The Art of Reading Minds Henrik Fexeus, 2019-10-15 The internationally bestselling guide to mind-reading by influencing those around you via non-verbal communication, from human psychology expert Henrik Fexeus. How would you like to know what the people around you are thinking? Do you want to network like a pro, persuade your boss to give you that promotion, and finally become the life of every party? Now, with Henrik Fexeus's expertise, you can. *The Art of Reading Minds* teaches you everything you need to know in order to become an expert at mind-reading. Using psychology-based skills such as non-verbal communication, reading body language, and using psychological influence, Fexeus explains how readers can find out what another person thinks and feels—and consequently control that person's thoughts and beliefs. Short, snappy chapters cover subjects such as contradictory signs and what they mean, how people flirt without even knowing it, benevolent methods of suggestion and undetectable influence, how to plant and trigger emotional states, and how to perform impressive mind-reading party tricks. Fexeus gives readers practical (and often fun) examples of how to effectively mind-read others and use this information, benevolently, both in personal and professional settings.

Mindreader David J. Lieberman, PhD, 2022-08-16 Tired of guessing what they're really thinking? Read people in every situation—in person, on a screen, or in writing—using the new science of psycholinguistics, from a New York Times bestselling author and consultant to the FBI, CIA, and NSA. “A treasure trove of concepts, ideas, and tools that we can all master to be safer and happier. It's a must-read!”—Joe Navarro, author of *Dangerous Personalities* What did your boss mean in that email? Is your mechanic

stretching the truth? Whether you're engaged in a casual conversation or a high-stakes negotiation, it's critical to understand the subtext of a situation. But with so much interaction happening on screens—via email, texts, or video chat—we are losing the ability to interpret expressions and cues. Furthermore, since many are now savvy about the meaning of body language, it's become even harder to discern someone's true thoughts or intentions. A leading lie-detection expert who instructs the FBI and other security agencies, noted psychotherapist David Lieberman, PhD, takes "people reading" to a whole new level. Drawing on the latest research in psycholinguistics—the cues embedded in spoken and written speech—he shows you how to apply his cutting-edge methods to countless everyday situations, including:

- Detecting the messaging behind passive language, personal or impersonal descriptions, and level of detail.
- Determining whether someone's account of any incident is the truth or a work of fiction.
- Finding out whether a potential hire, dating app match, or new babysitter is trustworthy or hiding something.

Nobody wants to be played a fool. Mindreader will help us identify who can be trusted, and who may be out to get us.

I'm Not a Mind Reader Marty Babits, 2015-05-12
Chocolates are fine and flowers rarely disappoint, but for relationships on the rocks, nothing says, 'I love you' like the promise of renewal. In *I'm Not a Mind Reader*, Babits reveals that too often, even the smartest people have difficulty communicating, and we've learned over the years that love isn't enough to repair the normal wear and tear that occurs in relationships. So, what can couples do when even love itself fails? Babits lays out a totally unique blueprint for renewal in *The I'm Not a Mind Reader*, explaining that every message from one partner to another can be considered in terms of three separate dimensions: The surface level—this is the literal meaning of what partners say to one another The emotional subtext of the message—its emotional undertone The third dimension—evaluating the first two and comparing them with the goal of creating emotional safety within the dialogue Armed with this formula, whatever needs to be better understood, resolved, expanded or modified in the relationship can be addressed and communication brings coherence and connection. The person who practices three-dimensional communication lives in full and vibrant color compared with seeing everything in black and white. This new method is vivid and textured; it promotes the capacity to negotiate differences, to clarify misunderstandings, to heal confusions, and to reinvigorate passion and trust.
