📖 ***The Patient's Medical Journal*** Sandra de Bruin, Nick Lyons, 2015-09-15 An easy way to keep track of your medical records for years to come. The Patient's Medical Journal is a medical diary for patients and their families. It is designed to help patients remember and organize medical information about their and their family's past and present health. The information, once recorded, will come in handy when filling out medical forms for doctors and hospitals. The book is divided into sections to record all pertinent information, such as: A personal medical directory for information about health providers and insurance companies Past surgeries Major illnesses Allergies Vaccinations Current medications Lab tests And family medical history Once you've recorded your past, there's a new section where you can record information for your upcoming medical visits, the purposes for the visits, and the treatment plan you've outlined with your health-care professional. In no time at all, you can compile a compact diary of your medical history for convenient use in the future.

📖 ***Diary of a Medical Intuitive*** Christel Nani, 2004 A native New Yorker and die-hard skeptic offers a personal look at the development of her medical intuition while serving as a trauma nurse in this riveting memoir. Twenty-five case studies with patients suffering from heart disease, breast cancer, prostate cancer, multiple sclerosis, adult onset diabetes, and other illnesses document the emotional and physiological causes behind patients' symptoms. The interaction of a person's energy system with health and illness is discussed in detail, as are the revelations that medical intuition offers about life, death, healing, and the existence of God. Instructive strategies for increased health and well-being offer ways to increase resistance to disease and reverse the progress of illness.

📖 **DIARY OF A MED STUDENT** DANIEL B AZZAM,AJAY N SHARMA,2020-09-04 From the earliest stages of our medical training, we experience unforgettable moments with our patients - inspiring, traumatic, joyful, and sometimes even humorous events. Too often, as doctors-in-training we talk about the suffering or recovery of our patients, ignoring our own emotions after these events, letting them passively shape us until we dig ourselves into an abyss of burn out and resentment. Diary of a Med Student is a book created by medical students, for medical students, doctors, pre-med students, and their loved ones to look backward, forward, and laterally on the wonderful world of medical school. This book offers a space to reflect on our emotions, process their meaning, and share them as tales of sorrow, humor, joy, or inspiration, told from the perspective of medical students writing in a diary. While the act of sharing emotion is itself therapeutic, reading these emotional challenges that we can all relate to is unifying and comforting, providing us with insight through the lessons conveyed in the light of a variety of feelings. Let this book spark a powerful domino effect of change in medical education: in the way we teach physicians to create a safe space for inner reflection and expression of emotion to ultimately enhance physician wellness.

📖 **HOW TO PRACTICE ACADEMIC MEDICINE AND PUBLISH FROM DEVELOPING COUNTRIES?** SAMIRAN NUNDY,ATUL KAKAR,ZULFIQAR A. BHUTTA,2021-10-23 This is an open access book. The book provides an overview of the state of research in developing countries - Africa, Latin America, and Asia (especially India) and why research and publications are important in these regions. It addresses budding but struggling academics in low and middle-income countries. It is written mainly by senior colleagues who have experienced and recognized the challenges with design, documentation, and publication of health research in the developing world. The book includes short chapters providing insight into planning research at the undergraduate or postgraduate level, issues related to research ethics, and conduct of clinical trials. It also serves as a guide towards establishing a research question and research methodology. It covers important concepts such as writing a paper, the submission process, dealing with rejection and revisions, and covers additional topics such as planning lectures and presentations. The book will be useful for graduates, postgraduates, teachers as well as physicians and practitioners all over the developing world who are interested in academic medicine and wish to do medical research.
