Five Quarters of the Orange Joanne Harris, 2009-10-13 When Framboise Simon returns to a small village on the banks of the Loire, the locals do not recognize her as the daughter of the infamous woman they hold responsible for a tragedy during the German occupation years ago. But the past and present are inextricably entwined, particularly in a scrapbook of recipes and memories that Framboise has inherited from her mother. And soon Framboise will realize that the journal also

contains the key to the tragedy that indelibly marked that summer of her ninth year. . . .

I Am DJ Michelle Michelle Rasul, Saida Rasul, Rabiah York Lumbard, 2023-05-16 For young readers inspired by bestselling autobiographies such as *Essentially Charli* and *Reach for the Skai* comes the extraordinary true story of how a nine-year-old DJ from Dubai became an international superstar, as told in her own words—with some help from her “Momager”—with a foreword by Wyclef Jean. Dubai wunderkind Michelle Rasul was only a toddler when she first got behind the turntables. By the time she entered the 2021 DMC Global DJing Championship, she was on her way to becoming an international celebrity. Her inspiring autobiography is a testament to passion, talent, family, love, and perseverance—and above all, a celebration of Girl Power with some scratching and a beat. Award-winning children’s author Rabiah York takes the reader through DJ Michelle’s extraordinary life in a rollicking, intimate narrative driven by Michelle’s own words—joined by the star’s mother, Saida Rasul. (Or “Momager,” as the family prefers.) In conversation, mother and daughter open up not only about the magic of music in their lives, but about the discipline it takes to journey from precocious youngster to professional scratch DJ. For all of Michelle’s positivity, she is unflinchingly honest about the obstacles she has had to overcome to achieve such astonishing success at such a young age. The print edition is enhanced by colorful photographs and other fun multimedia inserts—including (but not limited to) crucial bits of DJ history; text messages from friends, fans, and celebrities; even a school assignment. The audio edition is enhanced by the author’s own mashups and scratching demonstrations.

Branded Nation James B. Twitchell, 2004-09-08 Branding, says James Twitchell, is nothing more than commercial storytelling; brands are the stories that are associated with products. (For example, the special taste of Evian, says Twitchell, is in the brand, not the water.) Branding has become so

successful, so ubiquitous that even institutions that we thought were above branding, antithetical to branding, have succumbed. Such cultural institutions as religion, higher education, and the art world have learned to love Madison Avenue or lose market share. Of course, most ministers, university presidents, and museum directors will insist that branding has nothing to do with them, but as Twitchell brilliantly demonstrates in this witty, insightful examination of three of our most important cultural institutions, wherever supply exceeds demand branding follows. The rise of the megachurch epitomizes branding in religion. From its inception the megachurch was designed not to compete with other churches but to bring in the unchurched, especially men, worshippers who might otherwise be home watching television or strolling through the mall on a Sunday morning. The megachurches have been phenomenally popular, none more so than Willow Creek Community Church, just south of Chicago, one of the oldest megachurches, which Twitchell analyzes in *Branded Nation*. Colleges and universities have embraced branding as they have grown more alike. Especially among the top schools in the country, the student bodies, the faculties, often even the campuses themselves are practically interchangeable. What distinguishes each school is the story it tells about itself. Now every institution of higher learning has its image organizers, its brand managers, usually in the admissions or development offices, whose job it is to make their institution seem different from all the rest. Even museums, with their multimillion-dollar Monets, have seen the advantages of branding. The blockbuster exhibitions often put familiar paintings in a new context, that is, they provide a new narrative, branding the art. Museums keep expanding their stores, placing them not just near the entrance on the ground floor but throughout the museum, in the galleries themselves. Some museums, such as the Guggenheim, even franchise themselves, turning the institution itself into a brand. In short, high culture is beginning to look more and more like the rest of our culture. In

perhaps his most subversive observation, Twitchell doesn't condemn the branding of cultural institutions. On the contrary, he believes that branding may be invigorating our high culture, bringing it to new audiences, making it a more integral part of our lives. Not since *Bobos in Paradise* has there been such a trenchant, provocative analysis of our world.

