*The Power of Mentors: A Guide to Finding and Learning from Your Ideal Mentor* Penelope Trunk, 2012-10-23 NOTE FROM THE AUTHOR Understanding how to find mentors and how to leverage mentors is probably the single most underrated career skill. People know they should have mentors. They tell themselves they should work on that. But for most of us, getting a mentor doesn't reach the top of our to do list. I have compiled these blog posts with the hope that after you read them, you will put getting a mentor at the top of your list. It's not something that is just a phone call. It's a process, and like all big goals, you need to work on it a little bit each day. You are probably thinking: What do I DO each day in order to get a mentor? You'll find the answer to that question right here, so keep reading. There are three pieces to the mentor problem. The first is making yourself believe that your career will never take off if you don't have good mentors. The next thing is you need to be able to rope in a mentor. Or three, really. Most people need three good mentors at any given time. The next problem is how do you ask the right questions of a mentor so you keep the mentor engaged and feeling useful. I have had many mentors throughout my career. Some were accidental and some were people I stalked for years. Some were people I hired (career coaches can be a stand-in for a mentor) and some were people I fired (you can learn a lot from someone you fire because they know how you can be a better boss!). I hope this set of blog posts will show you a path to making your career more fulfilling and inspiring by surrounding yourself with people who enjoy helping you. Good luck! Penelope

**BOOK EXCERPT Why You Need a Mentor Now** Of course a good education and talent are keys to building a successful career, but for most people, school is over and the parameters of their talent were set on the day they were born. So what can you do now to get ahead? Get a mentor. In fact, get a stable of mentors for guidance on multiple aspects of your career. "Executives who have had mentors have earned more money at a younger age," writes Gerard Roche, senior chairman at the recruiting firm Heidrick & Struggles. Additionally, his research shows "those who have had mentors are happier with their career progress and derive greater pleasure from their work." The majority of executives had mentors in their first five years of their career. But finding a mentor is not easy. For a lucky few, mentors can be found through a privileged network of relatives, family friends or your parents' business associates. For everyone else, the search requires patience, a clear focus and the self-confidence to be a nudge. "Not everyone can depend on nepotism," says Alisyn Camerota, New York-based correspondent for Fox News. "I got where I am by turning reluctant people into active mentors." The easiest way to create allies is to build a reputation as an overachiever. That's what Camerota did during an internship early on in her career at a Washington, D.C.-based news bureau. After earning the respect of her boss throughout the summer, she came to rely on her for advice and support. Eventually Camerota felt empowered enough to walk into her office and say, "My internship ends in a week and I don't have a job. Can I have all your contacts?" She said yes. Camerota copied the whole Rolodex onto a legal pad by hand and cold called the contacts until someone agreed to interview her. Those calls later led to a full-time job. Buy the Book to Read More!

*Mentoring and Sponsoring* Maria Angela Capello, Eve Sprunt, 2020-11-11 This book is a compilation of very personal approaches to mentoring and sponsoring, breaking the stereotypes of seniority, age or experience. The authors have provided a platform to understand that mentoring and especially sponsoring are in fact a win-win relation, in which both sides, mentors and mentees; and sponsors and sponsored individuals learn from each other, enhancing their career paths. How they managed to create a growth space for themselves and their teams through mentoring and sponsoring, is a story of professional leadership. They shared a privileged outlook to understand the root causes of barriers, as well as to envision plausible solutions for difficult career crossroads, in which mentorship or sponsoring was key to steer step changes. The authors propose not only their vision, but a remarkable collection of unfiltered interviews with young and renown professionals in many sectors, from photography to music, research, sports, energy, and more, completing a vision of what is key for both sides of the equation pertinent to mentoring and sponsoring: the givers and the receivers. They explain what is needed to gain the most out of the mentoring and sponsoring loops, with their own career stories. Success is supported by many factors, in which the most important are the technical competency and performance aligned with resilience. However, in the long path of a career, mentors and particularly sponsors play a foundational and frequently a changing-life role, improving our perspective or triggering reflections and actions that benefitted our journeys at work and in life. This book provides insights on what works for an effective mentoring and sponsoring process. It is useful for all professionals, especially those starting their career journeys.

**Mentor Myth** Debby Carreau, 2016-11-03 Mentors are over-utilized, under-trained and, as

studies show, under-deliver. From an employer's perspective, assigning a mentor is often a band-aid to a larger problem. From an employee's perspective, a lack of formal mentorship is seen as a serious, career-inhibiting problem, the equivalent of sailing a boat without a rudder. In *The Mentor Myth*, Debby Carreau represents this dichotomy, explaining that while a mentor's counsel can be invaluable, it is not the silver bullet human resources professionals often purport it to be. The opinions of a mentor are one data point, one piece in the much more complex game of navigating a career. In fact, the increasing overreliance on mentorship can actually be a hindrance to a successful career. Instead of continually looking outward for career guidance, aspiring professionals must realize that they possess all the tools necessary to take control of their own careers by using their own strengths, capabilities, and visions of success. Through her years of experience consulting, speaking, and writing about career development, Debby has created a comprehensive, easy-to-implement guide for taking ownership of your professional success. Debby begins by helping the reader create a professional roadmap, including how to build a personal brand, project the right amount of confidence, and manage time. She addresses mentors in the context of networks and sponsors, advising the reader how to incorporate outward influences rather than be defined by them.

**Teach to Work** Patty Alper, 2017-03-27 The United States is abundantly rich in adults with know-how. By connecting mentors -- educated adults with expertise and knowledge -- with mentees -- teens and young adults who lack motivation, experience, and role models in their lives -- we can begin to close this gap dramatically. We can prepare the next generation for the jobs of tomorrow by adding real-world, project based experience to their education. Teach to Work is a call to action for mentors currently sitting on the sidelines. Whether you are a banker, lawyer, architect, accountant, engineer, IT specialist, or artist, you have the experience and skillset to become an ambassador of talent, grit, and transferable skills. The book provides a step-by-step guide to help professionals share their knowledge with the next generation of workers through this intergenerational experience. Based on Alper's fifteen years of mentoring inner-city high-school students, Teach to Work proves how corporations, professionals, and boomers can have a significant impact on the professional future of America's youth. Drawing from real-life stories and letters received from students, teachers, and fellow mentors describing pride of accomplishment, Alper helps professionals embark on this journey to transform lives, mentoring one student at a time.
