I Told You I Was Dehydrated David Haznaw, 2022-02-08 I've never written a best-seller. Never won a book honor or writing award. Never had my work adapted for a screenplay or accepted into a celebrity's book club. What I do have are stories, experiences, opinions, observations, and a desire to share them. I write for an audience of one ? myself. However, if you choose to read my work, then you become the audience of one. So, in essence, this book is about the two of us, what we observe, think, remember about our lives, and the power, frustration and vulnerability we see in ourselves. In their purest form, these essays are mine, but they also belong to anyone who chooses to read them. My hope is that you'll enjoy them, identify with them and recall similar experiences you've had in your own life.

Hunting by Stars (A Marrow Thieves Novel) Cherie Dimaline, 2021-10-19 From the acclaimed author of The Marrow Thieves comes a thrilling new story about hope and survival that New York Times bestselling author Angeline Boulley called “a revelatory must-read” A 2022 American Indian Library Association Youth Literature Young Adult Honor Book Years ago, when plagues and natural disasters killed millions of people, much of the world stopped dreaming. Without dreams, people are haunted, sick, mad, unable to

rebuild. The government soon finds that the Indigenous people of North America have retained their dreams, an ability rumored to be housed in the very marrow of their bones. Soon, residential schools pop up—or are re-opened—across the land to bring in the dreamers and harvest their dreams. Seventeen-year-old French lost his family to these schools and has spent the years since heading north with his new found family: a group of other dreamers, who, like him, are trying to build and thrive as a community. But then French wakes up in a pitch-black room, locked in and alone for the first time in years, and he knows immediately where he is—and what it will take to escape. Meanwhile, out in the world, his found family searches for him and dodges new dangers—school Recruiters, a blood cult, even the land itself. When their paths finally collide, French must decide how far he is willing to go—and how many loved ones is he willing to betray—in order to survive. This engrossing, action-packed, deftly-drawn novel expands on the world of Cherie Dimaline’s award-winning *The Marrow Thieves*, and it will haunt readers long after they’ve turned the final page.

A Peace of My Mind John Noltner, 2011-11 In a world that often asks us to consider the things that can separate us...whether that is race, politics or ethnicity...A Peace of My Mind explores the common humanity that unites us. A Peace of My Mind is a 120-page book that features the b&w portraits and personal stories of 55 individuals who answer the simple question, What does peace mean to you? Since 2009, Noltner has photographed and interviewed Holocaust survivors, refugees, political leaders, artists, homeless individuals, and others, asking them to reveal what peace means to them, how they work towards it in their lives and what obstacles they encounter along the way. The result is a

stunning and heart-felt collection that acknowledges the challenges we face as a society, yet builds hope through the inspiring stories of people committed to peaceful tomorrows.

Gichigami Hearts Linda LeGarde Grover, 2021-10-26 Award-winning author Linda LeGarde Grover interweaves family and Ojibwe history with stories from Misaabekong (the place of the giants) on Lake Superior Long before there was a Duluth, Minnesota, the massive outcropping that divides the city emerged from the ridge of gabbro rock running along the westward shore of Lake Superior. A great westward migration carried the Ojibwe people to this place, the Point of Rocks. Against this backdrop—Misaabekong, the place of the giants—the lives chronicled in Linda LeGarde Grover’s book unfold, some in myth, some in long-ago times, some in an imagined present, and some in the author’s family history, all with a deep and tenacious bond to the land, one another, and the Ojibwe culture. Within the larger history, Grover tells the story of her ancestors’ arrival at the American Fur Post in far western Duluth more than two hundred years ago. Their fortunes and the family’s future are inextricably entwined with tales of marriages to voyageurs, relocations to reservation lands, encounters with the spirits of the lake and wood creatures, the renewal of life—in myth and in art, the search for meaning in the transformations of our day is always vital. Finally, in one man’s struggles, age-old tribulations, the intergenerational traumas of extended families and communities, and a uniquely Ojibwe appreciation for the natural and spiritual worlds converge, forging the Ojibwe worldview and will to survive as his legacy to his descendants. Blending the seen and unseen, the old and the new, the amusing and the tragic and the hauntingly familiar, this lyrical work encapsulates a way of life forever vibrant at the Point of Rocks.

