The Hippocrates Diet and Health Program can be your guide.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

The Way of Miracles Mark Minicolla, 2021-06-22 Mark Minicolla's *The Way of Miracles: Accessing Your Superconsciousness* teaches us that we can create our own miracles every day. *The Way of Miracles* is an adventure for the mind and spirit that begins with the premise that miracles don't randomly happen—we create them! According to Mark Minicolla, PhD, developing our superconscious mind and recognizing the divine source that exists within each of us is what generates miracles. A wholistic physician for more than three decades, Mark used his own techniques and learnings to cure himself of a life-threatening illness. In *The Way of Miracles*, he shares experiences, documented research, and exercises that he provides his patients and uses himself to raise consciousness in order to cultivate the ability to heal and create miracles that have a lasting effect.

Alternative and Complementary Therapies for Cancer Moulay Alaoui-Jamali, 2010-09-02
Cancer is a common disease with a devastating impact on the physical and psychological well being of patients. The diagnosis of cancer brings upon many clinical challenges and questions for which clear and simple answers are not always provided by modern medicine. To date, only limited therapeutic options are available for patients with advanced cancer. The recent shift toward targeted therapies has improved substantially patient's survival, however, relapses are frequent and cure remains rare. This led patients and many health care managers to shift attention to the holistic approach of traditional medicine particularly preparations from herbal products to manage and alleviate the disease. Typically, herbal preparations contain single or multiple plant ingredients, including a number of potential active components. Yet, they remain classified as food supplements and thus are exempt from regulations on quality control and proof of efficacy that govern standard pharmaceuticals. Clinical evidence for many preparations is often based on non-documented or anecdotal evidence. In consequence, several preparations with unproven efficacy are circulating in the market with the fear of interference with standard cancer therapies and/or severe toxicity that some can generate, in addition to the unjustified economical burden to patients. Despite inconsistent and conflicting clinical results single molecules have been isolated from herbal preparations and many are exploited to develop potential novel agents. This has fostered the need to organize a set of timely, in-depth and up-to-date review covering the latest developments in alternative cancer management from a scientific and clinical perspective dedicated to the medical community and health care providers, as well as to patients and their families. This book brings the latest comprehensive cancer information and practical recommendations on the best documented practice of alternative therapies for cancer management put together by recognized experts in the fields of medical oncology, traditional medicine, and cancer pharmacology. It goes hand-in-hand with the patient's medical treatment options, quality of life issues, and more. The book is organized into four major sections: The first is an overview of the cancer syndrome by renowned medical oncologists from the USA and Europe. The second is a comprehensive description of traditional medicine by renowned experts from China and Germany. The third is an overview on the pharmacological impact of herb-based formulations on standard chemotherapy agents used in clinical practice. The fourth is a survey of cases reports from several hospitals with approved practice of alternative medicine. The book will feature simple definitions and essential information grouped in both medical and lay-term terminology, and straightforward illustrations related to human physiology, disease definition, scientific data on known and potential mechanisms of action, and preventive approaches. Finally, the book will feature collaboration of experts from China, India, USA, Canada, Germany, France, and other centres with recognized expertise in alternative/traditional medicine. This international cooperation is crucial to cover the complex topic of alternative therapies for cancer.

Ultraprevention Mark Hyman, 2005-01-04 Offers a science-based, patient-centered program designed to improve overall health, prevent disease, increase energy, enhance mood, diminish stress, and provide better overall health for people of all ages.

The Apple Grower Michael Phillips, 2005 For decades fruit growers have sprayed their trees with toxic chemicals in an attempt to control a range of insect and fungal pests. Yet it is possible to grow apples responsibly, by applying the intuitive knowledge of our great-grandparents with the fruits of modern scientific research and innovation. Since *The Apple Grower* first appeared in 1998, orchardist Michael Phillips has continued his research with apples, which have been called organic's final frontier. In this new edition of his widely acclaimed work, Phillips delves even deeper into the mysteries of growing good fruit with

minimal inputs. Some of the cutting-edge topics he explores include: The use of kaolin clay as an effective strategy against curculio and borers, as well as its limitations. Creating a diverse, healthy orchard ecosystem through understory management of plants, nutrients, and beneficial microorganisms. How to make a small apple business viable by focusing on heritage and regional varieties, value-added products, and the community orchard model. The author's personal voice and clear-eyed advice have already made *The Apple Grower* a classic among small-scale growers and home orchardists. In fact, anyone serious about succeeding with apples needs to have this updated edition on their bookshelf.

Recipes for Longer Life Ann Wigmore, 1982-08-01 Ann Wigmore's *Recipe for Longer Life* describes her transition from a conventional diet to one of natural raw foods, sprouts, and food combining. Includes sprouting techniques, fermenting of vegetables, and menus for all day.

Dear Black Girls Shanice Nicole, 2021-02-08 *Dear Black Girls* is a letter to all Black girls. Every day poet and educator Shanice Nicole is reminded of how special Black girls are and of how lucky she is to be one. Illustrations by Kezna Dalz support the book's message that no two Black girls are the same but they are all special--that to be a Black girl is a true gift. In this celebratory poem, Kezna and Shanice remind young readers that despite differences, they all deserve to be loved just the way they are.
