**EU Labor Markets After Post-Enlargement Migration** Martin Kahanec,Klaus F. Zimmermann,2009-10-10 Selected by Princeton University as Noteworthy Book in Industrial Relations and Labor Economics for 2010. Are immigrants from the new EU member states a threat to the Western welfare state? Do they take jobs away from the natives? And will the source countries suffer from severe brain drain or demographic instability? In a timely and unprecedented contribution, this book integrates what is known about post-enlargement migration and its effects on EU labor markets. Based on rigorous analysis and hard data, it makes a convincing case that there is no evidence that the post-enlargement labor migrants would on aggregate displace native workers or lower their wages, or that they would be more dependent on welfare. While brain drain may be a concern in the source countries, the anticipated brain circulation between EU member states may in fact help to solve their demographic and economic problems, and improve the allocative efficiency in the EU. The lesson is clear: free migration is a solution rather than a foe for labor market woes and cash-strapped social security systems in the EU.

*Imperial-Way Zen* Christopher Ives,2009-07-08 During the first half of the twentieth century, Zen Buddhist leaders contributed actively to Japanese imperialism, giving rise to what has been termed Imperial-Way Zen (Kodo Zen). Its foremost critic was priest, professor, and activist Ichikawa Hakugen (1902-1986), who spent the decades following Japan's surrender almost single-

handedly chronicling Zen’s support of Japan’s imperialist regime and pressing the issue of Buddhist war responsibility. Ichikawa focused his critique on the Zen approach to religious liberation, the political ramifications of Buddhist metaphysical constructs, the traditional collaboration between Buddhism and governments in East Asia, the philosophical system of Nishida Kitaro (1876–1945), and the vestiges of State Shinto in postwar Japan. Despite the importance of Ichikawa’s writings, this volume is the first by any scholar to outline his critique. In addition to detailing the actions and ideology of Imperial-Way Zen and Ichikawa’s ripostes to them, Christopher Ives offers his own reflections on Buddhist ethics in light of the phenomenon. He devotes chapters to outlining Buddhist nationalism from the 1868 Meiji Restoration to 1945 and summarizing Ichikawa’s arguments about the causes of Imperial-Way Zen. After assessing Brian Victoria’s claim that Imperial-Way Zen was caused by the traditional connection between Zen and the samurai, Ives presents his own argument that Imperial-Way Zen can best be understood as a modern instance of Buddhism’s traditional role as protector of the realm. Turning to postwar Japan, Ives examines the extent to which Zen leaders have reflected on their wartime political stances and started to construct a critical Zen social ethic. Finally, he considers the resources Zen might offer its contemporary leaders as they pursue what they themselves have identified as a pressing task: ensuring that henceforth Zen will avoid becoming embroiled in international adventurism and instead dedicate itself to the promotion of peace and human rights. Lucid and balanced in its methodology and well grounded in textual analysis, Imperial-Way Zen will attract scholars, students, and others interested in Buddhism, ethics, Zen practice, and the cooptation of religion in the service of violence and imperialism.

*Film Remakes* NA NA,2016-10-03 This is the first book to provide a comprehensive and systematic account of the phenomenon of cinematic remaking. Drawing upon recent theories of genre and intertextuality, *Film Remakes* describes remaking as both an elastic concept and a complex situation, one enabled and limited by the interrelated roles and practices of industry, critics, and audiences. This approach to remaking is developed across three broad sections: the first deals with issues of production, including commerce and authors; the second considers genre, plots, and structures; and the third investigates issues of reception, including audiences and institutions.
