Traveling the Seven Continents Lotta Wiik-Lambert, 2018-06-20 Lotta Wiik-Lambert looks back at a lifetime of adventures, beginning in 1985, in this collection of stories that reveal the thrills and dangers of being a world traveler. Often joined by close friends and family, she traveled the seven continents, including several trips to Europe and Russia, where she dined on caviar, wine, and delectable food she'll remember for a lifetime. But not everything always went smoothly: In Leningrad, she and her first husband, Einar, had to wait two hours before they could drive their car off a ship. Lined up behind a Volvo with dogs sniffing for all kinds of things, they thought their turn would be easy but they'd find out differently. In New Zealand, Australia, Tahiti, and Bora Bora, she enjoyed white water rafting and watching colorful birds running up and down aluminum roofs. On a trip to the Himalayas, India, Thailand, and Hong Kong, she was amazed by the variety of cobras, vipers, and boas. It was a special treat visiting a teak factory where children in their early teens hand-carved teak wood. Join the author as she looks back at a lifetime of adventures and meeting interesting people in *Traveling the Seven Continents*.

Madam, Have You Ever Really Been Happy? Meg Noble Peterson, 2005-05-31 Explore Africa and Asia's exotic and humble locales with Meg Peterson as she sets out to circle the globe carrying nothing more than a backpack. Unfettered by deadlines and armed with an open ticket and a camera, she takes off, making plans as she goes. She rides on dilapidated buses through Egypt and Zimbabwe and squeezes into hot, crowded trains in India. She views a sunrise from the summit of Mt. Moses in the Sinai and a private cremation on the banks of the Ganges. In Kenya Meg encounters roadblocks and Masai warriors, and in Nepal she finds romance with an Austrian scientist. Abandoned at 14,000 ft. by their drunken guide, the two climb to Everest Base Camp through the snow, traversing the Khumbu Glacier and struggling up Kala Pattar (18,500 ft.) to gaze on Everest, Nuptse, and Lhotse. Full of rich and unusual details, Meg Peterson's book takes you into the heart of her journey, an adventure that changed her understanding of herself and the world.

The Man Who Ate His Boots Anthony Brandt, 2010-03-02 After the triumphant end of the Napoleonic Wars in 1815, the British took it upon themselves to complete something they had been trying to do since the sixteenth century: find the fabled Northwest Passage. For the next thirty-five years the British Admiralty sent out expedition after expedition to probe the ice-bound waters of the Canadian Arctic in search of a route, and then, after 1845, to find Sir John Franklin, the Royal Navy hero who led the last of these Admiralty expeditions. Enthralling and often harrowing, *The Man Who Ate His Boots* captures the glory and the folly of this ultimately tragic enterprise.

Operation Black Dragon Klaus Mewes, 2022-03-18 COVID-19. For months, the coronavirus has been holding the world in a death grip. By now, it's dawning on people that nothing will ever be the same. It's the liberal societies of

the West that are feeling the merciless impact the most. Besides the immense, spiraling costs, they must also cope with the reality that their freedom-orientated societal models are beginning to unravel because of this disaster. Because of the COVID-19 pandemic, the West is faltering. The West as a colossus with feet of clay- that's what's impelling the men around Chinese intelligence agent Yue Fei. Author Klaus Mewes has written a gripping thriller, a sophisticated mixture weaving together geostrategy, the history of the virus pandemic, and the research behind it. Klaus also expertly uses China's breathtaking development and eventful history over the past thirty years to infuse his story with realism. The author sheds light on the - fictitious, to be sure - events leading up to the outbreak of the pandemic. Meanwhile, a young woman physician, Shenmi, lives through the 1989 events that occurred on Tiananmen Square. Traumatized, she withdraws emotionally. That is, until the death of a boy during the 1997 H5N1 flu epidemic changes her life yet again, and she resolves to dedicate herself to researching viruses - specifically, coronaviruses. Yue Fei, however, the cunning intelligence agent, is playing his own game. Failing in his hunt for dissidents and professionally exiled as a consequence, he contemplates revenge and the opportunity to rehabilitate himself in the eyes of his superiors. One day, by random chance, he stumbles across an old acquaintance - whereupon he hatches a plan that will change the world. Now begins a breathless race against time.

My Windows, My Views ... My Life and Travels Barbara McCarthy,2022-08-16 As a child of a British air force family, Barbara was troubled by the absence of a stable home-life, a difficult relationship with her father, and too many school changes to have a traditional education or make connections and friends. Her fragmented early life became so entrenched in her being that even as an independent adult in Australia, moving and travelling became her life-style, continually leaving relationships, homes and life behind her. With the realisation that she had a story to tell of her survival, of her achievements and successes over a long life, with more than a few missteps along the way, as well as some amazing travels, Barbara began to write her story. In the telling she uncovered layers of herself and her life that had once left her wondering 'who am I, really?' She discovered who she is - and that there was a happier side to her story too.

