**Silenzio, Sound the Alarm!** Gregg Robins,2020-09-21 Ever wonder what makes an alarm clock tick? How does it fine-tune its ringer and get the courage to wake people up from a deep sleep? All alarm clocks have the same, singular mission in life, but they are not all the same. Meet Silenzio and his alarm clock family. Silenzio is struggling to overcome a fundamental challenge: his conscience. On this journey of self-discovery, Silenzio looks deep within himself and uncovers his own special gift, just in time to avoid a potential catastrophe.

When I Look Up Ron Gallo,2021-11-21 Most Christian books have a problem. For they speak from an “adult perspective”, and not a child’s. They leave out, the most important aspect of the foundation when walking with God, and that is the child. They say. do ABCDE, to get a better walk with God. That’s fine, but we forget about the growth of the child and there characteristics, is the Christian life template for an adult to look at and learn from. This is the reason why children come before adults; it’s so we can see who God sees. God doesn’t see us as we see each other as adults, in arrogance. God doesn’t care about your social status, or you can have more degrees than a thermometer, you are his child. God sees adults as tall children. So now let’s look deeper into a child’s life, and how it relates to Gods foundation... the family. Understanding the child, then you will understand yourself, and what God wants from us as adults. Looking at the genesis of a child we can see many attributes and characteristics of a child that God wants to see in us. We can shadow, and be a reflection of “childlike”, not childish as Jesus said in the book of Mathew. Jesus clearly states ‘unless you’re like a child, you shall not enter....’ Right off the bat, Jesus is drawing the line in the sand. Children have many characteristics that we miss as adults, and forget that we went through these same characteristics ourselves. From looking up, having child like faith, being able to be led, humility, believability, no pride or self righteousness etc. This fascinating book being different, will enhance any reader/parent to take a stronger look at their own Christian life, and check off the boxes to see if there in alignment with Gods standards. There a chapter on being blind when your awake, yet we trust him in sleep, and other great gems of wisdom.

**The Circadian Diabetes Code** Satchin Panda, PhD,2021-11-09 Avoid, manage, and even reverse diabetes and prediabetes just by changing when—not what—you eat with this authoritative guide from the author of The Circadian Code. Today, one in ten Americans is diagnosed with type 2 diabetes, and one in three already has prediabetes. Prescription medications used to treat this chronic disease have unwanted side effects and at best, only manage the symptoms. What’s more, the restrictive dieting protocols used to manage diabetes are difficult to maintain over time. Yet the latest science shows that a simple approach that aligns your daily lifestyle—when you eat, sleep, and exercise—with your body’s inherent circadian rhythm can be just as effective. Best of all, following this program can enhance every other aspect of your health, from losing weight to boosting immunity. In The Circadian Diabetes Code, senior Salk Institute researcher and internationally-acclaimed author of The Circadian Code, Satchin Panda, Ph.D., shares his groundbreaking program. You will learn the best way to adopt intermittent fasting, the worldwide phenomenon that started in Dr. Panda’s lab, which has been used as an effective weight loss strategy for almost a decade. Now, you can use this same strategy to optimize your blood glucose response and naturally lower your risk for developing “the sinister friends of diabetes”: heart disease and obesity. The truth is, intermittent fasting is much easier that you think. You will learn how to: Identify your optimal eating zone Plan your meals according to your circadian rhythm Exercise at the right time to control blood glucose levels Get the best night’s sleep to reset your brain and body Optimally time medication, as needed And much more!

The Circadian Code Satchin Panda, PhD,2020-02-11 When we eat may be as important as what we eat. Like most people, you probably wake up, get hungry for meals and doze off in bed around the same time every day. If you’ve ever experienced jet lag or pulled an all-nighter, you know that this schedule can easily be thrown off kilter. But for some people, that imbalance—difficulty sleeping at night, hunger at odd times, or sudden fatigue at noon—is a constant. If you're one of those people, Dr. Satchin Panda, one of the leading researchers on circadian rhythms, has a plan to reset your body clock. Beginning with an in-depth explanation of the circadian clock—why it’s important, how it works, and how to know it isn’t working—The Circadian Code outlines lifestyle changes to make to get back on track. It's a concrete plan to enhance weight loss, improve sleep, optimize exercise, and manage technology so that it doesn’t interfere with your body’s natural rhythm. Dr. Panda’s life changing methods show you how to prevent and reverse ailments like diabetes, cancer, and dementia, as well as microbiome conditions like acid reflux, heartburn, and irritable bowel disease.

The Awakening K L Craft,2020-02 What if you've always known you are different--very different--and destined for something important? And what if a cosmic alarm clock suddenly went off one day with a wake-up call from Home? Everything finally clicks. You now remember exactly who you are: a super-intelligent, multi-dimensional, energy being from 1,300 light years away. You're a scientist, artist, explorer, and sometimes a diplomat. Your entire life on Earth has been part of a prearranged mission and series of experiments, all of which were set up a very long time ago--by you! Even better, an ally from Home has now arrived, in a most unusual way, to help you complete that mission. Good thing, because it's important, and it won't be easy.

*Minutes Matter* K.R. Mele,2018-09-14 James asks a pointed question in his brief book in the Bible when he simply says, “What is your life?” He then answers his own question by stating, It is even a vapor that appears for a little time and then vanishes away. Psalm 90 reminds us that “the days of our lives are seventy years; And if by reason of strength they are eighty years.” That’s somewhere between 36,792,000 and 42,048,000 minutes, both very large numbers. The question for us then becomes, what are we doing with our minutes? Are we making them matter in ways that count? Are we spending them in ways that will lay up treasure in heaven, or here on earth where “moth and rust will destroy”? *Minutes Matter* . . . Making Every Beat Count will challenge you to live your days in a way that will glorify God and make a difference well beyond your years here on earth.

Panther Red One: Memoirs of a Fighter Pilot ,2013-02-15 This book originally began as a series of articles, at the behest of the author's son, for the website Bharat Rakshak. As the articles flowed, the author was then persuaded by his children to expand these articles into something that more resembles a book. It was (and is) intended for his grandchildren to know about one part of their heritage—a part that will likely not recur in the family tree. It was not intended for general publication, but the children convinced the author otherwise. Perhaps the first couple of chapters could be a reader for all grandchildren of today because every family came from similar villages all over India. It also gives a feel for the motivation, and the acceptance of the environment and facilities that were far from adequate to achieve the goal of being a fighter pilot. It is more “episodic” than such works usually are, as it has been written at the age of 80, from the heart and from memory. It is hoped that you will enjoy it.
