Disconnect Devra Davis, 2010-09-23 As [Disconnect] shows, cell phones may actually be doing damage to far more than our attention spans-and could, in fact, be killing us. -Salon.com. Since the invention of radar, cell phone radiation was assumed to be harmless because it wasn't like X-rays. But a sea change is now occurring in the way scientists think about it. The latest research ties this kind of radiation to lowered sperm counts, an increased risk of Alzheimer's, and even cancer. In Disconnect, National Book Award finalist Devra Davis tells the story of the dangers that the cell phone industry is knowingly exposing us-and our children-to in the pursuit of profit. More than five billion cell phones are currently in use, and that number increases every day. Synthesizing the findings and cautionary advice of leading experts in bioelectricalmagnetics and neuroscience, Davis explains simple safety measures that no one can afford to ignore.

Raider's Wake James L. Nelson, 2017-04-18 After the treachery and slaughter they met during the raid on Glendalough, Thorgrim Night Wolf and his small band of surviving Northmen have returned to Vík-ló where Thorgrim again sits as lord of the Viking

longphort. But the Northmen are a restless lot, and soon they find themselves eager to put to sea. Loading weapons and supplies aboard the four longships under Thorgrim's command, they set out in search of the rich merchant ships that now ply Irish waters. But not all cargoes are the same, nor all merchant captains easy targets for the Norse raiders. Crossing wakes with a Frisian shipmaster who could be Thorgrim's equal in seamanship and cunning, the Northmen soon find themselves seeking vengeance even as they fight to keep from a watery grave.

Race, Class, and Politics in the Cappuccino City Derek S. Hyra, 2017-04-17 For long-time residents of Washington, DC's Shaw/U Street, the neighborhood has become almost unrecognizable in recent years. Where the city's most infamous open-air drug market once stood, a farmers' market now sells grass-fed beef and homemade duck egg ravioli. On the corner where AM.PM carryout used to dish out soul food, a new establishment markets its \$28 foie gras burger. Shaw is experiencing a dramatic transformation, from "ghetto" to "gilded ghetto," where white newcomers are rehabbing homes, developing dog parks, and paving the way for a third wave coffee shop on nearly every block. *Race, Class, and Politics in the Cappuccino City* is an in-depth ethnography of this gilded ghetto. Derek S. Hyra captures here a quickly gentrifying space in which long-time black residents are joined, and variously displaced, by an influx of young, white, relatively wealthy, and/or gay professionals who, in part as a result of global economic forces and the recent development of central business districts, have returned to the cities earlier generations fled decades ago. As a result, America is witnessing the emergence of what Hyra calls "cappuccino cities." A cappuccino has essentially the same ingredients as a cup of coffee with milk, but is considered upscale, and is double the price. In Hyra's cappuccino city, the black inner-city neighborhood undergoes enormous transformations and becomes racially "lighter" and more expensive by the year.

Bail Reform in America Wayne H. Thomas, 1976 This is a study of major national efforts in the past 15 years to reduce the impact of money, and the lack of it, in determining whether a criminal defendant obtains freedom prior to trial. Thomas offers the results of a national study on bail reform since its beginning with the Manhattan Bail Project of 1961 and a survey of the major operational changes in the bail system since then.

Fracture Gradient Jim McCulloch, 2012-10 It's the 1980's, Ronald Reagan is President, and America has recovered from the crippling energy shortages of the 1970's when OPEC nearly squeezed oil-dependent economies to death. But now the U.S. energy industry is faltering as OPEC again manipulates the international oil markets to wrestle back dominance and force America to her knees one more time. Out of nowhere, rumors of an astonishing alternative energy discovery suddenly emerge and threaten to reshuffle the international balance of power, destroy OPEC, and make the world energy self-sufficient. Fletcher Boyd and Hollis Cade own it . . . for what it's worth and at least for now. Information insidiously leaks and all hell breaks loose as Big Oil, OPEC, and governments explode into action. Who can be trusted? Can a handful of ruggedly individualistic underdogs withstand the massive assault from highly-trained government operatives and corporate security forces? What seems simple is not. What seems logical is not. Energy is power and power means everything to those who wield it. But Fletcher and Hollis don't bend or bow; they're hard men who think for themselves and are willing to fight for principle and what's theirs. Deadly intrigue, numbing twists, and exhilarating action will rivet you to your chair as a question chafes somewhere in the dark recesses of your psyche . . . an itch that can't be scratched. Has this happened? What else will you find in *Fracture Gradient*? You will find breathtaking action and adventure in the international

oil and gas industry, Texas, Saudi Arabia, OPEC and Saudi Aramco, ham radio, private jets, F-4 Phantoms fighting an F-14 Tomcat over northern Minnesota, general aviation carnage, the bin laden family, and a fascinating peek into the concept of hydrogen power derived from a very common substance! Not enough? Well, then there are the US military veterans fighting for their lives, plenty of gunplay, a damaged marriage, and astounding wealth up for grabs! How's that?

No Greater Love Helen Baylor, 2007 Look at Helen Baylor today and you don't see the anguish of childhood molestation, the isolation resulting from teen-age pregnancy, the desperation of being strung out on drugs, the vulnerability of being homeless, the numbing fear of having witnessed a murder or the pain of being forced to sell her body. You're too caught up in the purity of her singing, the anointing on her voice. You hear the joy of a changed life. As a gospel singer, Helen has few peers. There are many who are better known than she but few who can sing from such depth of conviction -- and with such passion. Her story is raw and compromised. She tells of becoming a teen-age singing sensation, of joining the cast of Hair, of hooking up with the Ike and Tina Turner Review, the Captain & Tennille, a Chaka Khan and Rufus. Then she tells of her friendship with cocaine and her promiscuity. She tells of bright highs and dark lows. She tells of the underside of life and of her glorious deliverance through Jesus Christ. For Helen Baylor, there truly is no greater love.

Good Cop, Bad Criminal Gary Sahlin, 2020-08-20 Gary Sahlin was a good cop, but a bad criminal. His childhood dream was to become a police officer. He accomplished this dream after serving honorably in the United States Navy. Then, after a series of unfortunate events, and some very poor decisions, he ended up in the federal prison system serving a twenty-year sentence for a bank

robbery. Instead of wallowing in depression with the way his life turned out he decided to turn a negative situation into a positive one. Navigating through the justice system as an ex-cop wasn't always easy, but he made it and he came out a much better person. He is now sharing his story about living on both sides of the law in an entertaining, informative and compelling new book titled: Good Cop, Bad Criminal: Becoming a Cop, a Criminal and Life on Both Sides of the Law.