One Simple Journey with Cee and Tee Craig Nelson Mahon,2020-07-27 "One Simple Journey" was written to log 'our' journey and 'our' mission to slow down and discover more meaning to 'our' lives. Both Tee and I felt that the only way to achieve this was to break away, almost completely, from everyday life and search for balance! It is a simple story that takes you (the reader) on a journey across this great country of ours, and offers you an opportunity to see an ordinary Australian couple's perspective of that journey. Readers will travel with Tee and I on our daily tour and we have set up a link so you can cross reference our destinations in picture form (google -

OneSimpleJourneywithCeeandTee or email -

onesimplejourneywithceeandtee@gmail.com for a link. Alternatively, you can put the book down and research the areas through other means, which will give you a more vivid and pleasant way of joining Tee and I on our journey. In

addition to the "Simple Journey" we have added some personal experiences and a number of personal motto's and beliefs. These family experiences are part of 'our' personal journey and are expressed purely for "us", as "One Simple Journey" has been penned for "us" and was never intended for widespread publication. These personal beliefs are those that we have gathered over our lifetime, with many forming how both Tee and I approach life. So please – Read On – and enjoy, but I ask that you don't expect too much, as this book is "Raw and Simple". It was written and is intended only to distract you from your daily existence and throw another perspective at you. There is always a thousand reasons not to take a long break from mainstream society – But only one reason why you should – "Choose Wisely!"

The Mammoth Book Of Weird Records Jim Theobald, 2015-09-17 Everyone's heard of Usain Bolt, but how many people know about Dineka Maguire? Like Bolt, the Irish woman is a world record holder but in the rather lesser known sport of bog snorkelling. She is just one of the hundreds of unsung heroes featured in this book chronicling the people who go to bizarre lengths to break world records in the weirdest categories; people who devote hours of intense training to spitting dung, eating cockroaches, sniffing feet or tossing tuna in the hope of one day being recognised as the best in the world. This astonishing compendium of the weirdest, wackiest and most disgusting world records will amuse and astound in equal measure. Entries include: Longest ear hair Fastest marathon while wearing a deep-sea diving suit Fastest bog snorkeller Farthest distance skateboarding by a goat Most bees on body Most milk crates balanced on head Fastest 5-km run while dressed as a penguin and juggling Heaviest airplane pulled with teeth Fastest shopping trolley Longest backwards motorcycle ride Most stairs climbed by bicycle Fastest 30 metres on a scooter by a dog First water-skiing squirrel

The Centenary Companion to Australian Federation Helen Irving, 1999-12-06 Published to mark the centenary of Federation, this important book explores Australia's national origins in a comprehensive and accessible way. A high-calibre team of writers has been gathered to write the first ever comprehensive, general history of Federation. Starting from the perspective of the individual colonies as they made their way towards membership of the Australian Commonwealth in 1901, the book also provides cross-referenced short alphabetical entries covering key events, people and concepts. It approaches Federation not simply as a formal political story, but as a social and cultural process, maintaining the relevance of nation-making by highlighting ongoing debates about democracy, sovereignty and progressive citizenry. A major contribution to the Centenary of Federation, this book should become a standard reference for scholars, students and general readers in the continuing discussions of Australia's future as a nation.

Soft Power for the Journey Sandra K. Johnson, 2024-06-04 This is a story of an African American woman working at the highest levels in STEM. Dr. Sandra K. Johnson earned a Ph.D. in electrical and computer engineering from Rice University, Houston, Texas, in May 1988, the first Black woman to do so. She then became a successful global technology leader and an IBM Chief Technology Officer (CTO). The story narrates the inextricable human dimension of dealing with various personal and familial challenges that people naturally encounter—with the highs and lows, and exhilarations and disappointments. It portrays her inner strength, persistence, dedication, boldness, quiet resilience, wisdom and strong faith, this soft power she leverages throughout her life. It is a heartwarming, compelling story designed to encourage, be aspirational and awe-inspiring, and uplift the spirits of a broad and diverse readership. From tragically losing her father at the age of two, to being raised by a single mother of four children, Sandra showed promise in math and science, and discipline and unrelenting drive at a young age. Raised in the deep South, she exhibited leadership even while in kindergarten and blazed trails in leadership while in junior high and high schools. Her early education was in segregated schools, with integration coming to her hometown as she started the 5th grade. Dr. Johnson's innate abilities led her to a summer engineering program for high school students, then on to college and graduate school. Dr. Johnson has made innovative contributions in high performance computing – supercomputers – and other areas of computer engineering. She has dozens of technical publications, over 45 pending and issued patents, and a plethora of recognition and honors in her field. The book is a fascinating and intriguing story that conveys in captivating and relatable ways the remarkable life arc of a resilient person from an underprivileged background who persistently overcomes whatever odds and challenges are encountered in her life.