Minneapolis Teamsters Strike of 1934 Philip A. Korth, 1995 The 1934 Minneapolis Teamsters Strike proved to be a pivotal event in twentieth-century American labor history. The Minneapolis Teamsters challenged the muscle of big business, as well as the authority of local, state, and federal government, and in the process they changed the very nature of labor relations in the United States. In *The Minneapolis Teamsters Strike of 1934*, Philip Korth's description of events surrounding this landmark labor action are filtered through the recollections of the people who were there. Korth blends historical record with the words of actual participants to draw a thorough and compelling portrait of a labor strike and its consequences. Philip Korth's study illustrates the organizational strategies that made the Minneapolis strike a success, as well as how opposition and public perception defined emerging labor relations practices and public policy. At the same time, the author provides an in-depth examination of the conflict through interviews with witnesses and participants in this pivotal event in labor history.

A New Reality Jonas Salk, Jonathan Salk, 2018-06-26 A New Reality: Human Evolution for a Sustainable Future provides a startling, fresh new message of understanding, perspective and hope for today's tense, rapid-fire, kaleidoscopically changing world. A New Reality: Human Evolution for a Sustainable Future provides a startling, fresh new message of understanding, perspective and hope for today's tense, rapid-fire, kaleidoscopically changing world. Drawn from the writings of visionary scientist Jonas Salk, who developed the polio vaccine, extended and developed by his son Jonathan, the message of the book explodes from the past and sheds light on tensions that besiege us and the currents of discord that are raging as these words are written. More importantly, it indicates a way forward out of our current situation. Written by a world-famous doctor and folk hero, based on population data, rich in visual imagery, elegantly designed, and clearly written, A New Reality is unique in the marketplace. Readable in one or two sittings, it is accessible to the general reader while at the same time being of essential value to policy makers and academics. Its brevity and simplicity of design belie the importance and sophistication of its message. "We are at a point in the course of human social evolution when the demands of survival converge with the higher ideals of humankind and the well-being and flourishing of human society. It is up to us to see that we navigate this transition, adapting to and emerging in a new reality." —A New Reality Our country is divided and polarized. Terrorism is a major threat throughout much of the world. Mass migrations are causing national and international tension. Population growth continues to increase, especially in the developing regions of the world. Controversy rages as to the use of fossil fuels versus the development of alternative forms of energy.

Disagreement continues about climate change. Opposing currents of opinion collide as to how much we should help other areas in the world and how much to help ourselves. Basic values are in conflict. More than 40 years ago, Jonas Salk understood that we are at a unique moment in the history of the human species. After centuries of increase, population growth has begun to slow and is trending toward equilibrium. This change is accompanied by an equally significant change in human values—a shift from those based on unlimited availability of resources, unremitting growth, excess, independence, competition and short-term thinking to those based on limits, equilibrium, balance, interdependence, cooperation and long-term thinking. This momentous transition is the source of far-reaching tension and conflict. The way through this difficult era is to understand its basis and to focus on new values that will be of the greatest benefit to humankind. There is an urgency, however, and failure to adapt will result in disaster both for humanity and for the planet as a whole. *A New Reality* delivers a message of both caution and hope. Readers across the social and political spectrum will find it a reasoned and balanced counterpoint to current social and political trends. Its elegant design and long-range perspective will appeal to general readers, policy makers, millennials, baby boomers, teachers, and students, filling a need in the marketplace for a work of positivity and wisdom in otherwise bleak times.

