Metro Stop Dostoevsky Ingrid Bengis,2003-05-14 A Russian American writer catapults herself into the maelstrom of Russian life at a time of seismic change for both The daughter of Russian émigrés, Ingrid Bengis grew up wondering whether she was American or, deep down, really Russian. In 1991, naïvely in love with Russia and Russian literature, she settled in St. Petersburg, where she was quickly immersed in *catastroika*, a period of immense turmoil that mirrored her own increasingly complex and contradictory experience. Bengis's account of her involvement with Russia is heightened by her involvement with B, a Russian whose collapsing marriage, paralleling the collapse of the Soviet Union, produces a situation in which anything could happen. Their relationship reflects the social tumult, as well as the sometimes dangerous consequences of American good intentions. As Bengis takes part in Russian life-becoming a reluctant entrepreneur, undergoing surgery in a St. Petersburg hospital, descending into a coal mine-she becomes increasingly aware of its Dostoevskian duality, never more so than when she meets the impoverished, importuning great-great-granddaughter of the writer himself. Beneath the seismic shifting remains a centuries-old preoccupation with the big questions: tradition and progress, destiny and activism, skepticism and faith. With its elaborate pattern of digression and its eye for the revealing detail, Bengis's account has the hypnotic intimacy of a late-night conversation in a Russian kitchen, where such questions are perpetually being asked.

Time Out Madrid Editors of Time Out,2013-06-04 Famed for its wild nights and lazy days, Madrid provides a whole lot more, whether your interests lie in spectacular opera productions or chirpy folkloric zarzuela; in cutting-edge cuisine or ancient, tiled tabernas; in designer-shoe shopping or mooching around flea markets. Written by resident journalists, Time Out Madrid also covers the artistic jewels housed in the Prado, Thyssen, and Reina Sofia, as well as the etiquette of watching a bullfight or joining in with a flamenco performance, as well as where to stay and how to escape the city heat.Suggested trips out of town are also recommended. • In the frame—the intriguing stories behind some of the city's best-known paintings. • Sophisticated snacking—where to find gourmet tapas and wine-lists to match. • Winding down—the yoga centers, spas and Turkish baths springing up all over town. • Up, up and away—climbing, skiing and hang-gliding are all within reach of the city.

TimeOut Madrid Time Out Guides Ltd,2010 Annotation Madrid emerges from several years under wraps to reveal its new facelift. Streets have been prettified, boulevards swept through and transport untangled. This in addition to its perennial attractions, whether your interests lie in spectacular opera productions or chirpy folkloric zarzuela; in cutting-edge cuisine or ancient, tiled tabernas; in designer-shoe shopping or mooching around flea markets. Put together by journalists resident in the city, Time Out Madrid also covers the artistic jewels housed in the Prado, Thyssen and Reina Sofia, as well as the etiquette of watching a bullfight or joining in with a flamenco performance, plus where to stay and how to escape the city heat.

Time Out Barcelona Editors of Time Out,2013-05-02 Barcelona barely has time to take down the bunting between its rollicking festivals-when there isn't an all night fiesta happening on the street, there's more likely a party on the beach (only ten minutes away) and never any shortage of action in its clubs and bars. Gentler pursuits are also myriad: the city's museums have got it all covered from Picasso and Miro to perfume and an outstanding aquarium.It's galleries are among the most avant garde in Europe and its history written large in the churches and perfectly preserved medieval alleyways of the Barri Gotic. Time Out's local journalists give you the inside scoop on where to stay, eat, shop and what to see. Suggested day-trips to coast, country and city are also included in the guide.

Margaret Truman's Murder on the Metro Margaret Truman,Jon Land,2021-02-16 In Margaret Truman's *Murder on the Metro*, Jon Land's first thrilling addition to the New York Times bestselling Capital Crimes series, Robert Brixton uncovers a sinister plot threatening millions of American lives! A roller coaster of a novel. —David Baldacci, New York Times bestselling author *Israel: A drone-based terrorist attack kills dozens on a sun-splashed beach in Caesarea*. Washington: America awakens to

the shattering news that Vice President Stephanie Davenport has died of an apparent heart attack. That same morning, a chance encounter on the Washington Metro results in international private investigator Robert Brixton thwarting an attempted terrorist bombing. Brixton has no reason to suspect that the three incidents have anything in common, until he's contacted by Kendra Rendine, the Secret Service agent who headed up the vice president's security detail. Rendine is convinced the vice president was murdered and needs Brixton's investigative expertise to find out why. In Israel, meanwhile, legendary anti-terrorist fighter Lia Ganz launches her own crusade against the perpetrators of that attack which nearly claimed the lives of her and granddaughter. Ganz's trail will ultimately take her to Washington where she joins forces with Brixton to uncover an impossible link between the deadly attack on Caesarea and the attempted Metro bombing, as well as the death of the vice president. The connection lies in the highest corridors of power in Washington where a deadly plot with unimaginable consequences has been hatched. With the clock ticking toward doomsday, Brixton and Ganz race against time to save millions of American lives who will otherwise become collateral damage to a conspiracy destined to change the United States forever. Margaret Truman's Murder in the Metro is a spectacular international thriller of intrigue and conspiracy that I could . . . not . . . put . . . down. —Mark Greaney, New York Times bestselling author At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Steps in Time Sarah Vradenburg, 2012 What started in 1921 in an effort to encourage forestry, conserve natural resources, and protect the comfort and welfare of the citizens of Summit County has, in ninety years, grown into one of the largest and most popular metropolitan park districts in Ohio. Today, Metro Parks, Serving Summit County, manages 10,000 acres, including 13 developed parks, six conservation areas, and more than 120 miles of trails, with 21.5 miles of the Ohio & Erie Canal Towpath Trail. Annual attendance averages 4.5 million visitors. Since 2007, author Sarah Vradenburg, a former editorial writer for the Akron Beacon Journal, has studied archives, interviewed park visitors, and hiked with current and former staff to help share a people-oriented history of the park district. The book contains historic and current photos, including a signature photograph of each open park at the time of publication. A review of the park district's directors and commissioners, from 1921 to the present, is also included.

