Protecting Your Internet Identity Ted Claypoole, Theresa Payton, 2016-11-16
People research everything online - shopping, school, jobs, travel - and other people. Your online persona is your new front door. It is likely the first thing that new friends and colleagues learn about you. In the years since this book was first published, the Internet profile and reputation have grown more important in the vital human activities of work, school and relationships. This updated edition explores the various ways that people may use your Internet identity, including the ways bad guys can bully, stalk or steal from you aided by the information they find about you online. The authors look into the Edward Snowden revelations and the government's voracious appetite for personal data. A new chapter on the right to be forgotten explores the origins and current effects of this new legal concept, and shows how the new right could affect us all. Timely information helping to protect your children on the Internet and guarding your business's online reputation has also been added. The state of Internet anonymity has been exposed to scrutiny lately, and the authors explore how anonymous you can really choose to be when conducting activity on the web. The growth of social networks is also addressed as a way to project your best image and to protect yourself from embarrassing statements. Building on the first book, this new edition has everything you need to know to protect yourself, your family, and your reputation online.

Protecting Our Children in Cyberspace Kerry-Ann Ferreira,
How to Stop Bullying in Classrooms and Schools Phyllis Kaufman
Goodstein, 2013-02-15 The premise of this guidebook for teacher educators, school professionals, and in-service and pre-service teachers is that

bullying occurs because of breakdowns in relationships. The focus of the 10-point empirically researched anti-bullying program it presents is based on building and repairing relationships. Explaining how to use social architecture to erase bullying from classrooms, this book translates research into easily understandable language provides a step-by-step plan and the tools (classroom exercises, activities, practical strategies) to insure success in building classrooms where acceptance, inclusion, and respect reign examines the teacher's role, classroom management, bystander intervention, friendship, peer support, empathy, incompatible activities, stopping incidents, and adult support from a relationship perspective If every teacher in every classroom learned to apply this book's principles and suggestions, bullying would no longer plague our schools and educators could give 100 percent of their attention to academics.

I Won't Go With Strangers Dagmar Geisler, 2018-04-03 Lu won't go with just anyone! Lu is waiting to be picked up after school. She stands on the sidewalk, all alone, and it starts to rain. Ms. Smith walks by, and offers to take her home. Ms. Smith lives in Lu's neighborhood—but does Lu really know her? Lu asks herself, what's her first name? Does she dye her hair red? What's her dog's name? And she says, "I don't know you, so I won't go with you! And besides, Mama said I should wait." As other adults—all of whom Lu has met in some capacity before—offer to take her home, Lu continues to consider if she really knows them. One by one, she refuses to go with them. Until, finally, the person Mama said she should go home with shows up—though his appearance is a surprise to the reader! This sensitively narrated story illustrates how clear rules and arrangements can help protect and empower children during an especially vulnerable time of day. The ending includes a

prompt for readers to create their own similar “safe” list, and a list of resources for parents.

The Last Shadow Warrior Sam Subity, 2021-05-04 Percy Jackson meets Thor in a laugh-out-loud, action-packed adventure inspired by Norse mythology. Twelve-year-old Abby Beckett is proud to come from a long line of elite Viking warriors known as the Aesir. She's spent her entire life training to hunt the horrific creatures known as Grendels—the ancient foe of the Aesir—just like

her mother did before she died. But there's just one, small problem: No one has seen a Grendel in centuries, and the Viking Council wants to disband the Aesir . . . forever. When her father is injured in an attack that leaves him in a coma, Abby is forced to take refuge at Vale Hall, a mysterious school in Minnesota where nothing is quite as it seems. She soon discovers the tables have turned and a Grendel is hunting her, but when she tries to alert the Viking Council, they accuse her of making up stories for attention . . . just like her mother did. Desperate to protect her father and clear her mother's name, Abby goes on a dangerous quest to discover the truth--a journey that brings her face-to-face with some unlikely foes, including a Ping-Pong-playing sea monster with a wicked backhand, and a dark Valkyrie with a fondness for bingo. Abby quickly realizes that someone at the school is trying to stop her progress and destroy the Aesir for good. And only she can unravel the sinister plot before it's too late.

Jane Doe No More M. William Phelps, Donna Palomba, 2012-09-06 In 1993, Donna Palomba was raped by a masked assailant in her own home. Yet, her story is more than a victim's tale of physical and emotional recovery. It is a story of one woman's hunt for justice while fending off attacks by institutions designed to defend and protect her—the police department, the local government, and a community clinging to an outrageous claim that Donna had invented the crime to cover up a sexual affair. From the night of the attack, the botched crime scene investigation, and the abuse as authorities attempted to close the case by discrediting her, Donna was left as a victim with no name and no identity. Meanwhile, there was one courageous detective, later to become chief of police, who broke a cops' code of silence in the name of justice. As they fought on, a legal battle ensued after the Waterbury Police Department—now with media support—refused to let go of its allegations against her and admit wrongdoing. Finally, after eleven years of struggle, Donna learned the identity of her attacker from the chief of police, who explained that the DNA from the rape kit taken a decade ago had turned up a

shocking match. In 2007, Donna Palomba was the subject of a special two-hour Dateline episode about her case. Suddenly, she was Jane Doe no more, launching the Jane Doe No More organization and becoming a promoter of the rights of women and victims of sexual assault. With the help of crime investigator and author M. William Phelps, this is her story.
