Money In the world of personal finance the biggest

### **The Average Family's Guide to Financial Freedom**

Bill Toohey, Mary Toohey, 2000-02-24 Bill and Mary Toohey are average middle income people from a small Iowa town. Bill has been employed for 23 years as a Vocational Rehabilitation Counselor and Mary has worked for 20 years as an Office Manager for a small psychological firm. They started saving and investing in 1991 when their net worth was \$63,000. Eight years later their net worth was \$467,000. In other words, their assets increased by an average of more than \$50,000 per year during that period while their income (not counting dividends and capital gains) averaged about \$65,000 per year. But it wasn't always easy. They

have three children, Colleen (24), Tim (22), and Meghann (14). Tim has been severely disabled since birth and despite the challenges of helping Tim cope with his chronic illnesses, the Toohey family has been able to achieve financial freedom on a modest income. They were able to build a sizable nest egg in eight years while encountering some of life's biggest expenses during the period. They helped to pay for their daughter's college education and wedding, paid cash for a new car, and made several expensive home improvements. Despite those major expenses the Tooheys still managed to save 46% of their gross income and were listed among the Best Personal Finance Managers in America in the December 1994 issues of Money magazine. The Tooheys' story, in an article written by Bill, appeared in the April 1997 issue of Money magazine. Mary co-authored an article published in the February 1998 issue of McCall's magazine. In May, 1997 Bill was invited to speak at Money magazine's Elgin Project seminar series. Money magazine adopted Elgin, Illinois and brought in speakers with expertise in personal finance. Former President Bush kicked off the event. How did they do it? How do they think? How do they live? Is it possible to save so much and still have a decent life? Can my family do this? Get the answers to all these questions and more in a book written specifically for families with children who don't earn big bucks.

The 9 Steps to Financial Freedom is the first personal finance book that gives you not only the knowledge of how to handle money, but also the will to break through all the barriers that hold you back. Combining real-life recommendations with the motivation to overcome financial anxieties, Suze Orman offers the keys to providing for yourself and your family, including:

### *The Cure for Money Madness* Spencer

Sherman, 2009-02-03 When financial advisor Spencer Sherman found himself crossing a police line to retrieve his work files from a burning office building, he realized he had money madness. He

noticed it in his clients, too: those irrational feelings about money that make otherwise rational adults behave foolishly—buying high, selling low, overspending, lying to their spouses, equating their self-worth with their net worth. Money madness stresses us out, poisons our relationships, and keeps us from making as much money as we can. So Spencer invented the cure. Now, in *The Cure for Money Madness*, he gives us the tools that have helped thousands of people find greater peace of mind—and make more money. Money madness, Spencer shows us, comes from unproductive messages that we received long ago. “It takes money to make money.” “Paying rent is just throwing money down the drain.” “Don’t talk about money.” When you challenge the messages, you can transform all aspects of your money life: earning, spending, saving, investing, giving, borrowing. More money will flow to you. Your relationships will improve. You’ll enjoy your money more. And you’ll be more generous, too. In *The Cure for Money Madness*, you’ll discover: How much your money madness has been costing you How wealthy you truly are, by using the revolutionary Actual Net Worth™ statement How “small and boring” can help you outperform the top investors—without watching the market How to communicate about money in ways that create deeper connections with your spouse, parents, children, friends, and colleagues How to know what is truly enough Money madness keeps us from living as richly as we might and enjoying the wealth we have. In these tough economic times, *The Cure for Money Madness* transforms fear and stress into

prosperity and peace. The Cure for Money Madness makes a golden promise: stress-free prosperity and a lifetime of financial peace.

*It's Not About the Money* Brent Kessel, 2008-07-08 What do the latest financial thinking and ancient spiritual teachings reveal to us about financial freedom? Top financial advisor Brent Kessel insists financial success and security is not about the money. Rather, it's about what's inside us—first understanding your emotional relationship to money, and only then taking action. *It's Not About the Money* expertly and compassionately guides you along the path to financial security and true peace of mind. Kessel, founder of two top wealth-management firms, has the inside scoop on the higher wisdom of personal finances, and he wants to share it with you. Through extensive experience as a financial advisor and spiritual seeker, Kessel has discovered that people need to understand their core financial story in order to make meaningful changes. Some of us are savers or caretakers, says Kessel, while others are pleasure seekers and spend like Hollywood stars; some people are idealists who place greater value on

creativity or compassion than on financial security; some of us innocently believe our finances will work out without effort; and others obsess about building empires with lasting value. It's Not About the Money will help you identify your money type, providing information and resources as well as exercises and meditations to inspire a fresh approach to your relationship with money that will change your life.
