Utilizing A Patent 1440 Minute Countdown Clock Vicky Conyer, 2021-07-15 This book will truly help you realize how much time you have available. If you decide to apply these concepts it will greatly increase your perceived quantity of time and more importantly will greatly increase the quality of every minute in your life. The 1440 Power System(R) expands on the concepts from The Time Factor. It is the connector! It breaks down further the 1,440 minutes we have each day into three separate time zones. Each is having its purpose, and when recognized the full power of the 1440-Experience will begin to emerge! The zones are SLEEP/LIVELIHOOD/ON-TIME. ON-TIME is the difference maker and replaces the words off, free, spare, and down! When you chunk down your day into this pure awareness, life becomes organized, leveraged, and powerful. 1440TIME(TM) is the cornerstone of this 21st-century principle, utilizing a patent 1440 Minute Countdown Clock as the instrument to activate our time awareness, turning our standard clock into a tangible reality and not just a number on a circular sphere!

Emotional Design Don Norman, 2007-03-20 Why attractive things work better and other crucial insights into human-centered design Emotions are inseparable from how we humans think, choose, and act. In *Emotional Design*, cognitive scientist Don Norman shows how the principles of human psychology apply to the invention and design of new technologies and products. In *The Design of Everyday Things*, Norman made the definitive case for human-centered design, showing that good design demanded that the user's must take precedence over a designer's aesthetic if anything, from light switches to airplanes, was going to work as the user needed. In this book, he takes his thinking several steps farther, showing that successful design must incorporate not just what users need, but must address our minds by attending to our visceral reactions, to our behavioral choices, and to the stories we want the things in our lives to tell others about ourselves. Good human-centered design isn't just about making effective tools that are straightforward to use; it's about making affective tools that mesh well with our emotions and help us express our identities and support our social lives. From roller coasters to robots, sports cars to smart phones, attractive things work better. Whether designer or consumer, user or inventor, this book is the definitive guide to making Norman's insights work for you.

Typeset in the Future Dave Addey, 2018-12-11 A designer's deep dive into seven science fiction films, filled with "gloriously esoteric nerdery [and] observations as witty as they are keen" (Wired). In *Typeset in the Future*, blogger and designer Dave Addey invites sci-fi movie fans on a journey through seven genre-defining classics, discovering how they create compelling visions of the future through typography and design. The book delves deep into *2001: A Space Odyssey*, *Star Trek: The Motion Picture*, *Alien*, *Blade Runner*, *Total Recall*, *WALL·E*, and *Moon*, studying the design tricks and inspirations that make each film transcend mere celluloid and become a believable reality. These studies are illustrated by film stills, concept art, type specimens, and ephemera, plus original interviews with Mike Okuda (*Star Trek*), Paul Verhoeven (*Total Recall*), and Ralph Eggleston and Craig Foster (Pixar). *Typeset in the Future* is an obsessively geeky study of how classic sci-fi movies draw us in to their imagined worlds.

The Art of Is Stephen Nachmanovitch, PhD, 2019-04-09 A MASTERFUL BOOK ABOUT BREATHING LIFE INTO ART AND ART INTO LIFE Stephen Nachmanovitch's *The Art of Is* is a philosophical meditation on living, living fully, living in the present. To the author, an improvisation is a co-creation that arises out of listening and mutual attentiveness, out of a universal bond of sharing that connects all humanity. It is a product of the nervous system, bigger than the brain and bigger than the body; it is a once-in-a-lifetime encounter, unprecedented and unrepeatable. Drawing from the wisdom of the ages, *The Art of Is* not only gives the reader an inside view of the states of mind that give rise to improvisation, it is also a celebration of the power of the human spirit, which — when exercised with love, immense patience, and discipline — is an antidote to hate. — Yo-Yo Ma, cellist

Mindful Self-Discipline Giovanni Dienstmann, 2021-05-14 If you want to live a life of purpose, build good habits and achieve your goals, there is one skill that is more important than anything else: Self-Discipline. Self-discipline is not about punishment, it's about self-respect. It is not about being inflexible, but about living your best life. It is the superpower of focus in a world of distractions — allowing you to overcome procrastination, excuses, bad habits, low motivation, failures, and self-doubt. With it, you can stay on track with your values and goals even through the times when you are least inspired. Self-discipline allows you to choose who you want to be and live by design rather than by default. As a meditation teacher and self-discipline coach, Giovanni Dienstmann has helped hedge fund managers, CEOs, entrepreneurs, ambitious professionals, artists and pro athletes to live a more focused and disciplined life. Since 2014 he has been successfully coaching people to overcome distractions, procrastination, self-doubt, fear, and other forms of self-sabotage. Whatever self-discipline challenge you face, whatever excuse you are telling yourself — *Mindful Self-Discipline* is a collection of all these years of experience, converted into a tool for you to use. This revolutionary book is a comprehensive and practical guide for you to develop self-discipline in a balanced way — without beating yourself up. It emphasizes the use of mindfulness and awareness as key components for building habits, rather than forcefulness and willpower. If you have tried other methodologies and failed, then this is for you. This manual for living your life purposefully contains: — Over 50 step-by-step exercises — Over 100 illustrations and diagrams — Links to the scientific studies about each topic Many, many examples — all to make it as easy as possible for you to actually apply all this knowledge and transform your daily life. If you have tried other approaches (*Miracle Morning*, *Atomic Habits*, *Willpower Instinct*, *Tiny Habits*, *Discipline is Freedom*, *Hooked*, *Can't Hurt Me*) and didn't get the results you were after, then this is for you. *Mindful Self-Discipline* goes much beyond building habits, time management, and forcing yourself. It is gentler, more achievable, and rooted in living a life of purpose. Think you are not made to be self-disciplined? Think again.
