Half-Earth: Our Planet's Fight for Life Edward O. Wilson,2016-03-07 An audacious and concrete proposal...Half-Earth completes the 86-year-old Wilson’s valedictory trilogy on the human animal and our place on the planet.

—Jedediah Purdy, New Republic In his most urgent book to date, Pulitzer Prize–winning author and world-renowned biologist Edward O. Wilson states that in order to stave off the mass extinction of species, including our own, we must move swiftly to preserve the biodiversity of our planet. In this visionary blueprint for saving the planet (Stephen Greenblatt), Half-Earth argues that the situation facing us is too large to be solved piecemeal and proposes a solution commensurate with the magnitude of the problem: dedicate fully half the surface of the Earth to nature. Identifying actual regions of the planet that can still be reclaimed—such as the California redwood forest, the Amazon River basin, and grasslands of the Serengeti, among others—Wilson puts aside the prevailing pessimism of our times and speaks with a humane eloquence which calls to us all (Oliver Sacks).

The End of the Asian Century Michael R. Auslin,2017-01-10 An urgently needed risk map of the many dangers that could derail Asia's growth and stability Since Marco Polo, the West has waited for the Asian Century. Today, the world believes that Century has arrived. Yet from China's slumping economy to war clouds over the South China Sea and from environmental devastation to demographic crisis, Asia's future is increasingly uncertain. Historian and geopolitical expert Michael Auslin argues that far from being a cohesive powerhouse, Asia is a fractured region threatened by stagnation and instability. Here, he provides a comprehensive account of the economic, military, political, and demographic risks that bedevil half of our world, arguing that Asia, working with the United States, has a unique opportunity to avert catastrophe but only if it acts boldly. Bringing together firsthand observations and decades of research, Auslin's provocative reassessment of Asia's future will be a must-read for industry and investors, as well as politicians and scholars, for years to come.

Rock Me on the Water Ronald Brownstein,2021-03-23 In this exceptional cultural history, Atlantic Senior Editor Ronald Brownstein—"one of America's best political journalists (The Economist)—tells the kaleidoscopic story of one monumental year that marked the city of Los Angeles' creative peak, a glittering moment when popular culture was ahead of politics in predicting what America would become. Los Angeles in 1974 exerted more influence over popular culture than any other city in America. Los Angeles that year, in fact, dominated popular culture more than it ever had before, or would again. Working in film, recording, and television studios around Sunset Boulevard, living in Brentwood and Beverly Hills or amid the flickering lights of the Hollywood Hills, a cluster of transformative talents produced an explosion in popular culture which reflected the demographic, social, and cultural realities of a changing America. At a time when Richard Nixon won two presidential elections with a message of backlash against the social changes unleashed by the sixties, popular culture was ahead of politics in predicting what America would become. The early 1970s in Los Angeles was the time and the place where conservatives definitively lost the battle to control popular culture. Rock Me on the Water traces the confluence of movies, music, television, and politics in Los Angeles month by month through that transformative, magical year. Ronald Brownstein reveals how 1974 represented a confrontation between a massive younger generation intent on change, and a political order rooted in the status quo. Today, we are again witnessing a generational cultural divide. Brownstein shows how the voices resistant to change may win the political battle for a time, but they cannot hold back the future.

Financial Inclusion, Regulation, and Education Naoyuki Yoshino,Peter J. Morgan,2017 Financial inclusion is receiving increasing attention as having the potential to contribute to economic and financial development while at the same time fostering more inclusive growth and greater income equality. Although substantial progress has been made, there is still much to achieve. East Asia, the Pacific, and South Asia combined account for 55% of the world's unbanked adults, mainly in India and the People's Republic of China. This book surveys the experience of a number of advanced and Asian emerging economies to assess factors affecting the ability of low-income households and small firms to access financial services, including financial literacy, financial education programs, and financial regulatory frameworks, as well as identify policies that can improve their financial access while maintaining financial stability. It aims to identify successful experiences and important lessons that can be adopted by other emerging economies. The studies cover the experiences of Germany, the United Kingdom, Bangladesh, India, Indonesia, the Philippines, Sri Lanka, and Thailand. The book adopts a practical and holistic approach to issues related to financial inclusion. For example, innovative methods of promoting financial access, such as mobile phone banking and microfinance, require corresponding innovations in regulatory frameworks, perimeters, and capacity. Moreover, programs in the areas of financial education and consumer protection are needed to enable households and firms to take full advantage of improvements in financial access.

An Uncertain Refuge Carolyn J. Rose,2011-07-01 A child orphaned by violence. A woman sworn to protect and raise him. A killer come to claim him. A few deadly minutes in An Uncertain Refuge. Kate Dalton lives by the rules of honesty and fair play until she steps between a battered woman and the man intent on killing her. Amanda Blake barely survives; her ex-husband dies by Kate's hand. The repercussions force Kate from her job at a domestic violence shelter. Fleeing unwanted publicity and yearning to break with her past, she heads to the Oregon coast, burdened by a coerced promise to Amanda-to care for the nine-year-old son of the man she killed and shield him from the truth. For several weeks Kate holds a tattered web of lies together. Then Way-Ray's vengeful uncle murders Amanda, an ambush journalist tells the story, and the boy bolts in horror. Aided by a dangerous man she only half-trusts, Kate searches for the boy she's come to love. But a sadistic killer intent on claiming his kin is watching every move.
