Manet and Modern Beauty Gloria Groom,2019-06-25 This stunning examination of the last years of Édouard Manet's life and career is the first book to explore the transformation of his style and subject matter in the 1870s and early 1880s. The name Manet often evokes the provocative, heroically scaled pictures he painted in the 1860s for the Salon, but in the late 1870s and early 1880s the artist produced quite a different body of work: stylish portraits of actresses and demimondaines, luscious still lifes, delicate pastels, intimate watercolors, and impressionistic scenes of suburban gardens and Parisian cafés. Often dismissed as too pretty and superficial by critics, these later works reflect Manet’s elegant social world, propose a radical new alignment of modern art with fashionable femininity, and record the artist’s unapologetic embrace of beauty and visual pleasure in the face of death. Featuring nearly three hundred illustrations and nine fascinating essays by established and emerging Manet specialists, a technical analysis of the late Salon painting *Jeanne* (Spring), a selection of the artist’s correspondence, a chronology, and more, *Manet and Modern Beauty* brings a diverse range of approaches to bear on a little-studied area of this major artist’s oeuvre.

Beauty and Business Philip Scranton,2014-03-05 Leading historians explore how our ideas of what is attractive are influenced by a broad range of social and economic factors. They force us to reckon with the ways that beauty has been made, bought and sold in modern America.

The 116 Jim Muehlberger,James P. Muehlberger,2015 During the opening days of the Civil War, President Lincoln was under the threat of kidnapping and assassination plots. In the chaos that was Washington at the time, it was the job of 116 men and their charismatic leader Kansas free state advocate Jim Lane to protect the president. This book is a meticulously researched account of those individuals and the pre-war conflicts that tore Missouri and the Kansas Territory apart in the 1850s.

Style and Status Susannah Walker,2007-02-23 Between the 1920s and the 1970s, American economic culture began to emphasize the value of consumption over production. At the same time, the rise of new mass media such as radio and television facilitated the advertising and sales of consumer goods on an unprecedented scale. In *Style and Status: Selling Beauty to African American Women, 1920–1975*, Susannah Walker analyzes an often-overlooked facet of twentieth-century consumer society as she explores the political, social, and racial implications of the business devoted to producing and marketing beauty products for African American women. Walker examines African American beauty culture as a significant component of twentieth-century consumerism, and she links both subjects to the complex racial politics of the era. The efforts of black entrepreneurs to participate in the American economy and to achieve self-determination of black beauty standards often caused conflict within the African American community. Additionally, a prevalence of white-owned firms in the African American beauty industry sparked widespread resentment, even among advocates of full integration in other areas of the American economy and culture. Concerned African Americans argued that whites had too much influence over black beauty culture and were invading the market, complicating matters of physical appearance with questions of race and power. Based on a wide variety of documentary and archival evidence, Walker concludes that African American beauty standards were shaped within black society as much as they were formed in reaction to, let alone imposed by, the majority culture. *Style and Status* challenges the notion that the civil rights and black power movements of the 1950s through the 1970s represents the first period in which African Americans wielded considerable influence over standards of appearance and beauty. Walker explores how beauty culture affected black women’s racial and feminine identities, the role of black-owned businesses in African American communities, differences between black-owned and white-owned manufacturers of beauty products, and the concept of racial progress in the post-World War II era. Through the story of the development of black beauty culture, Walker examines the interplay of race, class, and gender in twentieth-century America.

Cultural History of Early Modern European Streets Riitta Laitinen,Thomas Thomas Vance Cohen,2009 In urban life, streets are elemental, but urban history seldom places them centre stage. It tends to view them as mere backdrops for events or social relations, or to study them as material constructions, the fruit of urban planning, but largely vacant of inhabitants. Examining people and streets in tandem, the contributors to this volume strive towards more integrated urban history. They discuss the social and political processes of early modern street life, and the discursive play in which streets figured. Six chapters, based in Sweden-Finland, England, Portugal, Italy, and Transylvania, discuss the subtle interplay of the material and immaterial, public and private, planned order and versatility, spontaneous invention, control and resistance a all matters central to how streets worked. Contributors are Emese BALint, Maria Helena Barreiros, Elizabeth S. Cohen, Thomas V. Cohen, Alexander Cowan, Anu Korhonen, Riitta Laitinen, and Dag LindstrAm.

