Mark Green

Political Communications D. Wring, J. Green, R. Mortimore, S. Atkinson, 2007-05-01 This offers a unique insight into the 2005 British General Election from the perspectives of those responsible for organizing, reporting, and understanding the campaign. It contains definitive accounts of what happened from those most intimately involved in preparing the main party strategies as well as leading academic, media and polling experts.

Elections and Voters Martin Harrop, William L. Miller, 1987-11-06 '...a very superior textbook, avoiding most of the pitfalls of the genre...the wheat-to-chaff ratio is gratifyingly high, in a field with more chaff than most...it must have been a difficult book to write; by any consumer test it rates a range of stars and a 'best buy' recommendation.' - Ivor Crewe, Times Higher Education Supplement '...a lively, readable introductory textbook.' - Talking Politics

Political Communications John Bartle, Ivor Crewe, Brian Gosschalk, 2012-11-12 The dialogue conducted via the press, television, advertising and the opinion polls between politicians and the people in the 1997 campaign and its run-up is analyzed here. Special attention is paid to the innovations and changes that marked the 1997 campaign.

Headaches in Women Mark Green, 2019-10-01 Women suffer from headaches far more than men. According to the World Health Organization, migraine is one of the most disabling medical conditions. The understanding of the pathophysiology of migraine has changed dramatically over the past decade, leading to more rational and targeted treatments. Since most migraineurs are young women, use of contraception, management of headaches with menstruation, pregnancy, lactation, and menopause are important issues addressed in this text. Headaches are often inherited, and, as such, the book also discusses genetic issues, particularly relevant in this era of customized medicine. The hormonal management of transgenders is important as many will experience severe headaches during their transitions. Comorbidities, including psychiatric syndromes and strokes, are also presented in detail. This text will be of interest to all practitioners who manage women with headaches.

Horror to the Extreme Jinhee Choi, Mitsuyo Wada-Marciano, 2009-06-01 This book compares production and consumption of Asian horror cinemas in different national contexts and their multidirectional dialogues with Hollywood and neighboring Asian cultures. Individual essays highlight common themes including technology, digital media, adolescent audience sensibilities, transnational co-productions, pan-Asian marketing techniques, and variations on good vs. evil evident in many Asian horror films. Contributors include Kevin Heffernan, Adam Knee, Chi-Yun Shin, Chika Kinoshita, Robert Cagle, Emilie Yeh Yueh-yu, Neda Ng Hei-tung, Hyun-suk Seo, Kyung Hyun Kim, and Robert Hyland.

Horror Film and Psychoanalysis Steven Jay Schneider, 2004-06-28 Psychoanalytic theory has been the subject of attacks from philosophers, cultural critics and scientists who have questioned the cogency of its reasoning as well as the soundness of its premises. Nevertheless, when used to shed light on horror cinema, psychoanalysis in its various forms has proven to be a fruitful and provocative interpretative tool. This volume seeks to find the proper place of psychoanalytic thought in critical discussion of cinema in a series of essays that debate its legitimacy, utility and validity as applied to the horror genre. It distinguishes itself from previous work in this area through the self-consciousness with which psychoanalytic concepts are employed and the theorization that coexists with interpretations of particular horror films and subgenres.

The A to Z of Horror Cinema Peter Hutchings, 2009-09-02 Horror is one of the most enduring and controversial of all cinematic genres. Horror films range from the subtle and the poetic to the graphic and the gory but what links them all is their ability to frighten, disturb, shock, provoke, delight, irritate, amuse, and bemuse audiences. Horror's capacity to serve as an outlet to capture the changing patterns of our fears and anxieties has ensured not only its notoriety but also its long-term survival and its international popularity. Above all, however, it is the audience's continual desire to experience new frights and evermore-horrifying sights that continue to make films like *The Exorcist*,

A Nightmare on Elm Street, Halloween, Night of the Living Dead, The Texas Chainsaw Massacre, Psycho, Ringu, and The Shining captivate viewers. The A to Z of Horror Cinema traces the development of horror cinema from the beginning of the 20th century to the present day. This is done through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries. Entries cover all the major movie villains, including Frankenstein and his monster, the vampire, the werewolf, the mummy, the zombie, the ghost, and the serial killer; the film directors, producers, writers, actors, cinematographers, make-up artists, special effects technicians, and composers who have helped to shape horror history; significant production companies and the major films that have come to stand as milestones in the development of the horror genre; and the different national traditions in horror cinema as well as horror's most popular themes, formats, conventions, and cycles.

