Back to Human Dan Schawbel, 2018-11-13 WASHINGTON POST BESTSELLER A Financial Times Book of the Month Back to Human explains how a more socially connected workforce creates greater fulfillment, productivity, and engagement while preventing burnout and turnover. The next generation of leaders must create a workplace where teammates feel genuinely connected, engaged, and empowered -- without relying on technology. Based on Dan Schawbel's exclusive research studies -- featuring the perspectives of over 2,000 managers and employees across different age groups -- Back to Human reveals why virtual communication, though vital and useful, actually contributes to a stronger sense of isolation at work than ever before. How can we change this culture? Schawbel offers a self-assessment called the Work Connectivity Index that measures the strength of team relationships. He also shares exercises, examples, and activities that readers can work on individually or as a team, which will help them increase personal productivity, be more collaborative, and become more fulfilled at work. Back to Human ultimately helps you decide when and how to use technology to build better connections in your work life. It is a call to action to leaders across the world to make the workplace a better experience for all of us.

Scary Monsters and Super Creeps Dom Joly, 2021-09-02 Dom Joly sets off round the world, but this time he's not looking to holiday in a danger zone - he's monster hunting. Ever since he was given a copy of Arthur C. Clarke's *Mysterious World* for his ninth birthday Dom has been obsessed with the world of cryptozoology - monster hunting - and in *Scary Monsters and Super Creeps* he heads to six completely different destinations to investigate local monster sightings. He explores the Redwood Curtain in northern California in search of Sasquatch; in Canada he visits Lake Okanagan hoping to catch a glimpse of a thirty-foot snake-like creature called Ogopogo; and near Lake Tele in Congo he risks his life tracking the vegetarian sauropod Mokele-mbembe. Naturally he heads to Loch Ness - but for this hunt he has his family in tow; he treks across the Khumbu Valley in Nepal looking for Yeti; and in the hills above Hiroshima in Japan he enlists the help of a local man to find the Hibagon, a terribly smelly 'caveman ape'. Are the monsters all the product of fevered minds, or is there a sliver of truth somewhere in the madness? Either way, the search gives Dom an excuse to dive into six fascinating destinations on a gloriously nutty adventure. In typically hilarious and irreverent fashion, Dom explores the cultures that gave rise to these monster myths and ends up in some pretty hairy situations with people even stranger than the monsters they are hunting.

Achieving Success with the Engineering Dissertation Petra Gratton, Guy Gratton, 2020-01-22 This book guides the student reader in preparing their dissertation or major project, including both report and presentation, and explains how to use them as a bridge to the next big thing - the graduate's first job, or their next degree. The dissertation is the single most important component of an engineering degree, not only carrying the most marks, but bridging from academic study to professional practice. *Achieving Success with the Engineering Dissertation* describes the different types of dissertation, how to pick the best project and how a student can prepare themselves to succeed with their own dissertation. The authors explain how best to plan and execute the project, including the roles of the student, supervisor and project sponsor, and what they should expect from each other. Further material includes details of competitions that can be entered with dissertation projects, presentation of data, using the dissertation in job interviews, and creating research publications. *Achieving Success with the Engineering Dissertation* will be of use to both undergraduate and postgraduate students in all fields of Engineering, and to their supervisors.

Monster Hunter International, Second Edition Larry Correia, 2015-05-13 Contains an all-new afterword by New York Times best-selling author Larry Correia! Welcome to Monster Hunter International. Five days after Owen Zastava Pitt pushed his insufferable boss out of a fourteenth story window, he woke up in the hospital with a scarred face, an unbelievable memory, and a job offer. It turns out that monsters are real. All the things from myth, legend, and B-movies are out there, waiting in the shadows. Officially secret, some of them are evil, and some are just hungry. On the other side are the people who kill monsters for a living. Monster Hunter International is the premier eradication company in the business. And now Owen is their newest recruit. It's actually a pretty sweet gig, except for one little problem. An ancient entity known as the Cursed One has returned to settle a centuries old vendetta. Should the Cursed One succeed, it means the end of the world, and MHI is the only thing standing in his way. With the clock ticking towards Armageddon, Owen finds himself trapped between legions of undead minions, belligerent federal agents, a cryptic ghost who has taken up residence inside his head, and the cursed family of the woman he loves. Business is good . . . At the publisher's request, this title is sold without DRM (Digital Rights Management). Lexile Score: 710
