The Last Monster Dan Walker,2022-08-04 The Light Hunters have fought Monsters for centuries and Squad Juno are the very best at it. From cities to villages, the young group's abilities are on show for all to see now that their powers don't have to be used in secret. Every victory they have prevents a Monster from taking more victims, preventing more loss. Lux Dowd, Squad Juno's healer, has had more than enough loss ... But a more immediate loss is that of his powers. Lux can't - or won't - heal his teammates. Whenever he tries, a terrible energy comes from within and hurts the people around him. Lux can't afford to lose anymore of those he cares about. Sent on a mission that could end their war against the Monsters, the Light Hunters soon find themselves making new allies in their quest to unearth an Ancient secret that may be able to stop the attacks. Could this really be the last monster they fight?

The Monster Hypothesis Romily Bernard,2019-12-04 Welcome to Bohring-home to 453 people, 2,053 alligators, and one monster curse.

Correction: home to 454 people, now that Kick Winter is living in the swamp Hollows with her Grandma Missouri, the town (fake) psychic. Bohring is anything but boring for Kick who has already blown a hole through the kitchen floor, befriended a chicken-eating gator, and discovered that the town's hundred-year curse is upon them. It's the Bohring curse and all the kids are about to become monsters-or so the legend goes. People are worried-except for Kick. She knows there's a scientific explanation for everything, especially curses and monsters. But Kick is the new kid in school and she's determined to make a name for herself . . . by pretending to be psychic. According to her calculations: one teeny-tiny life + (fake) psychic skills = popularity. But when kids start disappearing and glowing creatures start showing up, Kick's theory quickly evaporates in a puff of foul-smelling swamp gas. Can Kick use her (real) science smarts to prove the curse is a hoax? Or is it just-maybe-sort of-somehow possible the curse is here? Author Romily Bernard weaves a fast-paced middle-grade mystery filled with humor and scientific intrigue, set in a perfectly eerie Southern town.
