

Mission Park

Robert R. Redfield

Mission Park Linda Twist,2006-03-01 Pamela Austin, a twenty-one-year-old heiress, leaves the Redwood Empire of Northern California to find a normal life close to her nana on the Southern California coast. She meets Joe Pellerini, a handsome and charming officer, her first day on the job as a dispatcher for the Mission Park Police Department. He winks at her and she is hooked. Chris and Julie are friends and co-workers of the couple. The officers suspect that Chris is gay. Julie longs to be with Joe and makes it difficult for the couple to be happy. Suzy, a local barfly, lures the officer to her place and he confesses to Pam. Nana Lee is still caught up in the 50s and wishes to visit Graceland to see where Elvis lived and died. A very emotional story filled with humor, sadness and sexual encounters that pummel Pam and Joe through one stressful situation after another.

Mission 66 Ethan Carr,2007 In the years following World War II, Americans visited the national parks in unprecedented numbers, yet Congress held funding at prewar levels and park conditions steadily declined. Elimination of the Civilian Conservation Corps and other New Deal programs further reduced the ability of the federal government to keep pace with the wear and tear on park facilities. To address the problem, in 1956 a ten-year, billion-dollar initiative titled Mission 66 was launched, timed to be completed in 1966, the fiftieth anniversary of the National Park Service. The program covered more than one

hundred visitor centers (a building type invented by Mission 66 planners), expanded campgrounds, innumerable comfort stations and other public facilities, new and wider roads, parking lots, maintenance buildings, and hundreds of employee residences. During this transformation, the park system also acquired new seashores, recreation areas, and historical parks, agency uniforms were modernized, and the arrowhead logo became a ubiquitous symbol. To a significant degree, the national park system and the National Park Service as we know them today are products of the Mission 66 era. Mission 66 was controversial at the time, and it continues to incite debate over the policies it represented. Hastening the advent of the modern environmental movement, it transformed the Sierra Club from a regional mountaineering club into a national advocacy organization. But Mission 66 was also the last systemwide, planned development campaign to accommodate increased numbers of automotive tourists. Whatever our judgment of Mission 66, we still use the roads, visitor centers, and other facilities the program built. Ethan Carr's book examines the significance of the Mission 66 program and explores the influence of midcentury modernism on landscape design and park planning. Environmental and park historians, architectural and landscape historians, and all who care about our national parks will enjoy this copiously illustrated history of a critical period in the development of the national park system. The Hyde Park Mission Story Lives On Joyce Parker,2014-06-03 This is the 125th birthday of Women's Missionary Union, (WMU). In March 1888, the women doing missions all over the states and territories banded together and organized, in order to make more of an impact on world missions. As you will learn in Lillian Brown's historical document in this book, (complete with references) Texas women had been doing foreign missions for several years previous to 1888, but joined in the bigger organization with the ladies "back East." Hyde Park Baptist Church was begun June 1, 1894, and the women began their mission organization December 1896. At this writing, March 13, 2014, it was last year that I read the book "The Story Lives On" by Wanda S. Lee, Executive Director of WMU, and "somehow" heard a voice in my head, "Joyce, you can do this." So I began collecting mission stories and gathering some historical stories from my fellow Hyde Park'ers, to honor this calling and hopefully to inform our Staff and members of what's going on at Hyde Park Baptist Church outside the worship center. I pray to God our mission story does live on until Jesus comes again! Joyce Parker Coordinator of Women on Mission Hyde Park Baptist Church

Wilderness in National Parks John C. Miles, 2011-07-01 *Wilderness in National Parks* casts light on the complicated relationship between the National Park Service and its policy goals of wilderness preservation and recreation. By examining the overlapping and sometimes contradictory responsibilities of the park service and the national wilderness preservation system, John C. Miles finds the National Park Service still struggling to deal with an idea that lies at the core of its mission and yet complicates that mission, nearly one hundred years into its existence. The National Park Service's ambivalence about wilderness is traced from its beginning to the turn of the twenty-first century. The Service is charged with managing more wilderness acreage than any government agency in the world and, in its early years, frequently favored development over preservation. The public has perceived national parks as permanently protected wilderness resources, but in reality this public confidence rests on shaky ground. Miles shows how changing conceptions of wilderness affected park management over the years, with a focus on the tension between the goals of providing recreational spaces for the American people and leaving lands pristine and undeveloped for future generations.

Canyon Village in Yellowstone Lesley M. Gilmore, 2017-05-08 By 1955, the national parks were facing a crisis of dilapidation from heavy use and lack of funding. The answer was Mission 66. This visionary plan, implemented over the next decade, included installation of new facilities to accommodate the influx of visitors and enhance their experiences. The pilot development in Yellowstone, named Canyon Village, introduced a modern aesthetic to the parks and emphasized the concept of conservation. This man-made environment was purposefully sited away from the Grand Canyon of the Yellowstone, providing a natural

buffer. Architect Lesley M. Gilmore presents the complexities of this historic, ambitious model for the movement that marked the continued evolution of the national parks into the destinations we flock to today.

Overland Park Suzee SoldanEls Oberg,Overland Park Historical Society,2012 In 1906, entrepreneur and New York railroad builder William B. Strang Jr. started a unique suburban housing development seven miles southwest of Kansas City that he named Overland Park. He chose farmland on a high ridge where the Santa Fe, Oregon, and California Trails once crossed and built an interurban railroad for the use of future commuters and real estate customers. Advertised enticements, such as a lake with camping facilities and weekly entertainments, lured thousands of riders on his Strang Line to the new community. In 1909, he arranged for the first area aeroplane flight that astonished and charmed the metropolitan populace. He built the first private airfield in the Midwest, where he held spectacular air shows and extravaganzas like Buffalo Bill's Wild West. Overland Park has since grown to be the second largest city in Kansas. The highly rated school system has graduated many notable and recognizable figures, such as Paul Rudd, Jason Sudeikis, and former US chairman of the joint chiefs of staff Gen. Richard Myers.

San Juan Bautista Charles W. Clough, 1996 A century ago, San Juan Bautista was the hub of Northern California, a crossroads where, over the years, you would have encountered gentle Mutsune Indians, hard-working Franciscan padres, fierce outlaws and a host of other fascinating characters. Yet today San Juan Bautista is a quaint, sleepy village with a quiet ambience that belies its dynamic past. In this book, Charles W. Clough enticingly unveils this vibrant past, granting the reader a rare peek into 200 years of history.
