Rosemary Gladstar

1,001 Home Remedies Mary Rose Quigg,2022-01-18

Simple, practical, and inspiring tips, recipes, and wellness advice. This practical and inspiring little book offers over 1,000 wellness tips for boosting your immune system, caring for burns and wounds, improving your complexion, reducing stress, and much more. Find simple and effective home remedies such as: To relieve a dry, irritating cough: to 1/3 pt (200ml) boiling water, add the juice of 1 lemon, 2 tsp honey, 1/4 tsp cinnamon, 1 clove garlic, and a sprig of rosemary. Stir well, cover and leave for 15 mins. Strain and sip slowly. To relieve eczema, steep 1/2 ounce (13 grams) chamomile flowers in 1 pint (600 milliliters) boiling water for 20 minutes and add to a bath. To relieve tension in the upper body, sit cross-legged, block the ears with your fingers. Breathe in, then breathe out making a humming sound to lengthen the exhalation. Repeat 10 times before going to bed. To remove makeup, coat the fingers with almond, sunflower, or avocado oil and spread evenly over the face and neck. Remove the oil with tissues. Saturate a black tea bag with warm water. Press over clean lips for 5 minutes. Repeat if desired. Black tea is high in tannic acid, retains moisture, and keeps lips smooth and taut. To give hair a shine, mash an over-ripe banana; combine with 3 drops of almond oil. Massage into dry hair, leave on for 15 minutes. Shampoo as usual. Many of the hints found here are the product of tradition passed from one generation to another. They cover advice on care of the body from head to toe, a common sense approach to first aid and using medicines, recipes for non-toxic cleaning solutions, ways to alleviate common ailments with ingredients you probably already have on hand, and more.

The Modern Herbal Dispensatory Thomas

Easley,Steven Horne,2016-11-29 The definitive, full-color

guide to making and using approximately 250 herbal medicines at home, with instructions for everything from harvesting to administering low-cost, DIY remedies. This comprehensive, full-color guide provides detailed, easy-to-follow instructions for making and using approximately 250 herbal medicines at home, including practical tips and numerous effective formulas developed and tested by the authors, both expert herbalists with years of experience. Readers who appreciate the health-giving properties of herbal medicines but are discouraged by the high price of commercial products can now make their own preparations for a fraction of the cost. The authors tell you everything you need to know about harvesting, preparing, and administering herbs in many different forms, including fresh, bulk dried herbs, capsules, extracts in water, alcohol, glycerin, vinegar and oil, and even preparations like essential oils and flower essences. The book also covers topical applications of herbs as salves, lotions, poultices, tooth powders, ear drops, and more, and includes an extensive chapter on herbal hydrotherapy. The Modern Herbal Dispensary explains why different preparations of the same herb will obtain better results, demonstrating how capsules, teas, tinctures, or glycerites of the same plant will not have exactly the same effect on the body. Leading herbalists Thomas Easley and Steven Horne have tested and proven the herbal formulas they offer, along with suggestions for treating more than one hundred illnesses. They lay out the principles of herbal formulation and also provide instructions on how to prepare single herbs, a procedure that has been largely ignored in other references. More comprehensive than any other guide, thoroughly researched, beautifully illustrated, and presented with ease of use in mind, this book will take its place as the premier reference for those who want to

produce all the herbal remedies they need, and to save money in the process.

Modern Herbal Medicine Steven Horne,Thomas

Easley,2017-05-23 This comprehensive, practical reference equips readers with a wealth of information that empowers

them to use natural remedies to treat 500 different health problems. Unlike guides that simply list natural therapies for various ailments, this book helps readers understand the root cause of problems so that they can focus on regaining their health rather than just relieving their symptoms. The authors--two professional herbalists with decades of clinical experience--impart dozens of basic, holistic health-building strategies based on a model called The Disease Tree that conveys the four root causes of disease, the six imbalances in biological terrain, and supporting the eleven body systems. They link 500 health problems to more than 200 single herbs, 50 nutritional supplements, and 1000 herbal formulas, with information that enables users to select the appropriate treatment for their own particular condition. Cross references, lists of complementary therapies, instructions on how to read and understand labels, suggestions for further education, and information on sourcing products from a wealth of suppliers make this an essential reference for anyone hoping to regain health the natural way. The natural remedies found in this book are available at a fraction of the cost of many established medical treatments, and without serious side effects of a number of prescribed medications. All major brands of herbs and supplements are covered here, and can be purchased locally at local health food stores or online.

Apelian, Claude Davis, Sr., 2019-07-07 304 color pages, paperback, improved print quality, and a lot more plant identification details This unique book is written by Dr. Nicole Apelian, an herbalist with over 20 years of experience working with plants, and Claude Davis, a wild west expert passionate about the lost remedies and wild edibles that kept previous generations alive. The Lost Book of Herbal Remedies has color pictures of over 181 healing plants, lichens, and mushrooms of North America (2-4 pictures/plant for easy identification). Inside, you'll also discover 550 powerful natural remedies made from them for every one of your daily needs. Many of these remedies had been used by our forefathers for hundreds of years, while others come from Dr. Nicole's extensive natural practice. This book was made for people with no prior plant knowledge who are looking for alternative ways to help themselves or their families. This lost knowledge goes against the grain of mainstream medicine and avoids just dealing with symptoms. Instead, it targets the underlying root cause and strengthens your body's natural ability to repair itself. With the medicinal herbal reference guide included, it's very easy to look up your own condition and see exactly which herbs and remedies can help. Let me just offer you a small glimpse of what you'll find inside: On page 145 learn how to make a powerful relieving extract using a common backyard weed. This plant acts directly on the central nervous system to help with all kinds of pain and

discomfort. You'll also discover the most effective natural antibiotic that still grows in most American backyards (page 150). Turn to page 43 for the natural protocol Dr. Nicole is recommending for a wide range of auto-immune conditions, after falling prey to MS herself at age 29.