The Barrens Kurt Johnson, Ellie Johnson, 2022-05-03 The Barrens grabbed me from the

opening pages and never let go.—Michael Punke, author of *The Revenant* This riveting debut is at once a white-water adventure, coming-of-age novel, and tale of tragic love—and an extraordinary father-daughter collaboration. Two young women attending college decide to have a summer adventure canoeing the rapids-strewn Thelon River that runs 450 miles through the uninhabited Barren Lands of subarctic Canada. Holly made the trip once before with a group of skilled paddlers she trained with at camp, and she wants to share that experience with her friend and lover, Lee, believing it will draw them closer. But a week in, Holly, the risk-taker, falls while taking a selfie near the edge of a cliff. She is left injured and comatose, and soon dies. Their locator beacon for summoning rescue was smashed in Holly's fall. It remains to Lee, the inexperienced paddler, to continue the grueling and dangerous trip alone, to save herself and return her lover's body to civilization and Holly's family. In their relationship, Holly and Lee had always told each other stories; Lee had called Holly a "storyist." Storytelling helps Lee endure the rigors of her journey and engage her grief as she explores her relationship with Holly while chronicling her own coming-of-age off the grid in Nebraska with her estranged eco-anarchist father, who is now serving time in prison.

The ABC of It Leonard S. Marcus, 2019 Original artwork and materials explore children's literature and its impact in society and culture over time. A favorite childhood book can leave a lasting impression, but as adults we tend to shelve such memories. For fourteen months beginning in June 2013, more than half a million visitors to the New York Public Library viewed an exhibition about the role that children's books play in world culture and in our lives. After the exhibition closed, attendees clamored for a catalog of

The ABC of It as well as for children's literature historian Leonard S. Marcus's insightful, wry commentary about the objects on display. Now with this book, a collaboration between the University of Minnesota's Kerlan Collection of Children's Literature and Leonard Marcus, the nostalgia and vision of that exhibit can be experienced anywhere. The story of the origins of children's literature is a tale with memorable characters and deeds, from Hans Christian Andersen and Lewis Carroll to E. B. .

Minneapolis Tom Weber, 2022-11 A concise history of Minneapolis, featuring stories that are familiar, surprising, and sure to change the way you see the City of Lakes--newly updated with reflections on the city at the center of a global social uprising. Minneapolis is Minneapolis because of the water--because of the Mississippi River, and St. Anthony Falls, and the beautiful lakes that dot the city's neighborhoods. Energized by the power of a magnificent waterfall that was harnessed with stolen technology, it became a major, even global, city. In this succinct and thought-provoking book, Tom Weber provides an urban biography of the City of Lakes. The confluence of the Mississippi and the Minnesota River is a sacred place for Dakota people, who have lived here for millennia. Since the city's beginnings in the 1850s, Minneapolis has experienced continual collapses and rebuilding. Some collapses were real, as when the Falls were nearly destroyed; some are metaphorical, as when corruption and the mob threatened to overtake the life of the city. Weber also explores the effects of the rebuilding and who was in charge: who was left in, and who was left out. In this updated paperback edition, a new conclusion recounts the context for and the worldwide reaction to the murder of George Floyd by a Minneapolis police officer in May of 2020. In the midst of a pandemic, the city was thrust into the

global spotlight, and a spotlight was turned once again on the legacies of racism and inequality that brought Minneapolis to the breaking point. Cities, like people, are always changing, and the history of that change is the city's biography. This book illuminates the unique character of Minneapolis, weaving in the hidden stories of place, politics, and identity that continue to shape its residents' lives.

Minnesota Mayhem Ben Welter, 2012-06-05 This true crime history recounts more than a century of crime, deviousness, and disaster in the North Star State. In *Minnesota Mayhem*, local historian and author Ben Welter explores the best of the state's worst moments. Culled from the archives of the Minneapolis Tribune and its successor newspapers, these stories and photos range from the catastrophic to the chillingly curious and the simply strange. Among the true tales told in these pages, Welter recounts the career of a successful con man in 1871; an 1881 fire that destroyed the State Capitol; a flu outbreak that killed more than 10,000 Minnesotans in 1918; the arrest of Frank Lloyd Wright at a Lake Minnetonka cottage in 1926; an arrested stripper who claimed wardrobe malfunction in 1953; and the 1977 murder of a wealthy matron in Duluth.
