**Astrologia Gallica Book 24** Jean Baptiste Morin,2005-11 This book is an English translation of Book 24 of the Astrologia Gallica, in which Morin explains the proper use of Transits to pinpoint the time when a predicted event will occur. He first criticizes the various types of symbolic directions used by other astrologers of his day and then sets forth his own method of prediction with numerous examples. The nature and time of an event in a person's life can be determined from his Natal Horoscope, its Primary Directions, Solar and Lunar Returns and their Primary Directions, and concordant Transits. By following the method that he sets forth, it is sometimes possible to determine the exact Day when the event signified by a radical Primary Direction will occur. Morin was a physician who became the most renowned of all French astrologers. He was appointed Royal Mathematician to King Louis XIII and was summoned to be present at the birth of the royal heir, the future King Louis XIV. The present volume also contains example charts drawn for the actual times of significant events in the lives of a number of 17th century celebrities; each chart is accompanied by a explanation of how the several factors combined to produce the events at the times shown. The book closes with two chapters setting forth general instructions for determining the precise time of events and a final chapter with valuable rules for reading natal horoscopes. James Herschel Holden is Research Director of the American Federation of Astrologers.

Venus in Signs Saket Shah,2022-02-01 Dear Reader, We always wonder that every sign in Vedic astrology has different meaning and results. So how does the planet sitting in it will behave. So in this book I am describing how Venus will give results in different zodiac signs in most possible and descriptive way. The planet behavior changes along with the sign it sits in and give different results. Every sign itself is a mystery and planet sitting in sign becomes more mysterious and gives results in very different pattern. Planet is nothing but a cosmic energy which in particular location in zodiac during our birth impacts our entire life the way we think and the way we behave and also controls our emotions. The glands in our brain reacts to this cosmic energy and creates a certain characteristic in our life pattern and day to day life and we can understand this by understanding our horoscope and by checking which sign the planet is sitting and how it impacts our thinking and life. I hope you will love this book and enjoy reading. Regards, Saket Shah

Manthi Tirupur S. GopalaKrishnan (GK),2023-01-21 Recognizing the contributions of others, I got the fortunate chance to translate the beautiful novel, Manthi, into English, which was a lovely experience. I was awestruck the whole time I was reading them. If there were nine planets in the astrological chart, we would have heard a lot more. This is all owing to one of Manthi's sub-planets, which I discovered thanks to an alternate approach taught by my astrological instructor. Salutations to my astrological father, who instilled in me the ability to think in this manner. Several real concepts are revealed in each of his works, not just in terms of astrology but also in terms of science, and this Manthi book is no exception. My mind was blown by how you employed science as if it were the greatest method to approach every situation. So far, more than 72 volumes have been authored by our revered Tirupur GK, who is creating history by achieving a milestone in the history of astrology. So far, he has more than 42,000 pupils studied astrology under his guidance. He has devoted more than three-quarters of his life to the study of astrology and other related subjects. Not just students from Tamil Nadu, but also students from other states. It's not only about Indian pupils. Our Tamil Nadu is proud of the fact that foreigners came to him to study astrology with him as well. I have no doubt that any book he produces will serve as a model for others in the area of astrology for many years to come. His writing style is quite exquisite, and he provides a straightforward practical explanation of the principles for using the sub-planets of Manthi, the horoscope, and Prasanam. I was astounded by his astrological knowledge, which I found to be extraordinary in the wide realm of astrology. He did an excellent job writing about the sub-planet Manthi. As a student at Tiruppur GK, I am also really happy with my accomplishments.
