**Bail-In and Total Loss-Absorbing Capacity (TLAC)** Yves Mauchle,2016-06-01 As opposed to a bank bailout, a bail-in occurs when creditors are forced to bear some of the burden of bank failure. The principal aim of this restructuring tool is to eliminate some of the risk for taxpayers. Several jurisdictions, including Switzerland and the European Union (EU), have adopted legal provisions regarding the bail-in, but until this, book literature on its implementation has been scarce. Offering a detailed and comparative analysis of EU and Swiss law relating to bail-ins and their economic impact, this is the first book to provide in-depth coverage of this new method of dealing with the failure of systemically important banks. In its contextualisation and analysis of the bail-in resolution tool, the book identifies and discusses the legal and economic issues that arise, including such aspects as the following: – the legal and economic properties of bail-in capital; ? the regulatory standard on total loss-absorbing capacity (TLAC) issued by the Financial Stability Board (FSB); ? the scope and sequence of liabilities subjected to bail-in; ? the legal position of stakeholders affected by a bail-in; ? strategies and procedures for the implementation of a bail-in; ? the limited circumstances under which government rescues should be available; and ? cross-jurisdictional issues and aspects of international cooperation. As well as case studies and analyses of legal issues with particular reference to Swiss law and the European Bank Resolution and Recovery Directive (2014/59/EU), the author applies economic concepts to the analysis of the law. International developments, in particular standards issued by leading regulatory bodies, are also covered. This book will be welcomed by legal practitioners working in banks and in banking regulation and by policymakers seeking information on the practical issues involved. As a detailed analysis of a new and highly significant development in banking law, it will also be of great interest to academics.

**Ministry Digest, Vol. 03, No. 12** Witness Lee,2021-12-01 In this issue we will continue four lines of ministry. The first line--The History of the Lord's Recovery--contains chapters 11 through 14 of The Recovery of the Church according to the Pattern on the Mountain, which are in volume 1 of The Collected Works of Witness Lee, 1950–1951. This section includes topics related to the salvation of God, following the Lord according to the inner man, and four laws. The second line--Words for New Believers--contains chapters 41 through 44 of Crucial Truths in the Holy Scriptures, Volume 4, which are in volume 4 of The Collected Works of Witness Lee, 1932–1949. These chapters cover topics related to being in Adam and in Christ, the two natures of the believers, three kinds of life and four laws, and union with Christ. The third line--Maturing in Life--contains chapters 17 through 20 of The Kingdom, which are in volume 2 of The Collected Works of Witness Lee, 1972. These chapters speak of transformation as it relates to a seed in the parable of the ten virgins, its development in the Epistles, and its harvest in the book of Revelation. It also contains a chapter related to being baptized into the Triune God. The fourth line--The High Peak of the Divine Revelation--continues with chapters 34 through 37 of God's New Testament Economy, which are in volume 3 of The Collected Works of Witness Lee, 1984. This section contains four chapters on the New Jerusalem that cover the basic elements of its structure; its triune entrance; its wall, foundation, and street; and its dimensions, temple, and light.

*Arnon Avron on Semantics and Proof Theory of Non-Classical Logics* Ofer Arieli,Anna Zamansky,2021-07-30 This book is a collection of contributions honouring Arnon Avron’s seminal work on the semantics and proof theory of non-classical logics. It includes presentations of advanced work by some of the most esteemed scholars working on semantic and proof-theoretical aspects of computer science logic. Topics in this book include frameworks for paraconsistent reasoning, foundations of relevance logics, analysis and characterizations of modal logics and fuzzy logics, hypersequent calculi and their properties, non-deterministic semantics, algebraic structures for many-valued logics, and representations of the mechanization of mathematics. Avron’s foundational and pioneering contributions have been widely acknowledged and adopted by the scientific community. His research interests are very broad, spanning over proof theory, automated reasoning, non-classical logics, foundations of mathematics, and applications of logic in computer science and artificial intelligence. This is clearly reflected by the diversity of topics discussed in the chapters included in this book, all of which directly relate to Avron’s past and present works. This book is of interest to computer scientists and scholars of formal logic.

*Daybooks and Notebooks, Volume III* Walt Whitman,2007-06 General Series Editors: Gay Wilson Allen and Sculley Bradley

Originally published between 1961 and 1984, and now available in paperback for the first time, the critically acclaimed Collected Writings of Walt Whitman captures every facet of one of America's most important poets. Daybooks and Notebooks is an invaluable source for reference on Whitman's daily activities. This sixteen-year record supplements the biographical information provided in the six volumes of Whitman's Correspondence, functioning as an account book, diary, journal, commonplace book, and notebook all in one. When Whitman began to keep them, the Daybooks were a personal record of predominantly business matters. As William White wrote in the introduction, "He was not only the author but the publisher of his works: he was likewise his own business manager, ship, and promoter. Whatever records he kept, of his sales and distribution, of printing and binding figures, of poetry and prose he sent to newspapers and magazines . . . he entered on the right-hand pages." Volume III thus offers a rare look at Whitman as a businessman, tending as much to practical matters as to art.

**Edmund Burke** Nicholas K. Robinson,Edmund Burke,1996-01-01 For more than thirty years until his death in 1797, the statesman and writer Edmund Burke was a powerful and passionate voice on the great political issues of late eighteenth-century Britain. The broad range of his interests, as well as his Irish origins and his Catholic connections, made Burke a favorite target of such vitriolic and sometimes scurrilous caricaturists as Gillray, Rowlandson, Dent, and Sayers. This book follows and sheds new light on Burke's political, literary, and personal life by examining a wide selection of the caricatures in which he was featured. Nicholas Robinson puts the caricatures in context by reconstructing the day-to-day episodes of social and parliamentary activity and by reviewing the debates that took place about such issues as the influence of the Crown, relations with America, the governance of India, and the French Revolution. He shows how caricature was forged into a formidable political weapon, unravels the caricaturists' devices in representing the mannerisms and characteristics of Burke and his contemporaries, and investigates how Burke and other political figures, including Charles James Fox, William Pitt, George III, Lord North, and the Prince of Wales, fared as the subjects of the satirical prints. Robinson demonstrates that Catholic entryism, party politics, economic reform, aesthetics, good governance, the constitutional role of the monarch, the role and conduct of his heir, radicalism, and dissent were all treated pungently, facetiously, and often savagely in the prints. And from them emerges a fresh portrait of Burke as a person, statesman, intellectual, and man of honor.
