Building Job Sites with Joomla! Santonu Kumar Dhar,2010-09-21 Annotation Joomla! is a content management system that helps both novice users and expert developers to create powerful websites. Joomla! has extensions for constructing job sites; web sites for handling employment and careers. It can take hours to build even an elementary job site but imagine yourself building a job site such as Monster, CareerBuilder, a niche job listing such as TechCrunch or your own company job site within few minutes and with minimal development efforts. Building job sites with Joomla! shows you how to create your own job site with Joomla! with the Jobs! Pro extension. From the basic installation and configuration, you will see all the steps required to assemble a working job site in next to no time. This book is a step-by-step tutorial for creating a job site using Joomla!. First you will set up a server environment to install Joomla! 1.5 and Jobs!. Next you will learn how you can use Jobs! configuration settings to control the components of your job site such as adding companies, adding social bookmarking buttons, enabling the users to post their resume online and so on. You will learn to easily manage your site using the Jobs! control panel. This will be followed by using job site template to quickly create a job site and simultaneously test the site you have created. Next you will learn how to speed up the communication between employers and the jobseekers using e-mail templates. You can also entirely control user registration system from Jobs! Pro admin panel. You will also learn to add and manage job types, job categories, and applications to keep your database organized and to keep track of the application status. You will also learn to add a jobseeker or an employer and to manage resume fields. Then you will configure credit systems to charge an amount of money to users according to the specific service provided. By the end of this book you will learn to professionally optimize your Joomla! Job site for search engines and look at list of words that need to be avoided in the URLs. A practical stepwise tutorial to build your professional website using Joomla!

How to Get a Great Job Editors of the American Library Association, 2011-04-27 In our difficult time, or at any time, knowing how to find a great job is a necessary skill. All the resources you need for a successful job search are at your fingertips—and completely free—at your public library. It can be a daunting task, so here is expert advice on how to conduct proper research, build networks of friends and colleagues, put together a great resume, research industries that are constantly changing, prepare for an interview, negotiate a contract or a salary, and more. This could be the turbo-boost your job search needs.

Get Hired Fast! Brian Graham, 2005-02-01 The Job Search Technique Most Recommended by Top Career Counselors You lost your job six months ago. You've emailed 90 resumes. You've scoured the job boards and the help wanted ads. You've called recruiters, old bosses, former coworkers...but nothing. You're scared. You're beginning to think there are no jobs out there. But there ARE jobs. And you can get one of them--if you're willing to try the job search technique that most people are too timid to try. If you're one of 9 million Americans looking for a job, you don't want to go 12 to 24 months without a job offer (as many do). The trick is to tap into the hidden job market--where 90 percent of the jobs really are! Get Hired FAST! shows you how to use a direct-calling strategy that will generate at least three interviews in three weeks. It gives you a 15-day Action Plan, complete with charts, scripts, and other tools that will enable you to use the direct-calling technique like a professional. This no-holds-barred book also includes insider advice on how to ace the interview once your calling strategy pays off, negotiate the best offer, and keep the job once you get it. Get Hired FAST! shows you where and how to identify key contacts in target companies, how to uncover crucial data about target companies, how to script calls to hiring managers in advance--and handle any scenario, from voicemail to conversations with contacts' staffers.
