The average debt load for graduates of the top business schools has now exceeded \$100,000. For most young professionals, this means spending the first half of their career in the red and feeling pressure to take the first position offered to them so that they can start paying off their debt. However, it doesn't have to be that way. Author and businesswoman Laurie Pickard discovered a way to get the business education she needed to land her dream job while avoiding the massive school loans that plague so many. In *Don't Pay for Your MBA*, she shares all that she learned so that others can benefit as well. Pickard discovered that the same prestigious business schools that offer the MBAs so many covet also offer MOOCs (massive online open courses) for low or even no cost. Within these pages, you will learn how to: Define your goals and tailor a curriculum that is geared toward your dream job Master the language of business Build a strong network Choose a concentration and deepen your expertise Showcase your nontraditional education in a way that attracts companies Don't fall for the lies that pressure countless graduates every year into MBA programs and insurmountable debt. An Entire MBA in 1 Course Chris Haroun,2016-02-09 ** ACCORDING TO BUSINESS INSIDER: Getting your MBA has never been easier. Haroun is one of the highest rated professors on Udemy, so you can expect to be in good hands through the course of your education. ** This is the book version of the popular Udemy.com course called *An Entire MBA in 1 Course*. From the Author of *101 Crucial Lessons They Don't Teach You in Business School*, which Forbes magazine calls 1 of 6 books that all entrepreneurs need to read right now. This book will teach you everything you need to know about business....from starting a company to taking it public. Most business books are significantly outdated. This book leverages many online resources and makes the general business, accounting and finance process very easy to understand (and enjoyable too)! There are many incredibly engaging and entertaining video links in the book to YouTube and other sources; 'edutainment' works! Although this book is close to 400 pages, I tried to visualize the content of this book as much as possible as this is a more impactful and enjoyable way to learn (think Pinterest versus the tiny words in the Economist)! The contents of this book are all based on my work experience at several firms, including Goldman Sachs, the consulting industry at Accenture, a few companies I have started, the hedge fund industry where I worked at Citadel and most recently, based on my experience at a prominent San Francisco based venture capital firm. I also included many helpful practical business concepts I learned while I did an MBA at Columbia University and a Bachelor of Commerce degree at McGill University. Think of this book as a greatest hits business summary from my MBA, undergraduate business degree, work experience in consulting, equities, hedge funds, venture capital and starting my own companies. As the title of this book suggests, this is an entire MBA in one book; it's also a practical manual to help you accomplish your business career goals. I have minimized boring theoretical concepts in this book in order to keep it as close to reality as possible. I hope you enjoy it! In addition to teaching at 4 universities in the San Francisco Bay Area, you can find other courses that I teach online at www.udemy.com/user/chris-haroun/.

Design Principles for the Productive Delivery of Blended Learning Services Philipp Bitzer,2015-01-01 Betriebliche Weiterbildung soll lebenslanges Lernen im Arbeitskontext ermöglichen und befördern. Diese wird immer wichtiger, da sich das wirtschaftliche Umfeld immer dynamischer durch globalen Wettbewerb von Arbeit, Produktion und Dienstleistungen verändert. Dies bedingt auch veränderte Bedarfe an Fertigkeiten und Fähigkeiten sowie dem notwendigen Fachwissen. Es ist wettbewerbskritisch für Mitarbeiter und Unternehmen, kontinuierlich und immer besser lebenslang zu lernen. Daher gilt die betriebliche Weiterbildung als wichtige Voraussetzung, um volkswirtschaftliches Wachstum zu erreichen und zunehmend globalisiertem Wettbewerb begegnen zu können.
