Rhythm Erik Hojsgaard,2016-08-01 In *Rhythm. Advanced Studies*, Erik Hojsgaard, composer and professor of aural training at the Royal Danish Academy of Music, provides a detailed guide to reading and understanding advanced use of rhythm. The 451 exercises and their corresponding notes allow those professionally involved with music to further develop their technical and practical skills in this specific area. The book also includes exercises aimed at developing modern composition techniques. Danish professor and composer Per Noergaard writes: The many aspects of aural training in this book by Erik Hojsgaard have been inspired by his deep insight into western

music and its thousand-year-old traditions. Written with clarity that allows for rhythm and polyphony to be presented in an understandable form, Hojsgaard's book is both musical and entertaining. There is no doubt that one gains new insights and musical joys after working through the book's exercises.

Exercises for Three-Finger Banjo JACK

HATFIELD, 2016-02-12 This is a unique collection of drills for all three popular three-finger banjo styles: Scruggs, Single String and Melodic. There are over two hundred sixty exercises ranging from beginner to advanced levels. The physical exercises include finger strengthening, increasing position changing speed, agility and hand-eye coordination. There are detailed aspects of technique not addressed in any other book such as pick depth control, controlling the pick angle for the best tone, stabilizing the right hand and improving economy of motion in both hands. Musical exercises include roll exercises, roll combinations, modern (post-Scruggs) rolls, scales and scale patterns in both single-string and melodic styles, chord scales, fretboard positions for the G scale over the entire fretboard and triad and seventh chord formations. Location of root, seventh and minor tonal centers are shown in chord formations and in the fretboard patterns. Melodic quasi-chord formations are revealed which have never been codified in any other book. Mental tips which enhance focus and dozens of theory tidbits are featured

A Musical Life Max Rudolf, 2001 This volume offers a collection of articles written by the renowned conductor and scholar Max Rudolf, together with a selection of his correspondence relating to material in the articles. Max Rudolf's conducting career spanned seventy years, from his first performances in 1920-21 to his last in 1990.

His life was devoted to performing, scholarship, and teaching. He conducted at the Metropolitan Opera from 1943 to 1937 and was Musical Director of the Cincinnati Symphony from 1938 to 1970, after which he combined guest conducting with teaching opera and conducting at the Curtis Institute in Philadelphia. The articles reflect a lifetime of thought on the art of conducting, musical style, and performance practice. Rudolf, known as an interpreter of the classical repertoire, freely shared his vast knowledge of Mozart's and Beethoven's scores with colleagues and students. His conducting book, *The Grammar of Conducting*, has been the leading college text in the field for many years. As such it has extended his influence on many generations of conductors. Throughout his life, Rudolf corresponded voluminously with other musicians. The letters included in this volume were selected because they shed a warm, personal light on the formal published articles thus providing an opportunity to share the mind and thoughts of an outstanding human being
