Killing Monsters Gerard Jones, 2008-08-04 Children choose their heroes more carefully than we think. From Pokemon to the rapper Eminem, pop-culture icons are not simply commercial pied pipers who practice mass hypnosis on our youth. Indeed, argues the author of this lively and persuasive paean to the power of popular culture, even violent and trashy entertainment gives children something they need, something that can help both boys and girls develop in a healthy way. Drawing on a wealth of true stories, many gleaned from the fascinating workshops he conducts, and basing his claims on extensive research, including interviews with psychologists and educators, Gerard Jones explains why validating our children's fantasies teaches them to trust their own emotions, helps them build stronger selves, leaves them less at the mercy of the pop-culture industry, and strengthens parent-child bonds. Jones has written for the Spider-Man, Superman, and X-Men comic books and created the Haunted Man series for the Web. He has also explored the cultural meanings of comic books and sitcoms in two well-received books. In *Killing Monsters* he presents a fresh look at children's fantasies, the entertainment industry, and violence in the modern imagination. This reassuring book, as entertaining as it is provocative, offers all of us—parents, teachers, policymakers, media critics—new ways to understand the challenges and rewards of explosive material. News From *Killing Monsters*: Packing a toy gun can be good for your son-or daughter. Contrary to public opinion, research shows that make-believe violence actually helps kids cope with fears. Explosive entertainment should be a family affair. Scary TV shows can have a bad effect when children have no chance to discuss them openly with adults. It's crucial to trust kids' desires. What excites them is usually a sign of what they need emotionally. Violent fantasy is one of the best ways for kids to deal with the violence they see in real life.

Valerius Flaccus: Argonautica Book III Valerius Flaccus, 2015-10-22 The first commentary in English on a book of this Flavian epic tailored to the needs of graduate and undergraduate students.

Valerius Flaccus' Argonautica Debra Hershkowitz, 1998 Valerius Flaccus' unfinished and unjustly neglected epic recounting the Argonauts' quest for the Golden Fleece and the early stages of the doomed love affair of Jason and Medea has been relegated to the outer fringes of classical scholarship for many years. A full-length study devoted to the *Argonautica* has not been published in English for over 100 years. This book seeks to address this balance. Dr. Hershkowitz aims to provide readers who have not yet encountered Valerius Flaccus' work with a general introduction to this multi-faceted epic poem. At the same time the author offers those already familiar with the *Argonautica* an in-depth re-evaluation of the work, contextualizing it within both an historical and literary framework, focusing in particular on its intertextual relationship with Apollonius' *Argonautica* and Vergil's *Aeneid*.

The Monster in the Garden Luke Morgan, 2016 In *The Monster in the Garden*, Luke Morgan develops a new conceptual model of Renaissance landscape design, arguing that the monster was a key figure in Renaissance culture and that the incorporation of the monstrous into gardens was not incidental but an essential feature.

Monster Walter Dean Myers, 2009-10-06 This New York Times bestselling novel from acclaimed author Walter Dean Myers tells the story of Steve Harmon, a teenage boy in juvenile detention and on trial. Presented as a screenplay of Steve's own imagination, and peppered with journal entries, the book shows how one single decision can change our whole lives. *Monster* is a multi-award-winning, provocative coming-of-age story that was the first-ever Michael L. Printz Award recipient, an ALA Best Book, a Coretta Scott King Honor selection, and a National Book Award finalist. *Monster* is now a major motion picture called *All Rise* and starring Jennifer Hudson, Kelvin Harrison, Jr., Nas, and A\$AP Rocky. The late Walter Dean Myers was a National Ambassador for Young People's Literature, who was known for his commitment to realistically depicting kids from his hometown of Harlem.

Fighting Theory Avital Ronell, Anne Dufourmantelle, 2010 International interest in the work of Avital Ronell has expressed itself in reviews, articles, essays, and dissertations. For *Fighting Theory*, psychoanalyst and philosopher Anne Dufourmantelle conducted twelve interviews with Ronell, each focused on a key topic in one of Ronell's books or on a set of issues that run throughout her work. What do philosophy and literary studies have to learn from each other? How does Ronell place her work within gender studies? What does psychoanalysis have to contribute to contemporary thought? What propels one in our day to Nietzsche, Derrida, Nancy, Bataille, and other philosophical writers? How important are courage and revolt? Ronell's discussions of such issues are candid, thoughtful, and often personal, bringing together elements from several texts, illuminating hints about them, and providing her up-to-date reflections on what she had written earlier. Intense and often ironic, *Fighting Theory* is a poignant self-reflection of the worlds and walls against which Avital Ronell crashed.

Robert Mugabe and the Will to Power in an African Postcolony William J. Mpfu,2021-03-04 This book is a philosopher’s view into the chaotic postcolony of Zimbabwe, delving into Robert Mugabe’s Will to Power. The Will to Power refers to a spirited desire for power and overwhelming fear of powerlessness that Mugabe artfully concealed behind performances of invincibility. Nietzsche’s philosophical concept of the Will to Power is interpreted and expanded in this book to explain how a tyrant is produced and enabled, and how he performs his tyranny. Achille Mbembe’s novel concept of the African postcolony is mobilised to locate Zimbabwe under Mugabe as a domain of the madness of power. The book describes Mugabe’s development from a vulnerable youth who was intoxicated with delusions of divine commission to a monstrous tyrant of the postcolony who mistook himself for a political messiah. This account exposes how post-political euphoria about independence from colonialism and the heroism of one leader can easily lead to the degeneration of leadership. However, this book is as much about bad leadership as it is about bad followership. Away from Eurocentric stereotypes where tyranny is isolated to African despots, this book shows how Mugabe is part of an extended family of tyrants of the world. He fought settler colonialism but failed to avoid being infected by it, and eventually became a native coloniser to his own people. The book concludes that Zimbabwe faces not only a simple struggle for democracy and human rights, but a Himalayan struggle for liberation from genocidal native colonialism that endures even after Robert Mugabe’s dethronement and death.
