You can build the hardware you want, install the services you prefer and play the media you love. In this 513 page guide, we walk you step by step through creating a first-class, small and mighty HTPC - you'll plan the specifications, components and form factor you need, select the hardware and learn how to assemble a barebones kit (such as our reference build, an Intel NUC HTPC) or build a PC from scratch. From there, we deep dive into maximising performance of your HTPC through tweaking motherboard settings and installing Intel's Rapid Start and Smart Connect management applications. We'll install the latest release of Windows and configure the operating system for HTPC use, tailoring settings to support DTS and Dolby Digital audio, then enhancing video support for Blu-ray disc. With support for Blu-ray on board, you'll be guided through advanced topics like region unlocking and DVD/Blu-ray ripping to a choice of formats, including MKV, BDMV and ISO for streaming in your favourite media center software. We install USB and Network TV Tuners for configuring Live and Recorded TV and use DVLink to integrate our channels and EPG into a variety of popular media applications.