The Great Society Subway Zachary M. Schrag, 2014-08 As Metro stretches to Tysons Corner and beyond, this paperback edition features a new preface from the author. Drivers in the nation's capital face a host of hazards: high-speed traffic circles, presidential motorcades, jaywalking tourists, and bewildering signs that send unsuspecting motorists from the Lincoln Memorial into suburban

Virginia in less than two minutes. And parking? Don't bet on it unless you're in the fast lane of the Capital Beltway during rush hour. Little wonder, then, that so many residents and visitors rely on the Washington Metro, the 106-mile rapid transit system that serves the District of Columbia and its inner suburbs. In the first comprehensive history of the Metro, Zachary M. Schrag tells the story of the Great Society Subway from its earliest rumblings to the present day, from Arlington to College Park, Eisenhower to Marion Barry. Unlike the pre-World War II rail systems of New York, Chicago, and Philadelphia, the Metro was built at a time when most American families already owned cars, and when most American cities had dedicated themselves to freeways, not subways. Why did the nation's capital take a different path? What were the consequences of that decision? Using extensive archival research as well as oral history, Schrag argues that the Metro can be understood only in the political context from which it was born: the Great Society liberalism of the Kennedy, Johnson, and Nixon administrations. The Metro emerged from a period when Americans believed in public investments suited to the grandeur and dignity of the world's richest nation. The Metro was built not merely to move commuters, but in the words of Lyndon Johnson, to create a place where the city of man serves not only the needs of the body and the demands of commerce but the desire for beauty and the hunger for community. Schrag scrutinizes the project from its earliest days, including general planning, routes, station architecture, funding decisions, land-use impacts, and the behavior of Metro riders. The story of the Great Society Subway sheds light on the development of metropolitan Washington, postwar urban policy, and the promises and limits of rail transit in American cities.

Decision Time Jerry Ahern, IN A CORRUPT CAMPAIGN, ONLY BULLETS COUNT AS VOTES AGAINST TERROR. In the streets of America's most violent city, the radical FLNA continues a ruthless campaign against freedom. Their law-and-order candidate for mayor is backed by an international syndicate doing a billion-dollar business in drugs and guns. Only David Holden and his Patriots have the guts-and the grit-to stand in their way. When the FLNA savagely attacks a member of the Special Task Force and kidnaps another, it's meant as a deadly warning. But for Holden and his freedom fighters there's no turning back. About the Series THE DEFENDER A patriot in the truest sense, David Holden was a law-abiding citizen-until the laws proved powerless to protect the innocent, to stop an invader hell-bent on America's destruction. With an army of renegade cops and vets, he's fighting back with all the cunning, expertise, and brute force at his command. Anytime, anywhere. Holden and his warriors are ready to defend their country from the enemy-the enemy outside and the enemy within.

Intrinsic Time Geometrodynamics: At One With The Universe Chopin Soo, Hoi-lai Yu, 2022-10-07 A discourse on time, gravity, and the universe that takes the reader through the subtleties of time, the origin of the universe, and physical evolution in Einstein's theory and its extensions. Can time and causality remain fundamental when the classical ideal of spacetime becomes a concept of limited applicability in quantum gravity? A thorough exposition on the canonical framework of Einstein's theory and its extensions reveals the synergy between gravitation and the cosmic clock of our expanding universe that renders time concrete, physical, and comprehensible. In conjunction with a paradigm shift from four-covariance to just spatial diffeomorphism invariance, causal time-ordering of the quantum state of the universe and its evolution in cosmic time become meaningful. The quantum state of the universe is the embodiment of our shared past, present, and future. The advocated framework prompts natural extensions and improvements to Einstein's theory. A salient feature is the addition of a Cotton-York term to the physical Hamiltonian. Besides bringing improved ultraviolet convergence, this radically changes the solution to the initial data problem and the quantum origin of the universe. It lends support to the quantum beginning of the universe as an exact Chern-Simons Hartle-Hawking state that features Euclidean-Lorentzian instanton tunneling. A signature of this state is that it manifests, at the lowest order approximation, scale-invariant two-point correlation function for transverse-traceless quantum metric fluctuations. This initial quantum state also implies, at the level of expectation values, a low-entropy hot smooth Robertson-Walker beginning that is in accord with Penrose's Weyl Curvature Hypothesis. Consequently, the gravitational arrow of time of increasing spatial volume and the thermodynamic second law arrow of time of increasing entropy concur as our universe expands and ages.