Refiguring Women, Colonialism, and Modernity in Burma Chie Ikeya,2011-01-31 Refiguring Women, Colonialism, and Modernity in Burma presents the first study of one of the most prevalent and critical topics of public discourse in colonial Burma: the woman of the *khit kala*—the woman of the times—who burst onto the covers and pages of novels, newspapers, and advertisements in the 1920s. Educated and politicized, earner and consumer, Burmese and Westernized, she embodied the possibilities and challenges of the modern era, as well as the hopes and fears it evoked. In *Refiguring Women*, Chie Ikeya interrogates what these shifting and competing images of the feminine reveal about the experience of modernity in colonial Burma. She marshals a wide range of hitherto unexamined Burmese language sources to analyze both the discursive figurations of the woman of the *khit kala* and the choices and actions of actual women who—whether pursuing higher education, becoming political, or adopting new clothes and hairstyles—unsettled existing norms and contributed to making the woman of the *khit kala* the privileged idiom for debating colonialism, modernization, and nationalism. The first book-length social history of Burma to utilize gender as a category of sustained analysis, *Refiguring Women* challenges the reigning nationalist and anticolonial historical narratives of a conceptually and institutionally monolithic colonial modernity that made inevitable the rise of ethnonationalism and xenophobia in Burma. The study demonstrates the irreducible heterogeneity of the colonial encounter and draws attention to the conjoined development of cosmopolitanism and nationalism. Ikeya illuminates the important roles that Burmese men and women played as cultural brokers and agents of modernity. She shows how their complex engagements with social reform, feminism, anticolonialism, media, and consumerism rearticulated the boundaries of belonging and foreignness in religious, racial, and ethnic terms. *Refiguring Women* adds significantly to examinations of gender and race relations, modernization, and nationalism in colonized regions. It will be of interest to a broad audience—not least those working in the fields of Southeast Asian studies, colonial and postcolonial studies,

cultural studies, and women’s and gender studies.

Patriarchy and the Politics of Beauty Allan D. Cooper,2019-10-04 Patriarchy has been justified by philosophies of beauty, but such paradigms have come into conflict with contemporary international law governing human rights. This book analyzes how feminist philosophy has undermined dualistic notions of sexual identity, and is transforming human consciousness.

Ancient Greece, Modern Psyche Virginia Beane Rutter,Thomas Singer,2015-04-10 Between ancient Greece and modern psyche lies a divide of not only three thousand years, but two cultures that are worlds apart in art, technology, economics and the accelerating flood of historical events. This unique collection of essays from an international selection of contributors offers compelling evidence for the natural connection and relevance of ancient myth to contemporary psyche, and emerges from the second 'Ancient Greece, Modern Psyche' conference held in Santorini, Greece, in 2012. This volume is a powerful homecoming for those seeking a living connection between the psyche of the ancients and our modern psyche. This book looks at eternal themes such as love, beauty, death, suicide, dreams, ancient Greek myths, the Homeric heroes and the stories of Demeter, Persephone, Apollo and Hermes as they connect with themes of the modern psyche. The contributors propose that that the link between them lies in the underlying archetypal patterns of human behaviour, emotion, image, thought, and memory. Ancient Greece, Modern Psyche: Archetypes Evolving makes clear that an essential part of deciphering our dilemmas resides in a familiarity with Western civilization's oldest stories about our origins, our suffering, and the meaning or meaninglessness in life. It will be of great interest to Jungian psychotherapists, academics and students as well as scholars of classics and mythology.

Selling Women's History Emily Westkaemper,2017-01-09 Only in recent decades has the American academic profession taken women’s history seriously. But the very concept of women’s history has a much longer past, one that’s intimately entwined with the development of American advertising and consumer culture. Selling Women’s History reveals how, from the 1900s to the 1970s, popular culture helped teach Americans about the accomplishments of their foremothers, promoting an awareness of women’s wide-ranging capabilities. On one hand, Emily Westkaemper examines how this was a marketing ploy, as Madison Avenue co-opted women’s history to sell everything from Betsy Ross Red lipstick to Virginia Slims cigarettes. But she also shows how pioneering adwomen and female historians used consumer culture to publicize histories that were ignored elsewhere. Their feminist work challenged sexist assumptions about women’s subordinate roles. Assessing a dazzling array of media, including soap operas, advertisements, films, magazines, calendars, and greeting cards, Selling Women’s History offers a new perspective on how early- and mid-twentieth-century women saw themselves. Rather than presuming a drought of female agency between the first and second waves of American feminism, it reveals the subtle messages about women’s empowerment that flooded the marketplace.

The Business of Beauty Jessica P. Clark,2020-04-30 The Business of Beauty is a unique exploration of the history of beauty, consumption, and business in Victorian and Edwardian London. Illuminating national and cultural contingencies specific to London as a global metropolis, it makes an important intervention by challenging the view of those who-like their historical contemporaries-perceive the 19th and early 20th centuries as devoid of beauty praxis, let alone a commercial beauty culture. Contrary to this perception, The Business of Beauty reveals that Victorian and Edwardian women and men developed a number of tacit strategies to transform their looks including the purchase of new goods and services from a heterogeneous group of urban entrepreneurs: hairdressers, barbers, perfumers, wigmakers, complexion specialists, hair-restorers, manicurists, and beauty “culturists.” Mining trade journals, census data, periodical print, and advice literature, Jessica P. Clark takes us on a journey through Victorian and Edwardian London's beauty businesses, from the shady back parlors of Sarah “Madame Rachel” Leverson to the elegant showrooms of Eugène Rimmel into the first Mayfair salon of Mrs. Helena Titus, aka Helena Rubinstein. By revealing these stories, Jessica P. Clark revises traditional chronologies of British beauty consumption and provides the historical background to 20th-century developments led by Rubinstein and others. Weaving together histories of gender, fashion, and business to investigate the ways that Victorian critiques of self-fashioning and beautification defined both the buying and selling of beauty goods, this is a revealing resource for scholars, students, fashion followers, and beauty enthusiasts alike.
