**MWF Seeking BFF** Rachel Bertsche,2011-12-20 When Rachel Bertsche first moves to Chicago, she’s thrilled to finally share a zip code, let alone an apartment, with her boyfriend. But shortly after getting married, Bertsche realizes that her new life is missing one thing: friends. Sure, she has plenty of BFFs—in New York and San Francisco and Boston and Washington, D.C. Still, in her adopted hometown, there’s no one to call at the last minute for girl talk over brunch or a reality-TV marathon over a bottle of wine. Taking matters into her own hands, Bertsche develops a plan: She’ll go on fifty-two friend-dates, one per week for a year, in hopes of meeting her new Best Friend Forever. In her thought-provoking, uproarious memoir, Bertsche blends the story of her girl-dates (whom she meets everywhere from improv class to friend rental websites) with the latest social research to examine how difficult—and hilariously awkward—it is to make new friends as an adult. In a time when women will happily announce they need a man but are embarrassed to admit they need a BFF, Bertsche uncovers the reality that no matter how great your love life is, you’ve gotta have friends.

**Albion's Seed** David Hackett Fischer,1991-03-14 This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are Albion's Seed, no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

**A Million First Dates** Dan Slater,2014-01-28 \*\* Previously published in hardcover as Love in the Time of Algorithms \*\* Once considered the realm of the lonely and desperate, sites like eHarmony, Match, OkCupid, and Plenty of Fish have been embraced by pretty much every demographic. Dating has been transformed from a daunting transaction based on scarcity to one in which the possibilities are almost endless. Now anyone can search for exactly what they want, connect with more people, and get more information about those people than ever before. As journalist Dan Slater shows, online dating is changing society in more profound ways than we imagine. He explores how these new technologies, by altering our perception of what’s possible, are reconditioning our feelings about commitment and challenging the traditional paradigm of adult life. Slater takes readers behind the scenes of a fascinating business. Dating sites capitalize on our quest for love, but how do their creators’ ideas about pro ts, morality, and the nature of desire shape the virtual worlds they’ve created for us?

*Love in the Time of Algorithms* Dan Slater,2013-01-24 “If online dating can blunt the emotional pain of separation, if adults can afford to be increasingly demanding about what they want from a relationship, the effect of online dating seems positive. But what if it’s also the case that the prospect of finding an ever more compatible mate with the click of a mouse means a future of relationship instability, a paradox of choice that keeps us chasing the illusive bunny around the dating track?” It’s the mother of all search problems: how to find a spouse, a mate, a date. The escalating marriage age and declining marriage rate mean we’re spending a greater portion of our lives unattached, searching for love well into our thirties and forties. It’s no wonder that a third of America’s 90 million singles are turning to dating Web sites. Once considered the realm of the lonely and

desperate, sites like eHarmony, Match, OkCupid, and Plenty of Fish have been embraced by pretty much every demographic. Thanks to the increasingly efficient algorithms that power these sites, dating has been transformed from a daunting transaction based on scarcity to one in which the possibilities are almost endless. Now anyone—young, old, straight, gay, and even married—can search for exactly what they want, connect with more people, and get more information about those people than ever before. As journalist Dan Slater shows, online dating is changing society in more profound ways than we imagine. He explores how these new technologies, by altering our perception of what’s possible, are reconditioning our feelings about commitment and challenging the traditional paradigm of adult life. Like the sexual revolution of the 1960s and ’70s, the digital revolution is forcing us to ask new questions about what constitutes “normal”: Why should we settle for someone who falls short of our expectations if there are thousands of other options just a click away? Can commitment thrive in a world of unlimited choice? Can chemistry really be quantified by math geeks? As one of Slater’s subjects wonders, “What’s the etiquette here?” Blending history, psychology, and interviews with site creators and users, Slater takes readers behind the scenes of a fascinating business. Dating sites capitalize on our quest for love, but how do their creators’ ideas about profits, morality, and the nature of desire shape the virtual worlds they’ve created for us? Should we trust an industry whose revenue model benefits from our avoiding monogamy? Documenting the untold story of the online-dating industry’s rise from ignominy to ubiquity—beginning with its early days as “computer dating” at Harvard in 1965—Slater offers a lively, entertaining, and thought provoking account of how we have, for better and worse, embraced technology in the most intimate aspect of our lives.

**Dear Men** Prachi Gangwani,2021-11-18 'I really loved her but I broke up with her because my mother didn't think she would adjust in our family.' - Raul, engineer, 29 ~ 'I liked being angry. I wanted to hate the world, be angry, so I didn't have to be sad.' - Dhairya, photographer, 34 ~ 'I want a harem. But I want to be the only guy in a woman's life.' - Dushyant, lawyer, 27 In startling, often revelatory interviews Dear Men shows how Indian men across ages navigate romantic relationships in a country that is still teetering on the cusp of modern and traditional. Direct, often tongue-in-cheek, accessible and engaging, the book is an investigation of what sexual boundaries really mean to Indian men, how they deal with online dating, manage traditional gender roles, talk about their mental health, if they think romance is still relevant, what marriage means to them, and why they hurt the women they love. Dear Men hopes to start an honest and open dialogue with Indian men about subjects that are becoming more and more relevant as movements like #MeToo gain traction.

**Queer Korea** Todd A. Henry,2020-02-21 Since the end of the nineteenth century, the Korean people have faced successive waves of foreign domination, authoritarian regimes, forced dispersal, and divided development. Throughout these turbulent times, “queer” Koreans were ignored, minimized, and erased in narratives of their modern nation, East Asia, and the wider world. This interdisciplinary volume challenges such marginalization through critical analyses of non-normative sexuality and gender variance. Considering both personal and collective forces, contributors extend individualized notions of queer neoliberalism beyond those typically set in Western queer theory. Along the way, they recount a range of illuminating topics, from shamanic rituals during the colonial era and B-grade comedy films under Cold War dictatorship to toxic masculinity in today’s South Korean military and transgender confrontations with the resident registration system. More broadly, Queer Korea offers readers new ways of understanding the limits and possibilities of human liberation under exclusionary conditions of modernity in Asia and beyond. Contributors. Pei Jean Chen, John (Song Pae) Cho, Chung-kang Kim, Timothy Gitzen, Todd A. Henry, Merosé Hwang, Ruin, Layoung Shin, Shin-ae Ha, John Whittier Treat