Stompbox Eilon Paz, 2021-12-21 A deluxe photographic celebration of the unsung hero of guitar music—the effects pedal—featuring interviews with 100 musicians including Peter Dinklage, Joe Perry, Jack White, and Courtney Barnett. Ever since the Sixties, fuzz boxes, wah-wahs, phase shifters, and a vast range of guitar effects pedals have shaped the sound of music as we know it. *Stompbox: 100 Pedals of the World's Greatest Guitarists* is a photographic showcase of the actual effects pedals owned and used by Jimi Hendrix, Stevie Ray Vaughan, Frank Zappa, Alex Lifeson, Andy Summers, Eric Johnson, Adrian Belew, Joe Satriani, Steve Vai, Ed O'Brien, J Mascis, Lita Ford, Joe Perry, Thurston Moore, Lee Ranaldo, Vernon Reid, Kaki King, Nels Cline and 82 other iconic and celebrated guitarists. These exquisitely textured fine-art photographs are matched with fresh, insightful commentary and colorful road stories from the artists themselves, who describe how these fascinating and often devilish devices shaped their sounds and songs.

On the Edge Brian Bagnall, 2006 This book tells the story of Commodore through first-hand accounts by former Commodore engineers and managers. Reliving the early years of an icon in the personal computer revolution turns out to be a fascinating and improbably hilarious journey. This gripping tale of ambition, greed, and inspired engineering gives readers a front row seat at the dawn of the personal computer. Engineers and managers relate their experiences through personal first-hand accounts, vividly recalling the most important moments of Commodore's entry into computers in 1976 until its demise in 1994. The Commodore years are tumultuous, owing to their volatile

founder, Jack Tramiel. He pushes his team to extreme limits, demanding that they almost kill themselves to meet his lofty expectations. Against all odds, his engineers deliver more color, more character, and more value than either Apple or IBM. While other companies receive more press, Commodore sells more computers. They cut a path of destruction through the competition, knocking out Sinclair, Tandy, Texas Instruments, and Atari and almost mortally wounding Apple. Unfortunately, Tramiel's cut throat tactics also prove to be his undoing. He uses up his managers and employees like disposable ink cartridges, producing the highest employee turnover rate in the industry.

Bubblegum Adam Levin, 2020-04-14 Adam Levin is one of our wildest writers and our funniest,

and Bubblegum is a dazzling accomplishment of wit and inventiveness. —George Saunders Levin's brains may have earned him a cult...but here he swells to a democratic reach. Give him a try sometime. His gate's wide open." —Garth Risk Hallberg, The New York Times Book Review The astonishing new novel by the NYPL Young Lions Fiction Award-winning author of The Instructions. Bubblegum is set in an alternate present-day world in which the Internet does not exist, and has never existed. Rather, a wholly different species of interactive technology--a flesh-and-bone robot called the Curio--has dominated both the market and the cultural imagination since the late 1980s. Belt Magnet, who as a boy in greater Chicago became one of the lucky first adopters of a Curio, is now writing his memoir, and through it we follow a singular man out of sync with the harsh realities of a world he feels alien to, but must find a way to live in. At age thirty-eight, still living at home with his widowed father, Belt insulates himself from the awful and terrifying world outside by spending most of his time with books, his beloved Curio, and the voices in his head, which he isn't entirely sure are in his head. After Belt's father goes on a fishing excursion, a simple trip to the bank escalates into an epic saga that eventually forces Belt to confront the world he fears, as well as his estranged childhood friend Jonboat, the celebrity astronaut and billionaire. In Bubblegum, Adam Levin has crafted a profoundly hilarious, resonant, and monumental narrative about heartbreak, longing, art, and the search for belonging in an incompatible world. Bubblegum is a rare masterwork of provocative social (and self-) awareness and intimate emotional power.
