**Teaching Middle School Writers** Laura Robb, 2010 My whole goal with this book was to come at teaching writing from the angle that matters most: students' perspective. They taught me what I needed to know to make this book live up to their passion for writing. Laura Robb Adolescents have robust and rewarding writing lives outside of school that involve journals, emails, text messages, blogs, and an astounding array of genres. Unlike their personal reading lives that teachers frequently tap into, their personal writings typically exist under the curricular radar-that is until now. While grounded in the

common schedule constraints and curriculum demands of middle school, Laura Robb's *Teaching Middle School Writers* offers teachers lessons and routines that are uncommonly attuned to adolescents' developmental and social needs. As she taps into the energy and enthusiasm of adolescents' personal writing lives, Laura presents: writing plans that support first drafts strategies for crafting leads that grab and endings that satisfy grammar lessons that address writing conventions editing lessons that have students revise their writing before the teacher reads it guidelines for grading and responding to student work. Straight-from-the-classroom writing samples and videos give teachers the opportunity to see how Laura uses compelling questions and powerful mentor texts to teach writing, support struggling writers, and weave twenty-first century literacies into the writing curriculum. Throughout, teachers learn ways of connecting to students' lives in order to bring out their best writing, their best self. Watch a video overview.

Essentials of Working Memory Assessment and

Intervention is an accessible, practical guide to accurately and efficiently assessing working memory. This comprehensive resource explains the theories of working memory, with an emphasis on cognitive load theory, and provides step-by-step guidelines for organizing a cross-battery assessment, selecting appropriate instruments, interpreting results, and formulating individualized interventions and educational programming. In-depth case studies illustrate typical profiles found in children and adolescents with working memory deficits, and the companion CD features worksheets, testing charts, and other useful resources. Reader-friendly design elements including Rapid Reference, Caution, and Don't Forget boxes, and practice questions, bullet points, and icons make this guide useful for both study and desk reference. ### **When Writers Drive the Workshop** Brian

Kissel, 2023-10-10 With increasing school mandates and pressure to perform well on standardized tests, writing instruction has shifted to more accountability, taking the focus away from the writer. In his engaging book, When Writers Drive the Workshop: Honoring Young Voices and Bold Choices , author Brian Kissel asks teachers to go back to the roots of the writing workshop and let the students lead the conference. What happens when students, not

tests, determine what they learned through reflection and self-evaluation? In *When Writers Drive the Workshop*, you'll find practical ideas, guiding beliefs, FAQs, and Digital Diversions to help visualize digital possibilities in the classroom. Written in an engaging, teacher-to-teacher style, this book focuses on four key components of writing workshop: Student-led conferring sessions where the teachers are the listeners; The Author's Chair-, where students set the agenda and gather feedback; Structured reflection time for students to set goals and expectations for themselves; Mini lessons that allow for detours based on students' needs, not teacher or curricula goals. All students have the powerful, shared need to be heard; when they choose their writing topics, they can see their lives unfold on the page. Teachers are educated by the bold choices of these young voices.

*Students Who Are Exceptional and Writing Disabilities* Gary A. Troia, Steve Graham, 2017-10-19 This special issue examines four critical aspects of writing instruction for students with disabilities: prevention, classroom practice, instruction, and assessment. The first article addresses writing strategy instruction for young students at risk for long-term writing difficulties. Next special and general education middle school educators' epistemology is

explored regarding writing development and instruction, their self-reported teaching practices, and the challenges they faced as they strive to teach middle school students how to effectively use writing as a communicative medium and learning tool. The third, article reviews and critiques state writing standards and describes an instructional plan to help students with disabilities and other struggling writers master composing strategies and processes that may equip them to meet state standards in writing. Finally, a review is presented of the extant research on various methods of writing assessment, including holistic, primary trait, and analytic scoring methods, with particular emphasis on Curriculum-Based Measurement--an assessment technique well suited for children and youth in special education.

**I Wanna Iguana** Karen Kaufman Orloff, 2004-09-09  
Hilarious notes between a son and his mom show how kid logic can be very persuasive. Alex just has to convince his mom to let him have an iguana, so he puts his arguments in writing. He promises that she won't have to feed it or clean its cage or even see it if she doesn't want to. Of course Mom imagines life with a six-foot-long iguana eating them out of house and home. Alex's reassures her: It takes fifteen years for an iguana to get that big. I'll be married by then and probably living in my own house His mom's reply: How are you going to get a girl to marry you when you own a giant reptile? Kis will be in hysterics as the negotiations go

back and forth through notes, and the lively, imaginative illustrations showing their polar opposite dreams of life with an iguana take the humor to even higher heights.