Reporting Elections Stephen Cushion, Richard Thomas, 2018-03-02 How elections are reported has important implications for the health of democracy and informed citizenship. But, how informative are the news media during campaigns? What kind of logic do they follow? How well do they serve citizens? Based on original research as well as the most comprehensive assessment of election studies to date, Cushion and Thomas examine how campaigns are reported in many advanced Western democracies. In doing so, they engage with debates about the mediatization of politics, media systems, information environments, media ownership, regulation, political news, horserace journalism, objectivity, impartiality, agenda-setting, and the relationship between media and democracy more generally. Focusing on the most recent US and UK election campaigns, they consider how the logic of election coverage could be rethought in ways that better serve the democratic needs of citizens. Above all, they argue that election reporting should be driven by a public logic, where the agenda of voters takes centre stage in the campaign and the policies of respective political parties receive more airtime and independent scrutiny. The book is essential reading for scholars and students in political communication and journalism studies, political science, media and communication studies.

The Horror Film Peter Hutchings, 2014-09-11 The Horror Film is an in-depth exploration of one of the most consistently popular, but also most disreputable, of all the mainstream film genres. Since the early 1930s there has never been a time when horror films were not being produced in substantial numbers somewhere in the world and never a time when they were not being criticised, censored or banned. The Horror Film engages with the key issues raised by this most contentious of genres. It considers the reasons for horror's disreputability and seeks to explain why despite this horror has been so successful. Where precisely does the appeal of horror lie? An extended introductory chapter identifies what it is about horror that makes the genre so difficult to define. The chapter then maps out the historical development of the horror genre, paying particular attention to the international breadth and variety of horror production, with reference to films made in the United States, Britain, Italy, Spain and elsewhere. Subsequent chapters explore: The role of monsters, focusing on the vampire and the serial killer. The usefulness (and limitations) of psychological approaches to horror. The horror audience: what kind of people like horror (and what do other people think of them)? Gender, race and class in horror: how do horror films such as *Bride of Frankenstein*, *The Texas Chainsaw Massacre* and *Blade* relate to the social and political realities within which they are produced? Sound and horror: in what ways has sound contributed to the development of horror? Performance in horror: how have performers conveyed fear and terror throughout horror's history? 1970s horror: was this the golden age of horror production? Slashers and post-slashers: from *Halloween* to *Scream* and beyond. The Horror Film throws new light on some well-known horror films but also introduces the reader to examples of noteworthy but more obscure horror work. A final section provides a guide to further reading and an extensive bibliography. Accessibly written, The Horror Film is a lively and informative account of the genre that will appeal to students of cinema, film teachers and researchers, and horror lovers everywhere.

Draculas, Vampires, and Other Undead Forms John Edgar Browning,Caroline Joan "Kay" S. Picart,2009-04-08 Since the publication of Dracula in 1897, Bram Stoker's original creation has been a source of inspiration for artists, writers, and filmmakers. From Universal's early black-and-white films and Hammer's Technicolor representations that followed, iterations of Dracula have been cemented in mainstream cinema. This anthology investigates and explores the far larger body of work coming from sources beyond mainstream cinema reinventing Dracula. Draculas, Vampires and Other Undead Forms assembles provocative essays that examine Dracula films and their movement across borders of nationality, sexuality, ethnicity, gender, and genre since the 1920s. The essays analyze the complexity Dracula embodies outside the conventional landscape of films with which the vampire is typically associated. Focusing on Dracula and Dracula-type characters in film, anime, and literature from predominantly non-Anglo markets, this anthology offers unique perspectives that seek to ground depictions and experiences of Dracula within a larger political, historical, and cultural framework.
