Barbarian: Explorations of a Western Concept in Theory, Literature, and the Arts Markus Winkler,Maria Boletsi,2023-07-31 Since Greek antiquity, the ‘barbarian’ captivates the Western imaginary and operates as the antipode against which self-proclaimed civilized groups define themselves. Therefore, the study of the cultural history of barbarism is a simultaneous exploration of the shifting contours of European identity. This two-volume co-authored study explores the history of the concept ‘barbarism’ from the 18th century to the present and illuminates its foundational role in modern European and Western identity. It constitutes an original comparative, interdisciplinary exploration of the concept’s modern European and Western history, with emphasis on the role of literature in the concept’s shifting functions. Critically responding to the contemporary popularity of the

term 'barbarian' in political rhetoric and the media, and its violent, exclusionary workings, the study contributes to a historically grounded understanding of this figure's past and contemporary uses. It combines overviews with detailed analyses of representative works of literature, art, film, philosophy, political and cultural theory, in which "barbarism" figures prominently.

Baka i Višnja ČUVANJE Aleksandra Djordjević, 2022-08-30 U ovoj zbirci čuvaju se priče o jednoj devojčici Višnji i njenoj baki. U tim pričama uglavnom baka čuva unuku, mada se ponekad čini i da je obrnuto. Dve generacije na veseli i duhovit način priču jedna drugoj svoje životne avanture i otvaraju jedna drugoj svoje poglede na svet. To čuvanje nije nikako obično, kao ni jedno čuvanje. Jer dok se čuva, svašta može da se sazna i nauči. Od pentranja po krovu, preko plivanja i mobilnih telefona do divnih pouka i mudrosti. Knjiga je na srpskom jeziku. Preporuka za uzrast: 5-9 godina i za mame i tate, bake i deke.

Definiteness in Bulgarian Olga M. Mladenova,2008-09-25 In its evolution from a synthetic to an analytic language, Bulgarian acquired a grammaticalized category of definiteness. The book presents the first attempt to explore in detail how this happened by comparing the earliest Modern Bulgarian texts with contemporary dialect and standard Bulgarian data. The basic units of analysis are the various types of nominal structures headed by nouns or pronouns. The analysis requires the strict terminological disentanglement of form from content and the adoption of a default inheritance model of definiteness that allow the exhaustive classification and tagging of nominal structures encountered in the texts. Tagging makes it possible to apply quantitative analysis to nominal structure and to assess the types available in the early texts from a current native-speaker perspective. Based on an S-curve model of language change, the study establishes that overt markers of definiteness were first made available to identifiability-based definites, then to inclusiveness-based definites, quantitative generics and unique referents. The overt markers of indefiniteness followed suit, separating indefinites from non-specifics

and typifying generics. This progression of definiteness was directed by variables such as person, animacy, gender, number and noun-class, and started in contexts in which definiteness closely interacted with possessivity. Such an analysis leads to the realization that the two-dimensional S-curve model does not account for all language change and that there is a need for a three-dimensional model. It also demonstrates that, contrary to previous assumptions, there is continuity between the early Slavic marker of definiteness (long-form adjectives) and the Modern Bulgarian article. This discovery, in conjunction with geolinguistic arguments, sheds new light on the role that relations inside the Balkan Sprachbund played in the grammaticalization of Bulgarian definiteness.

Incantations are in Europe well spread folklore genre, which contain very old magical elements. The book covers wide spectrum of regions, from United Kingdom to Russia and Iran, and includes also Slovenia. The researchers have devoted their attention to phenomenological and theoretical studies of incantatio, and have discussed various topics, from the origin of charms and ancient European magical

practices, to the receptions and diffusions of different types of charms. _____
Knjiga ('Zagovori in zagovarjanje: Študije o magičnem v vsakdanjem življenju') je skupno delo osemnajstih uglednih evropskih raziskovalcev verbalne magije in zdravljenja z zagovori. Prispevki so posvečeni fenomenološkim in teoretskim raziskavam zagovarjanja, pri čemer avtorji uporabljajo številne metodološke pristope in obravnavajo zelo različne teme, od vprašanj izvora ustnega izročila do recepcije in razširjenosti zagovarjanja. Osrednja tema raziskav je zagovarjanje, ki je najbolj poetična oblika besedne magije. Zagovori so v Evropi še vedno razširjen žanr in vsebujejo zelo stare elemente magije. Poleg pestrega metodološkega spektra zaobjemajo študije tudi široko geografsko območje: od Anglije do Rusije in Irana, vključujejo tudi Slovenijo.
