The U.S. Army/Marine Corps Counterinsurgency Field Manual John A. United States

Army, United States Marine Corps, 2008-09-15 When the U.S. military invaded Iraq, it lacked a common understanding of the problems inherent in counterinsurgency campaigns. It had neither studied them, nor developed doctrine and tactics to deal with them. It is fair to say that in 2003, most Army officers knew more about the U.S. Civil War than they did about counterinsurgency. The U.S. Army / Marine Corps Counterinsurgency Field Manual was written to fill that void. The result of unprecedented collaboration among top U.S. military experts, scholars, and practitioners in the field, the manual espouses an approach to combat that emphasizes constant adaptation and learning, the importance of decentralized decision-making, the need to understand local politics and customs, and the key role of intelligence in winning the support of the population. The manual also emphasizes the paradoxical and often counterintuitive nature of counterinsurgency operations: sometimes the more you protect your forces, the less secure you are; sometimes the more force you use, the less effective it is; sometimes doing nothing is the best reaction. An new introduction by Sarah Sewall, director of the Carr Center for Human Rights Policy at Harvard's Kennedy School of Government, places the manual in critical and historical perspective, explaining the significance and potential impact of this revolutionary challenge to conventional U.S. military doctrine. An attempt by our military to redefine itself in the aftermath of 9/11 and the new world of international terrorism, The U.S. Army / Marine Corps Counterinsurgency Field Manual will play a vital role in American military campaigns for years to come. The University of Chicago Press will donate a portion of the proceeds from this book to the Fisher House Foundation, a private-public partnership that supports the families of America's injured servicemen. U.S. Marines In Vietnam: The Bitter End, 1973-1975 Maj. George Ross Dunham, Col. David A. Quinlan, 2016-08-09 This publication represents the ninth volume in an operational and chronological series covering the Marine Corps' participation in the Vietnam War. This particular volume details the final chapter in the Corps' involvement in South-East Asia, including chapters on Cambodia, the refugees, and the recovery of the container ship SS Mayaguez. Although largely written from the perspective of the III Marine Amphibious Force, this volume also describes the roles of the two joint commands operating in the region: the Defense Attaché Office, Saigon, and the United States Support Activities Group, Thailand. Thus, while the volume emphasizes the Marine Corps' role in the events of the period, significant attention also is given to the overall contribution of these commands in executing U.S. policy in South-east Asia from 1973 to 1975. Additionally, a chapter is devoted to the Marine Corps' role in assisting thousands of refugees who fled South Vietnam in the final weeks of that nation's existence.

Knowledge Technology Dickson Lukose, Abdul Rahim Ahmad, Azizah Suliman, 2012-08-16 This book constitutes the refereed proceedings of the Third Knowledge Technology Week, KTW 2011, held in Kajang, Malaysia, in July 2011. The 29 revised full papers presented together with 9 short papers were carefully reviewed and selected from 105 submissions. KTW 2011 consisted of a number of co-located events. This volume contains selected papers from the proceedings of the Third Malaysian Joint Conference on Artificial Intelligence (MJCAI 2011), the Third Semantic Technology and Knowledge Engineering (STAKE 2011), and the International Workshop on Semantic Agents (IWSA 2012).

U.S. Marines In Vietnam: The Landing And The Buildup, 1965 Dr. Jack Shulimson, Maj. Charles M. Johnson, 2016-08-09 This is the second volume in a series of chronological histories prepared by the Marine Corps History and Museums Division to cover the entire span of Marine Corps involvement in the Vietnam War. This volume details the Marine activities during 1965, the year the war escalated and major American combat units were committed to the conflict. The narrative traces the landing of the nearly 5,000-man 9th Marine Expeditionary Brigade and its transformation into the III Marine Amphibious Force, which by the end of the year contained over 38,000 Marines. During this period, the Marines established three enclaves in South Vietnam's northernmost corps area, I Corps, and their mission expanded from defense of the Da Nang Airbase to a balanced strategy involving base defense, offensive operations, and pacification. This volume continues to treat the activities of Marine

advisors to the South Vietnamese armed forces but in less detail than its predecessor volume, U.S. Marines in Vietnam, 1954-1964; The Advisory and Combat Assistance Era.

Biology Eldra Solomon,Charles Martin,Diana W. Martin,Linda R. Berg,2018-02-08 Solomon, Martin, Martin and Berg's BIOLOGY--often described as the best majors' text for learning Biology--is also a complete teaching program. The integrated, inquiry-based learning system guides students through every chapter with key concepts at the beginning of each chapter and learning objectives for each section. End-of-section Checkpoint questions encourage students to review key points before moving on. A chapter summary further reinforces learning objectives, followed by an opportunity for students to test their understanding. The eleventh edition offers expanded integration of the text's five guiding themes of Biology--the evolution of life, the transmission of biological information, the flow of energy through living systems, interactions among biological systems and the inter-relationship of structure and function. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

U.S. Marines in Vietnam: An Expanding War, 1966 Dr. Jack Shulimson,2016-08-09 This is the third volume in an operational and chronological series covering the Marine Corps' participation in the Vietnam War. This particular volume details the continued build-up in 1966 of the III Marine Amphibious Force in South Vietnam's northernmost corps area, I Corps, and the accelerated tempo of fighting during the year--the result being an "expanding war." Although written from the perspective of III MAF and the ground war in I Corps, the volume treats the activities of Marine advisors to the South Vietnamese Armed Forces, the Seventh Fleet Special Landing Force, and Marines on the staff of the U.S. Military Assistance Command, Vietnam, in Saigon. There are separate chapters on Marine air, artillery, and logistics. An attempt has been made to place the Marine role in relation to the overall effort.

Pushing in Silence Isabel M. Córdova,2017-12-20 As Puerto Rico rapidly industrialized from the late 1940s until the 1970s, the social, political, and economic landscape changed profoundly. In the realm of health care, the development of medical education, new medical technologies, and a new faith in science radically redefined childbirth and its practice. What had traditionally been a home-based, family-oriented process, assisted by women and midwives and accomplished by mothers, became a medicalized, hospital-based procedure, accomplished and directed by biomedical, predominantly male, practitioners, and, ultimately reconfigured, after the 1980s, into a technocratic model of childbirth, driven by doctors' fears of malpractice suits and hospitals' corporate concerns. *Pushing in Silence* charts the medicalization of childbirth in Puerto Rico and demonstrates how

biomedicine is culturally constructed within regional and historical contexts. Prior to 1950, registered midwives on the island outnumbered registered doctors by two to one, and they attended well over half of all deliveries. Isabel M. Córdova traces how, over the next quarter-century, midwifery almost completely disappeared as state programs led by scientifically trained experts and organized by bureaucratic institutions restructured and formalized birthing practices. Only after cesarean rates skyrocketed in the 1980s and 1990s did midwifery make a modest return through the practices of five newly trained midwives. This history, which mirrors similar patterns in the United States and elsewhere, adds an important new chapter to the development of medicine and technology in Latin America.
