The Spirit of Ancient Egypt Ana Ruiz,2001 A mosaic of details and charming tales, an intriguing portrait of life in the oldest of civilizations.

The End of Revolution Frida Ghitis,2001 Provides a journalist's front line account of the extraordinary transformation of our world over the past decade. Points out the poverty, economic uncertainty, continued government instability, and domestic unrest among nations that expected global capitalism to turn the world into one big free trade zone.

Restorative Justice Jennifer Furio,2007 America keeps expanding its prisons - despite the lack of any credible evidence to show that this punitive view of justice provides safer communities and reduces crime. But how is this justice system serving us? This book is an introduction to the concept and practice of restorative justice, by Jennifer Furio, who captured America's heart with her letter exchanges with murderers.

Empress Dowager Cixi X. L. Woo,2007 In all the history of China, only two women ever conquered and held the heights of power. Both enjoyed long reigns characterized by ruthless intrigue; they maintained an iron grip at the center while the vast country was torn by rebellions and caught up i.

The Morgenthau Plan John Dietrich,2002 After hostilities officially ceased, what drove American policy towards Germany in 1944-1949? While Soviet policies came under closer inspection, Western policies have rarely been subjected to critical review. This book deals with the Morgenthau Plan and its impact on American postwar planning. Conventional accounts of Western postwar policies occasionally mention the Morgenthau Plan, describing it as a plan developed in the Treasury Department designed to deindustrialize or ?

Locke, Jefferson, and the Justices George M. Stephens,2002 Arguing that there is an unbroken political-philosophical line running through John Locke, Thomas Jefferson, and Newt Gingrich, the author explores how some of Locke's ideas have showed up in different forms throughout American history. In a rather scattershot manner, he touches upon how some of the

Mikhail Bakunin Paul McLaughlin,2002 Bakunin as Philosopher? The first English-language philosophical study of Mikhail Bakunin, this book examines the philosophical foundations of Bakunin?s social thought. It is concerned not so much with the explication of his anarchist position, as such, a.

Civilization's Quotations Richard Alan Krieger,2007 These 8,000 clever and insightful sayings, organized by theme, will enrich the prose of writers, public speakers and anyone seeking to lead or persuade. It also provides a wealth of inspirational affirmations to guide us in our lives. Chinese proverbs, Roman maxims and the wisdom of writers from William Penn to Kahlil Gibran cover themes from humility and patience to courage, will and action. The topics are arranged in a sequence that begins with birth and progresses through the seasons of the Ideal Life. When possible, each quotation flows into the next one so that the whole section reads almost like a speech given by one person. In other sections, one quotation plays off another, creating a lively discussion amongst the authors.

Prophets Without Honor William Strabala,2007 This is a story of political protest grounded in historical necessity. It is the story of

a group of American men who happen to be priests - who happen to have served decades in American prisons. It is a story about America; a story told before only in b.

Moldova Marcel Mitrasca,2007 With the Cold War era behind us, the murky territorial questions on RomaniaOCOs northeastern border start to receive more attention. What are Moldova, Moldavia, Bessarabia, and Transdniestria; and how did they wind up suspended between Romania and Russia?

A Philosophy of War Alexander Moseley,2002 War's origins are complex: they are found in the nebulous systems of thoughts generated in cultures over time. But while reason and explication can unravel those origins - and explain why man wages war - the task of abolishing war can never be completed.

The New Predator--Women Who Kill Deborah Schurman-Kauflin,2000 This is the first book ever written on the basis of face-to-face interviews with women serial killers. The author, a professional criminal profiler, analyzes the common features and the distinctions between women and men who kill, and their crimes and cri.

Team Killers Jennifer Furio,2001 Furio, a prison-reform activist, mixes true-crime chills with sociological analysis and excerpts from her correspondence with death- row inmates to shed light on the phenomenon of team killers. These are couples or groups in which a leader, usually a man, manipulates a weaker partner, frequently a w

French Connections Sophie Coignard,Marie-Thérèse Guichard,2000 To write this secret history, the authors questioned participants and observers of arcane groups in every milieu and every class in France. From the mountain red necks to the brotherhood of the Mediterranean Coast, from the Charente clan to the new capitalists' club, they lift the veil from all these subterranean understandings that glue together society.

Time and Ego Claudiu A. Secara,1998 Some historians see great events shaped by great personalities. Others see people dwarfed by massive impersonal forces of economics or class. Claudiu A. Secara sees both explanations dwarfed by the Power of the Collective Idea. In the panoply of man's teachers, Christ has an unparalleled influence. Why is that? Historically, Christ emerged from the confluence of Judaism's philosophical religion and the Greek sense of individuality, and impressed his countrymen with his teaching of submission to no religious authority. They were in awe, expecting a political Messiah, but were confronted with Jesus' own anti-Christ spirit-- ancient thinking of what modern-day philosophy has more elaborately defined as Western dialectical materialism. No less prophetic, Duns Scotus, one of England's early Scholastics, was the father of his nation through the Laws and the Commandments that he gave it. His sojourns in Oxford and Paris were his Egyptian wandering; Northumberland was his Mt. Sinai, while his new nation was Britannia. The story of Duns Scotus' individuality and the ensuing chapter in English history-- the industrial revolution-- is the exemplary history that lies at the origins of our Western civilization.
