Handbook of Nautical Medicine W.H.G. Goethe, E.N.
Watson, D.T. Jones, 2012-12-06 International
cooperation on the health of seafarers began many
years ago. As early as 1921, an international
convention regarding this matter was presented to
governments of maritime countries for
ratification. The First World Health Assembly, in

1948, recommended that WHO should establish, with the International Labour Office, a Joint Committee on the hygiene of seafarers. The first session of this Committee, held in 1949, defined the problems affecting the health of seamen and made a number of recommendations. In the opinion of this Joint Committee, the health of seamen called for international attention for a number of reasons. By the nature of his work, the seafarer is obliged to travel from country to country and is exposed to great variations of climate and also to any disease that may be prevalent in the port of call. He may therefore become a carrier of disease, so that the protection of his health is of importance not only to himself and the other members of the crew but also to the populations of other countries he visits. Yet, on account of the nature of his employment, it is difficult to provide the seafarer with the same standard of health care that is generally available to other sections of the population.

**Crossing Textual Boundaries in International
Children's Literature** Lance Weldy,2011-01-18 "As
the first part of the title indicates, my interest
in looking at intertextuality and transformation
still maintains a prominent place throughout this
book as well. If we believe that 'no text is an
island,' then we will understand that the
relationships between and within texts across the
years become a fascinating place for academic
inquiry. I included the word 'boundaries' into the
title because we never get tired of voicing our
opinions about texts which traverse relegated
boundaries, such as genre or medium. Not only am I
interested in discussing what these changes across
boundaries mean socially, historically, and
culturally, but also what they mean
geographically, which accounts for the second part
of my title. "I am very excited that this book
will be placing even more emphasis on children's
literature in an international scene than my first
book did, in the sense that I have added more
scholars on an international level. I hesitate to
list the nationalities of all of the contributors
here because quite a few have themselves crossed
international boundaries in different ways, by
either studying abroad or finding permanent

residency in foreign countries. Nevertheless, the writers have lived extensively in or identify as being from Australia, Canada, England, Finland, Germany, Greece, Iceland, Ireland, Israel, Norway, Spain, Sweden, Turkey, the United States of America, and Wales.” –Introduction
