People’s Republic of China-Hong Kong Special Administrative Region: Financial Sector Assessment Program-Technical Note-Stress Testing the Banking Sector and Systemic Risk Analysis International Monetary,International Monetary Fund. Monetary and Capital Markets Department,2021-06-15 Hong Kong SAR (HKSAR) is a small and open economy, and a major international financial center with extensive linkages to Mainland China. Over the past two years, Hong Kong SAR’s economy and financial sector were adversely impacted by domestic social unrest, US-China tensions, and the global COVID-19 pandemic, resulting in an unprecedented two consecutive years of negative economic growth.

People’s Republic of China-Hong Kong Special Administrative Region: Financial Sector Assessment Program-Technical Note-Systemic Risk Oversight and Macprudential Policies International Monetary,International Monetary Fund. Monetary and Capital Markets Department,2021-06-15 The institutional framework for Macprudential Policies (MaPP) in the Hong Kong Special Administrative Region (the Hong Kong SAR) is well established. According to the Basic Law, the Government of the Hong Kong SAR shall on its own formulate monetary and financial policies. The Financial Secretary (FS) and the Secretary for Financial Services and the Treasury (SFST) are responsible for policies for maintaining the stability and integrity of the financial system of the Hong Kong SAR. The Hong Kong SAR has a sector-based regulatory structure and the responsibilities and tools for safeguarding financial stability are spread across the Financial Services and the Treasury Bureau (FSTB) and three regulators (namely, the Hong Kong Monetary Authority (HKMA), Securities and Futures Commission (SFC) and Insurance Authority (IA)). There are good and well-structured interagency coordination and consultation mechanisms, through the Council of Financial Regulators (CFR) and the Financial Stability Committee (FSC), chaired by the FS and the SFST, respectively. Broad coordination between the CFR and government agencies on taxation and housing supply-side policies has also worked well. MaPP and risk assessment are communicated to the public openly and frequently through speeches, press releases and regular publications, including the Half-Yearly Monetary and Financial Stability Report of the HKMA and the Half-yearly Review Report of the Global and Local Securities Markets of the SFC.

Cloud Data Centers and Cost Modeling Caesar Wu,Rajkumar Buyya,2015-02-27 Cloud Data Centers and Cost Modeling establishes a framework for strategic decision-makers to facilitate the development of cloud data centers. Just as building a house requires a clear understanding of the blueprints, architecture, and costs of the project; building a cloud-based data center requires similar knowledge. The authors take a theoretical and practical approach, starting with the key questions to help uncover needs and clarify project scope. They then demonstrate probability tools to test and support decisions, and provide processes that resolve key issues. After laying a foundation of cloud concepts and definitions, the book addresses data center creation, infrastructure development, cost modeling, and simulations in decision-making, each part building on the previous. In this way the authors bridge technology, management, and infrastructure as a service, in one complete guide to data centers that facilitates educated decision making. Explains how to balance cloud computing functionality with data center efficiency Covers key requirements for power management, cooling, server planning, virtualization, and storage management Describes advanced methods for modeling cloud computing cost including Real Option Theory and Monte Carlo Simulations Blends theoretical and practical discussions with insights for developers, consultants, and analysts considering data center development

New York Magazine ,1989-12-25 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

The Guy That Does The Thing - Observations, Deliberations, and Confessions W. C. Andrew Groome,2014-01-17 “This is seriously twisted and way too sophisticated for most people..... I think it should be read by ALL and called, (drum roll)..... A Florida Grass Root Philosophy and Punditry Guide” —David Bradford, EdD Did you ever wonder how our federal government got into such a mess? Mr. Groome has shown how we got to where we are by painting a vivid picture of small town politics. At every level and more often than not, people get elected for the wrong reasons. More importantly they seek office for all the wrong reasons. And tragically, the electorate is comfortable with the status quo and rarely interested in expending the energy to find the truth. Mr. Groome’s novel is all too real. He tells a story with objective style while tickling your funny bone and evoking outrage. His picture of local politics is a microcosm of governments everywhere. When you read it, you may find yourself associating his characters with people you know.

Innovative Mobile and Internet Services in Ubiquitous Computing Leonard Barolli,Fatos Xhafa,Nadeem Javaid,Tomoya Enokido,2018-06-07 This book presents the latest research findings, methods and development techniques related to Ubiquitous and Pervasive Computing (UPC) as well as challenges and solutions from both theoretical and practical perspectives with an emphasis on innovative, mobile and internet services. With the proliferation of wireless technologies and electronic devices, there is a rapidly growing interest in Ubiquitous and Pervasive Computing (UPC). UPC makes it possible to create a human-oriented computing environment where computer chips are embedded in everyday objects and interact with physical world. It also allows users to be online even while moving around, providing them with almost permanent access to their preferred services. Along with a great potential to revolutionize our lives, UPC also poses new research challenges.
