**Soda Politics** Marion Nestle,2015 How did products containing absurdly inexpensive ingredients become multibillion dollar industries and international brand icons, while also having a devastating impact on public health? In Soda Politics, Dr. Marion Nestle answers this question by detailing all of the ways that the soft drink industry works overtime to make drinking soda as common and accepted as drinking water, for adults and children. Dr. Nestle shows how sodas are principally miracles of advertising; Coca-Cola and PepsiCo spend billions of dollars each year to promote their sale to children, minorities, and low-income populations, in developing as well as industrialized nations. And once they have stimulated that demand, they leave no stone unturned to protect profits. That includes lobbying to prevent any measures that would discourage soda sales, strategically donating money to health organizations and researchers who can make the science about sodas appear confusing, and engaging in Corporate Social Responsibility (CSR) activities to create goodwill and silence critics. Soda Politics follows the money trail wherever it leads, revealing how hard Big Soda works to sell as much of their products as possible to an increasingly obese world.--From publisher description.

**The Routledge Handbook of Festivals** Judith Mair,2018-09-03 In recent times, festivals around the world have grown in number due to the increased recognition of their importance for tourism, branding and economic development. Festivals hold multifaceted roles in society and can be staged to bring positive economic impact, for the competitive advantage they lend a destination or to address social objectives. Studies on festivals have appeared in a wide range of disciplines, and consequently, much of the research available is highly fragmented. This handbook brings this knowledge

together in one volume, offering a comprehensive evaluation of the most current research, debates and controversies surrounding festivals. It is divided into nine sections that cover a wide range of theories, concepts and contexts, such as sustainability, festival marketing and management, the strategic use of festivals and their future. Featuring a variety of disciplinary, cultural and national perspectives from an international team of authors, this book will be an invaluable resource for students and researchers of event management and will be of interest to scholars in the fields of anthropology, sociology, geography, marketing, management, psychology and economics.

**The SAGE Encyclopedia of Corporate Reputation** Craig E. Carroll,2016-05-04 What creates corporate reputations and how should organizations respond? Corporate reputation is a growing research field in disciplines as diverse as communication, management, marketing, industrial and organizational psychology, and sociology. As a formal area of academic study, it is relatively young with roots in the 1980s and the emergence of specialized reputation rankings for industries, products/services, and performance dimensions and for regions. Such rankings resulted in competition between organizations and the alignment of organizational activities to qualify and improve standings in the rankings. In addition, today's changing stakeholder expectations, the growth of advocacy, demand for more disclosures and greater transparency, and globalized, mediatized environments create new challenges, pitfalls, and opportunities for organizations. Successfully engaging, dealing with, and working through reputational challenges requires an understanding of options and tools for organizational decision-making and stakeholder engagement. For the first time, the vast and important field of corporate reputation is explored in the format of an encyclopedic reference. The SAGE Encyclopedia of Corporate Reputation comprehensively overviews concepts and techniques for identifying, building, measuring, monitoring, evaluating, maintaining, valuing, living up to and/or changing corporate reputations. Key features include: 300 signed entries are organized in A-to-Z fashion in 2 volumes available in a choice of electronic or print formats Entries conclude with Cross-References and Further Readings to guide students to in-depth resources. Although organized A-to-Z, a thematic Reader's Guide in the front matter groups related entries by broad areas A Chronology provides historical perspective on the development of corporate reputation as a discrete field of study. A Resource Guide in the back matter lists classic books, key journals, associations, websites, and selected degree programs of relevance to corporate reputation. A General Bibliography will be accompanied by visual maps noting the relationships between the various disciplines touching upon corporate reputation studies. The work concludes with a comprehensive Index, which—in the electronic version—combines with the Reader's Guide and Cross-References to provide thorough search-and-browse capabilities

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and thrilling novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
