Artists' Monograms and Indiscernible Signatures III John Castagno,2009 John Castagno's Artists' Signatures and Monograms have become the standard reference source for galleries, museums, libraries, and collectors around the world. Whether used to identify, authenticate, or verify signatures and works of both well-known and little-known artists, Castagno's work has no equal. In the first volume of Artists Monograms and Indiscernible Signatures, An International Directory, 1800-1991 (Scarecrow, 1991), Castagno provided identification for more than 3,700 artists' signatures, along with biographical information and reference sources. The second volume featured some 2,100 artists and 3,000 signature examples. This third volume contains more than 1,250 signatures of some 1,225 artists. In addition to the standard signature entries, the book features sections for monograms and initials, common surname signatures, alternative surname signatures, symbols, and Cyrillic Signatures. Less than five percent of the entries in this volume are listed in the first two volumes--and these are included to provide additional information about the artists. The use of Artists' Monograms and Indiscernible Signatures III: An International Directory provides the researcher a reference tool not duplicated elsewhere--one that will save many hours of research.

Art Alphabets, Monograms, and Lettering J. M. Bergling,2019-05-15 Chicago-based jewelry engraver J. M. Bergling (1866-1933) created thousands of letter styles, signets, monograms, and ciphers. A noted author on the subjects of lettering and heraldic design, Bergling created books that became standard references of his era. He assembled his first book, Art Monograms and Letters,with the hopes of inspiring other etchers, engravers, sign painters, and artisans. This volume contains selected illustrations from that publication in addition to his complete Art Alphabets and Lettering,which comprises 96 pages of layouts and letter styles ranging from simple to ornate. Commercial artists, designers, calligraphers, engravers, amateurs, and professionals will prize this exclusive edition as a source of high-quality images and alphabets. This reference book features an appreciative Foreword by artist and author James Gurney, which places Bergling's works in historical context.

Artists' Monograms and Indiscernible Signatures II John Castagno,2007 John Castagno's Artists' Signatures and Monograms have become the standard reference source for galleries, museums, libraries, and collectors around the world. Whether used to identify, authenticate, or verify signatures and works of both well-known and little-known artists, Castagno's work has no equal. In the first volume of Artists Monograms and Indiscernible Signatures, An International Directory, 1800-1991 (Scarecrow, 1991), Castagno provided identification for more than 3,700 artists' signatures, along with biographical information and reference sources. This second volume contains some 2,100 artists and 3,000 signature examples. In addition to the standard signature entries, the book features sections for monograms and initials, common surname signatures, alternative surname signatures, symbols, and Cyrillic Signatures. Less than five percent of the entries in this volume are listed in the original volume--and these are included to provide additional information about the artists. The use of Artists' Monograms and Indiscernible Signatures II: An International Directory From 1900 provides the researcher a reference tool not duplicated elsewhere--one that will save many hours of research.

American Artists John Castagno,1990 The purpose of this book is the identification of artists' signatures: some 4,500 American artists and, in addition, some 600 Canadian and Latin American artists. Necessary biographical information, such as nationality, birth and death dates, is given along with bibliographical references and auction records in the form of key letters which help direct the reader to further sources of information. With each artist, there is presented at least one signature facsimile; in many cases, multiple signatures totalling nearly 10,000 examples taken from oil paintings, watercolors, drawings, and prints covering as broad a range as possible in painting styles and periods from 1800 through 1989. For the easy identification of an artist who signs his or her work with a pseudonym, monogram, symbol or indecipherable signature, there are three separate sections in the back of the book.--Introduction.

Dictionary of Signatures & Monograms of American Artists Peter H. Falk,1988

Abstract Artists John Castagno,2007 John Castagno's Artists' Signatures and Monograms have become the standard reference source for galleries, museums, libraries, and collectors around the world. Whether used to identify, authenticate, or verify signatures and works of both well-known and little-known artists, Castagno's work has no equal. In this new volume, Castagno has collected the signatures and monograms of artists who have spent all or a part of their careers in abstract art--painters, printmakers, sculptors, and photographers worldwide. This book features approximately 2,300 artists with more than 3,900 signature examples of how they sign their works. In addition to the standard signature entries, the book contains sections for monograms and initials, common surname signatures, alternative surname signatures, symbols, and Cyrillic signatures. This book also lists an additional 1,500 artists whose entry bears no signature. All 3,800 artists are listed with the most updated information on nationality, birth, and/or death dates. The entries direct the researcher to many biographical and bibliographical sources not found on web site searches, and many of the resources offer additional references. Several individual listings provide gallery referrals and catalog auction dates, which can be used to buy or sell a particular artist's work. The use of Abstract Artists Signatures and Monograms: An International Directory provides the researcher a reference tool not duplicated elsewhere--one that will save many hours of research.
