Prototype Powertrain in Motorsport Endurance Racing Alberto Boretti,2018-08-01 Racing continues to be the singular, preeminent source of powertrain development for automakers worldwide. Engineering teams rely on motorsports for the latest prototype testing and research. Endurance racing provides the harshest and most illuminating stage for system design validation of any motorsport competition. While advancements throughout the 20th Century brought about dramatic increases in engine power output, the latest developments from endurance racing may be more impactful for fuel efficiency improvements. Hybrid powertrains are a critical area of research for automakers and are being tested on the toughest of scales. Prototype Powertrain in Motorsport Endurance Racing brings together ten vital SAE technical papers and SAE Automotive Engineering magazine articles surrounding the advancements of hybrid powertrains in motorsports. The book also includes a history of endurance racing from the World Sports Car Championship through the 24 Hours of Le Mans to the World Endurance Championship written by the author. The goal is to provide the latest concepts being researched and tested on hybrid systems that will influence vehicles for years to come - appealing to engineers and enthusiasts alike.

Inclusion: STILL the Competitive Business Advantage Shirley Engelmeier,2018-11-20 In Inclusion: STILL the Competitive Business Advantage, Shirley Engelmeier continues her contributions to thought leadership on the importance of inclusion in an environment that has been roiled with new discussion-and new dissent-amid rapidly changing demographics, continually emerging technology and a global economy that is continually shifting to favor newly emerging market powerhouses. Within this framework one thing remains a constant-the need for inclusion. The need to ensure that the varied voices that exist within and outside of organizations are encouraged, listened to and acted upon to drive engagement, retention, innovation-and market power. The companies that are leading the pack in terms of profit, innovation and employee engagement get it. No, they're not perfect and they're not achieving 100 percent inclusion 100 percent of the time. But they're moving forward in the right direction with the right mindset-that inclusion is a business imperative that can only be achieved through commitment from the top, clear and measurable objectives and consistent accountability. Inclusion truly is still the driver behind competitive business advantage.

Ford Total Performance Martyn L. Schorr,2015-09-10 Follow Ford's leap into the 1960s and the performance era--on the streets and on the track! In the early 1960s, Ford Motor Company underwent a dramatic change in corporate philosophy. Previously, under Ford's young chairman, Henry Ford II (the Deuce) safety, not performance, was the goal. But by 1962, even the chairman realized his philosophy needed to change. Ford was nearly invisible to car-crazy baby boomers. Lee Iacocca convinced Ford that he needed to act decisively or risk losing the emerging youth market to the competition. Thus began Ford's Total Performance program. Ford Total Performance is all about Ford's prime racing era from 1961 through 1971. In addition to purpose-built race cars, it also covers production performance cars, specialty models, and unique concepts such as lightweight drag race cars. The book explores the 427 Fairlane Thunderbolt; Mercury Comet; unique V-8 Falcons that competed in the 1963 and 1964 Monte Carlo Rallies; Dick Brannan's 427 A/FX drag car; Ford Indy 500 winning race cars; 427 Overhead Cam SOHC 427 engines as used in A/FX and fuel race cars; Boss 302 and 429 Mustangs for street, drag racing, and Trans-Am; and many more. The Ford-Ferrari war that led to the creation of the legendary GT40 Le Mans race cars isn't forgotten. Featuring unpublished period photographs, plus photos and artwork from Ford designers, Ford Total Performance covers all of Ford's classic race and street cars, including Cobras and Shelby Mustangs. It's a must-have book for any fan of classic American performance cars!
